

# CAR MULTIMEDIA SYSTEM

## PHONE PROJECTION GUIDE

English

The Power to Surprise

This manual applies to all Kia models and includes descriptions and explanations of optional as well as standard equipment. As a result, you may find material in this manual that does not apply to your specific vehicle.

## What is Phone Projection?

You can securely access your smartphone while driving by using this feature. Various functions on your smartphone are displayed on the multimedia system so you can easily use them (finding directions, making a call, listening to music etc.).

With Phone Projection supported device connected, Phone Projection menu appears on the display. Available functions and operations may differ depending on the model.

For more information, visit the Phone Projection website.

- Android Auto: <http://support.google.com/androidauto/>
- Apple CarPlay: <http://www.apple.com/ios/carplay/>

---

## Precautions

- Android Auto is a registered trademark of Google Inc.
- Apple CarPlay is a registered trademark of Apple Inc.
- Phone Projection will be unavailable if the phone OS is not the latest version or your phone is unable to be recognized due to a shutdown caused by a failure or defect in the device itself.
- Your phone may not be recognized if its battery is low. Charge your phone then try again.
- If your phone is shut down due to a defect in the device itself, reset your phone and try again.
- If you repeatedly connect and disconnect the USB cable on the device in a short period of time, your phone may malfunction. This can also cause a device failure.
- The device recognition time may differ depending on the device type and firmware/OS version.
- Using the USB cable that came with the phone is recommended. (Using a non-genuine product may cause noise or malfunction.)
- Normal operation is not guaranteed when you arbitrarily manipulate your phone while Phone Projection is active.
- Phone Projection may not operate normally due to mobile phone issues.
- Network charges may apply when using Phone Projection.
- You cannot run Apple CarPlay while making a call using Bluetooth.
- If the network signal strength is weak, some Phone Projection features may not work properly.

- The following problems may occur due to issues with your phone.

### [Android Auto]

- Intermittent black screens appear when entering Android Auto.
- Unable to differentiate between phones that support Android Auto and those do not.
- Black screens appear in some areas of the screen due to phone or app errors.

### [Apple CarPlay]

- Intermittent black screens appear when entering Apple CarPlay.
- Black screens appear in some areas of the screen due to app errors when navigating between screens in Apple CarPlay.
- Audio volume may not be adjusted depending on the status of the connected phone.

### NOTICE

- If services do not work properly due to problems similar to the specified above, check your phone and if necessary, reconnect your phone after restarting.

## Using Phone Projection Features

1. With Android Auto, connect the USB cable provided by the mobile manufacturer. With Apple CarPlay, connect the USB cable provided by Apple.
2. On the Home or All Menus screen, select the **Android Auto** or **Apple CarPlay** icon.

※ The actual Home screen in the vehicle may differ from the screen above.

3. You can use Phone Projection features, such as navigation, music and phone.

## NOTICE

---

- Before connecting your mobile phone, check whether Phone Projection is set to ON in the Phone Projection Settings menu.
  - After connecting the mobile phone, you must unlock your phone and accept the Disclaimers on your phone in order for Phone Projection to launch.
  - The screens and features displayed on the multimedia system are subject to change depending on the policies of each company.
- 

## Android Auto

---

- Refer to the website below to view the list of countries that support Android Auto.  
<https://www.android.com/auto/>
- Bluetooth media features will be disabled when Android Auto is activated. You cannot use Bluetooth Media features such as Bluetooth Audio. If you want to use such features, remove the USB cable before use.
- Android Auto mode does not support the feature that enables you to search for music files by controlling the  TUNE knob.
- If Android Auto is not activated even after a successful connection, check the following:
  - Phone Application status (Check if an error has occurred).
  - Check if Android Auto has been locked on your phone.
  - Check whether Android Auto is set to ON in the Phone Projection Settings menu.
- If Android Auto does not work normally even after a reconnection has been made, visit the Google website <http://support.google.com/androidauto>
- The screens and features displayed on the multimedia system are the same as what Google originally provide. The screens and features are subject to change according to the policy of Google Inc.

---

## Apple CarPlay

---

- To view the available features, such as Apple CarPlay, Siri, and Maps, or countries that support the features, please go to: <http://www.apple.com/ios/feature-availability/>
- When Apple CarPlay is activated, you cannot use Bluetooth. If you want to use Bluetooth Phone/Audio, remove the USB cable and connect to Bluetooth before using them.
- Apple CarPlay mode does not support the feature that enables you to search for music files by controlling the  TUNE knob.

- If Apple CarPlay is not activated even after a successful connection, check the following:
  - Check if Apple CarPlay is disabled in your iPhone's application settings.
  - Check whether Apple CarPlay is set to ON in the Phone Projection Settings menu.
- If Apple CarPlay does not work normally even after a reconnection has been made, visit the Apple website <http://www.apple.com/ios/carplay/>
- The screens and features displayed on the multimedia system are the same as what Apple originally provide. The screens and features are subject to change according to the policy of Apple Inc.

---

## Using Steering Wheel Controls

---

### Starting/Ending Voice Recognition

[  ]

- When pressed quickly. (less than 0.8 seconds)
  - If Android Auto is connected, activates or ends Google voice recognition.
  - If Apple CarPlay is connected, activates or ends Apple CarPlay Siri recognition.
- When pressed and held. (more than 0.8 seconds)
  - If Android Auto is connected, activates or ends Google voice recognition.
  - If Apple CarPlay is connected, activates Apple CarPlay Siri recognition.

Select mode [ **MODE** ]

Each time this is pressed, the mode is changed. Mode order is subject to change depending on the state of the Phone Projection connection and enabled features.

- ※ If the corresponding mode is disabled, the next mode will be enabled.
- ※ While running Phone Projection, you cannot operate features such as: USB, iPod, Bluetooth Audio

## Phone Projection Settings

On the Settings screen, select **Phone Projection** icon.

- ※ The actual Settings screen in the vehicle may differ from the screen above.

### **i** Information

- This setting is disabled when a device is connected to the vehicle's USB port.

You can enable any Phone Projection feature that you would like to connect to or disable them in the Phone Projection Settings menu.

It is recommended you use a device installed with the latest OS version. Some multimedia system features may not be available while Phone Projection is active.
