Push to spray and wipe.

Rotate Rear Wiper Switch to change Wiper modes.

ON: Normal wipe
INT*: Intermittent wipe
OFF: Wiper off

*If equipped

For any questions regarding the features of your vehicle, please contact your preferred Kia dealer, or contact Kia Consumer Affairs at (800) 333-4Kia (4542)

Reference your Owner's Manual for more information on these features.

Warning: Driving while distracted can result in a loss of vehicle control that may lead to an accident, severe personal injury, or death. The driver's primary responsibility is the safe and legal operation of a vehicle, and use of any handheld devices, other equipment or vehicle systems which take the driver's eyes, attention and focus away from the safe operation of a vehicle or which are not permissible by law should never be used during operation of the vehicle.

While the information contained in this guide is accurate at the time of printing, Kia may change vehicle specifications without notice in advance or after the fact, and assumes no liability in connection with such changes.

iPod® and iPhone® are registered trademark of Apple Inc. iPod® mobile digital device sold separately.

The **Bluetooth®** word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by Kia is under license. A **Bluetooth®** enabled cell phone is required to use **Bluetooth®** wireless technology.

Audio System Voice Commands

The voice commands for this system are divided into **Global** and **Local** commands.

- **Global** commands (•) operate in **all modes**
- **Local** commands (◦) operate only in **corresponding modes**

PHONE COMMANDS

- Call <Name> [e.g., "Call John at home"]
- Dial <Number> [e.g., "Dial 321 555 1234"]
- Call
 - By Name
 - By Number
- Redial
- Call Back
- Phonebook
 - Add Entry
 - By Voice
 - By Phone
 - Change Name
 - Delete Name

Pair Your Phone via **Bluetooth®** Wireless Technology

NOTE: Vehicle **MUST** be in "P" or Park.

- 1 Enable **Bluetooth®** wireless technology on your phone
- 2 On your vehicle's Audio System, press the **SETUP** button
- 3 On your Audio System display screen, select **PHONE**
- 4 Select **PAIR** or **PAIR PHONE** (Some systems will prompt you to "Add **Bluetooth®** Device". Select **OK**.)
- 5 In the **Bluetooth®** menu of your phone, select "Search for **Bluetooth®** Devices" (or "Find", "Discovery", "Connect", etc.). Select the name of your vehicle displayed on your phone, then press **OK/Enter**
- 6 On your phone, confirm the passkey, shown on the display, associated with the vehicle name and press **Ok** (or **Send, Enter, Done**, etc.) to complete the pairing

NOTE: Some phones may offer an option to allow default acceptance of any **Bluetooth®** connection requests thereafter (i.e., iPhone Android and BlackBerry phones)

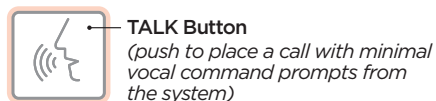

NOTE: Phonebook transfer will occur automatically at initial pairing. Wait until complete before placing a call

NOTE: Visit www.Kia.com/us/en/#/content/owners/bluetooth for additional information on pairing your **Bluetooth®** enabled mobile phone, and to view a phone compatibility list

Using Steering Wheel Control Buttons

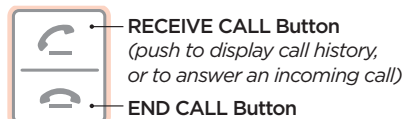

These buttons on your steering wheel provide you with "hands free" control over your mobile phone equipped with *Bluetooth** wireless technology and Audio System.

NOTE: Remember to **always** wait for the beep before speaking any commands

TALK Button

(push to place a call with minimal vocal command prompts from the system)

RECEIVE CALL Button

(push to display call history, or to answer an incoming call)

END CALL Button

There are two ways to use the steering wheel control buttons to place a call.

- 1 Press the **RECEIVE CALL** button . [If *Contacts Sync* is turned **ON**, Call History will be displayed]
- 2 Press the **TALK** button . (Wait for system to **beep**. Some systems may offer prompts to assist in placing call)

QUICK TIPS

Voice Recognition and Phone Contact Tips

The Kia Voice Recognition System may have difficulty understanding some accents or uncommon names. When using Voice Recognition to place a call, speak in a moderate tone, with clear pronunciation. Voice Recognition performance can be improved by ensuring all windows and sunroof are closed, and that Climate Control System fan speed has been lowered to reduce noise in the cabin.

To maximize the use of Voice Recognition, consider these guidelines when storing contacts:

- Do not store single-name entries (e.g., "Bob", "Mom", etc.). Instead, always use full names (including first *and* last names) for these contacts
- Do not use special characters (e.g., '@', '-', '*', '&', etc.)
- Do not use abbreviations (i.e., use "Lieutenant" instead of "Lt.") or acronyms (i.e., use "County Finance Department" instead of "C. F. D."); Be sure to say the name exactly as it is entered in the contacts list

Contacts Sync (Phonebook Download)

The Contacts Sync feature allows you to choose whether your phone contact list will transfer to your vehicle contacts each time your phone is connected or only at the initial phone pairing. To enable or disable Contacts Syncing:

- 1 Press the **SETUP** key on the Audio System
- 2 On the display screen, press **Advanced**, press **Contacts**, then press **On** or **Off** to change the setting

QUICK TIPS

- If Contact Sync is set to **ON**, contacts stored your phone will download each time your phone is connected. There may be a delay before the system is available to place a call
- If Contact Sync is set to **OFF**, your phone contacts will download only at the initial pairing. This allows you to make calls without waiting for your phone contact list to download

Steering Wheel Adjustment

When adjusting the steering wheel in and out, the effort is reduced if the wheel is lifted upward when pulling out/pushing in.

Climate Control Systems

Climate Control System functions differ between systems and vehicles. Presented below are descriptions of the most common control functions:

NOTE: Climate Control System options and the appearance and location of icons on the system in your vehicle may differ, as equipped.

QUICK TIPS

- Keep interior glass surfaces as clean as possible to reduce window fogging
- Defrost  Mode activates A/C and opens Fresh Air Vent
- When Automatic Climate Control is set to Auto Operation, the A/C indicator will NOT illuminate. The fan speed, air intake, air flow and air conditioning may automatically be engaged at any time to reach desired temperature and reduce humidity

QUICK TIPS

Automatic and Manual Defrosting / Defogging

Max Defrost:

- 1 Select **Defrost**  Mode
- 2 Select **Max Fan Speed**
- 3 Set **Temperature** to Hot

Defogging:

- 1 Select **Defrost**  Mode
- 2 Select **Max Fan Speed**
- 3 Select desired **Temperature***

*If moisture appears on windshield, adjust **Temperature Control Knob** to a warmer temperature

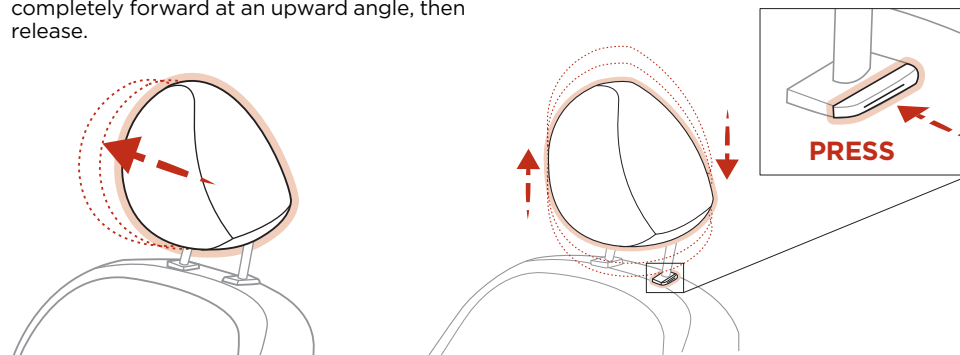

Front Seat Headrest Adjustment

To adjust headrest forward*: Pull headrest forward at an angle to one of three positions.

To adjust headrest back*: Pull headrest completely forward at an upward angle, then release.

To raise headrest: Pull headrest up.

To lower headrest: Press lock, then press the headrest down.

*If equipped

*If equipped
