

Climate Control System

Climate Control System functions differ between systems and vehicles. Presented below are descriptions of the most common control function:

Fan speed control switch/knob\*

Temperature control switch/knob\*

Front windshield defroster button\*

Automatic climate control button\*

Recirculated air button

Climate information screen\*

Air conditioning ON/OFF button

Rear windshield defroster button\*

Mode selection button(s)\*

Dual temperature control mode\*

System OFF\*

**NOTE:** Climate Control System options and the appearance and location of icons on the system in your vehicle may differ, as equipped

QUICK TIPS

Automatic and Manual Defrosting / Defogging

Defrost Outside Windshield:

- 1 Select Defrost Mode
- 2 Select Max Fan Speed
- 3 Set Temperature to Hot

Defog Inside Windshield:

- 1 Select Defrost Mode
- 2 Select Max Fan Speed
- 3 Select desired Temperature\*

\*If moisture appears on windshield, adjust Temperature Control Knob to a warmer temperature

QUICK TIPS

- Keep inside glass as clean as possible to reduce window fogging
- Defrost Mode activates A/C and opens Fresh Air Vent
- When Automatic Climate Control is set to Auto Operation, the A/C indicator will NOT illuminate. The fan speed, air intake, air flow and air conditioning may be engaged automatically at any time to reach desired temperature and reduce humidity

Using Steering Wheel Control Buttons

These buttons on your steering wheel provide you with "hands free" control over your mobile phone equipped with Bluetooth® wireless technology, Audio System, and UVO System

**TALK Button**  
Press to activate voice recognition/bring up available commands for current mode/place calls

**CALL Button**  
Press to receive/place/answer a call

**END CALL Button**  
Press to end a call

**NOTE:** Remember to always wait for the beep before speaking any commands  
**NOTE:** Phone must be connected and paired with the contact list downloaded to make a call from the contact list

Voice Recognition & Phone Contact Tips

To help optimize the Bluetooth® Wireless Technology Voice Recognition system, below are some tips and reminders. Improve the performance by making a few simple changes to your phone contacts:

- Use full names (first and last names) vs. short or single-syllable names ("John Smith" vs. "Dad," "Smith Residence" vs. "Home")
- Avoid using special characters, emojis or hyphenated names (@, &, #, /, -, \*, +, etc.)
- Avoid using acronyms ("In Case of Emergency" vs. "ICE") or words with all capital letters
- Spell words completely, no abbreviations ("Doctor Smith" vs. "Dr. Smith")

The system may have difficulty understanding some accents or uncommon names. Below are other tips to optimize using the voice recognition

Reminder

- Pressing the "Talk" button the steering wheel and stating the command "HELP" will provide a list of commands available for the current mode
- When placing a call, speak in a natural, moderate tone, with clear pronunciation. The system may have trouble recognizing commands if you speak too soft or too loud
- Always wait for the beep before speaking any commands
- Close windows and sunroof and turn off A/C. Open windows, sunroof, weather (wind/rain), or an A/C fan operating at higher speeds can interfere with Voice Recognition
- Press the talk button and say "Help" to get a list of available commands

**Kia Access with UVO link App Download\***

Go to an app marketplace to download the new Kia Access with UVO link App. Once you download, make sure you register your vehicle and start an account (refer to UVO link Activation page). Get to know your new Kia and the available convenient features on the app.

The smartphone and vehicle need to be connected to a cellular network with a good wireless signal strength in order to use UVO. If these conditions are not met, voice commands may fail or take a long time to execute

- To use Remote Start or Remote Start with Climate Control feature, all doors, hood and trunk/liftgate must be closed and locked
- Activate Remote Start or Remote Start with Climate Control feature at least 10 minutes before getting into the vehicle, which will allow vehicle interior to reach a desired temperature. If the driver does not enter the vehicle within the 10 minutes, the Remote Start will turn off the engine
- The quickest way to obtain accurate vehicle status through the app is by pressing the refresh button on the app or refreshing the web page when using the customer web portal
- In order to preserve the vehicle battery, UVO will not turn on seven days after the last ignition was on. You will need to restart the vehicle with a key fob in order to use UVO again
