Climate Control System

Climate Control System functions differ between systems and vehicles. Presented below are descriptions of the most common control functions:

Fan speed control switch/knob*

Temperature control switch/knob*

Front windshield defroster button*

Automatic climate control button*

Recirculated air button

Climate information screen*

Air conditioning ON/OFF button

Rear windshield defroster button*

Mode selection button(s)*

Dual temperature control mode*

System OFF*

NOTE: Climate Control System options and the appearance and location of icons on the system in your vehicle may differ, as equipped

QUICK TIPS

Automatic & Manual Defrosting / Defogging

Defrost Outside Windshield:

- 1 Select **Defrost** Mode
- 2 Select **Max Fan Speed**
- 3 Set **Temperature** to **Hot**

Defog Inside Windshield:

- 1 Select **Defrost** Mode
- 2 Select **Max Fan Speed**
- 3 Select a warm **Temperature** setting*

*If moisture appears on windshield, adjust **Temperature Control Knob** to a warmer temperature

QUICK TIPS

- Keep inside glass as clean as possible to reduce window fogging
- Defrost Mode activates A/C and opens Fresh Air Vent
- When Automatic Climate Control is set to Auto Operation, the A/C indicator will NOT illuminate. The fan speed, air intake, air flow and air conditioning may automatically engage at any time to reach desired temperature and reduce humidity

🕒 QUICK TIPS

Voice Recognition and Phone Contact Tips

To help optimize the Bluetooth® Wireless Technology Voice Recognition system, below are some tips and reminders. Improve the performance by making a few simple changes to your phone contacts:

- Use full names (first and last names) vs. short or single-syllable names ("John Smith" vs. "Dad," "Smith Residence" vs. "Home")
- Avoid using special characters, emojis or hyphenated names (@, &, #, /, -, *, +, etc.)
- Avoid using acronyms ("In Case of Emergency" vs. "ICE") or words with all capital letters
- Spell words completely, no abbreviations ("Doctor Smith" vs. "Dr. Smith")

The system may have difficulty understanding some accents or uncommon names. Below are other tips to optimize using the voice recognition

Reminder

- Pressing the "Talk" button the steering wheel and stating the command "HELP" will provide a list of commands available for the current mode
- When placing a call, speak in a natural, moderate tone, with clear pronunciation. The system may have trouble recognizing commands if you speak too soft or too loud
- Always wait for the beep before speaking any commands
- Close windows and sunroof and turn off A/C. Open windows, sunroof, weather (wind/rain), or an A/C fan operating at higher speeds can interfere with Voice Recognition
- Press the talk button and say "Help" to get a list of available commands

Snap this tag with a QR code reader app on your smart phone to view a video.
