

Climate Control System

Climate Control System functions differ between systems and vehicles. Presented below are descriptions of the most common control function:

Fan speed control switch/knob*

Temperature control switch/knob*

Front windshield defroster button*

Automatic climate control button*

Recirculated air button

Climate information screen*

Air conditioning ON/OFF button

Rear windshield defroster button*

Mode selection button(s)*

Dual temperature control mode*

System OFF*

NOTE: Climate Control System options and the appearance and location of icons on the system in your vehicle may differ, as equipped

QUICK TIPS

Automatic and Manual Defrosting / Defogging

Defrost Outside Windshield:

- 1 Select **Defrost** Mode
- 2 Select **Max Fan Speed**
- 3 Set **Temperature** to Hot

Defog Inside Windshield:

- 1 Select **Defrost** Mode
- 2 Select **Max Fan Speed**
- 3 Select desired **Temperature***

*If moisture appears on windshield, adjust **Temperature Control Knob** to a warmer temperature

QUICK TIPS

- Keep inside glass as clean as possible to reduce window fogging
- Defrost Mode activates A/C and opens Fresh Air Vent
- When Automatic Climate Control is set to Auto Operation, the A/C indicator will NOT illuminate. The fan speed, air intake, air flow and air conditioning may be engaged automatically at any time to reach desired temperature and reduce humidity

Front Seat Headrest Adjustment*

To adjust headrest forward*: Pull headrest forward at an angle to one of several positions.

To adjust headrest back*: Pull headrest completely forward at an upward angle, then release.

To raise headrest: Pull headrest up.

To lower headrest: Press lock, then press the headrest down.

Steering Wheel Adjustment

When adjusting the steering wheel in and out after unlocking, the effort is reduced if the wheel is lifted upward when pulling out/pushing in.

🕒 QUICK TIPS

Voice Recognition and Phone Contact Tips

The Kia Voice Recognition System may have difficulty understanding some accents or uncommon names. When using Voice Recognition to place a call, speak in a moderate tone, with clear pronunciation. Voice Recognition performance can be improved by ensuring all windows and sunroof are closed, and that Climate Control System fan speed has been lowered to reduce noise in the cabin.

To maximize the use of Voice Recognition, consider these guidelines when storing contacts:

- Use full names vs. short or single syllable names (“John Smith” vs. “Dad”, “Smith Residence” vs. “Home”)
- Avoid using special characters or hyphens (@, &, #, /, -, *, +, etc.)
- Avoid using acronyms (“In Case Emergency” vs. “ICE”)
- Spell words completely, no abbreviations (“Doctor Goodman” vs. “Dr. Goodman”)

NOTE: Always wait for the beep before speaking any commands.
