

AUTOMATIC TRANSMISSION (SHIFT BY WIRE) AND SPORT MODE VIDEO

To view a video on your mobile device, snap this QR Code or visit the listed website.

www.KuTechVideos.com/kh13/2016

Power Tilt/Telescoping Steering Wheel

To adjust the steering wheel distance, move the switch **A** forward or backward.

To adjust the steering wheel angle, move the switch **A** up or down.

For more detailed information, refer to the Owner's Manual.

(Switch located on left side of steering wheel)

Automatic Transmission (Shift by Wire) and Sport Mode

To shift into any gear from Park, depress the brake pedal, then press the Unlock button **A** located on the side of the gear shift lever and shift.

P (Park): To shift into Park from any gear, press the P button **B** on the gear shift while vehicle is stationary and the brake pedal is depressed.

R (Reverse): To shift into Reverse, depress brake pedal, press the Unlock button **A**, and move the shift lever forward twice to skip over Neutral and into Reverse.

N (Neutral) [+]: Sport Mode Upshift

D (Drive) [-]: Sport Mode Downshift

Sport Mode: With the gear shift in Drive, pull the lever to the left for Sport mode.

- To upshift [+] - move the shift lever forward
- To downshift [-] - pull the shift lever rearward

Paddle Shifters*: Paddle shifting is operable when the shift lever is in the Sport mode position.

REMINDERS:

- Paddle shifters can be operated when the vehicle speed is more than 6 mph
- When in Sport mode, pulling the left and right paddle shifters at the same time will NOT shift gears

Power Adjustable Driver's Seat

Move/press controls to adjust headrest, seat forward/backward position, seat cushion length, seatback angle or lumbar support.

Headrest Height Adjustment: Move button **A** up/down to adjust headrest height

Seatback Angle Adjustment: Move button **B** forward/backward to adjust seatback angle

Seat Sliding, Seat Height and Cushion Length Adjustments:

- Move button **C** forward/backward to slide seat
- Move front part of button **D** up/down to raise/lower front part of seat
- Move back part of button **E** up/down to raise/lower back part of seat
- Move button **F** forward/backward to increase/decrease cushion length*

Lumbar Support Adjustment:

- Press **G** to increase support
- Press **H** to decrease support
- Press **I** to move lumbar support up/down

Windshield Wipers and Washers

Move lever up/down to change Wiper modes.

MIST: Single wipe | **OFF:** Wiper off | **AUTO:** Auto Rain Sensing | **LO:** Slow wipe | **HI:** Fast wipe

Pull to spray and wipe. To adjust the auto rain-sensing wiper speed setting, move the speed control switch **A** up/down.

For more detailed information, refer to the Owner's Manual.

Power Front Seat Headrest Adjustment*

Power Height Adjustment: To adjust the height, move the seat control button **A** up/down

Manual Tilt Adjustment: To adjust the headrest forward/backward, tilt the lower part of the headrest at a slight angle.

AUTO RAIN-SENSING WINDSHIELD WIPERS VIDEO

To view a video on your mobile device, snap this QR Code or visit the listed website.

www.KuTechVideos.com/kh13/2016

Quick Tips

- When the ENGINE START/STOP button is in the ON position and the wiper switch is in AUTO mode, the wiper will automatically operate once to perform a self-check of the system
- Set the wiper to the OFF position when the wiper is not in use
- If going through a car wash, remind the attendant to keep the vehicle in Neutral (N) and keep the engine running. Also, disable the Power Trunk lid control using the button inside the glove compartment, turn off the auto rain-sensing wipers and fold in the mirrors

UVO Luxury Services with Premium Navigation

Most commonly used voice commands for this system are below and divided into Global and Local commands.

- Global commands (•) operate in all modes
- Local commands (◦) operate only in corresponding modes

UVO LUXURY SERVICES WITH PREMIUM NAVIGATION SYSTEM VIDEO

To view a video on your mobile device, snap this QR Code or visit the listed website.

www.kutechvideos.com/audio/k900_avn

PHONE COMMANDS

- Call Name [e.g., say, "Call name" after system beep. Wait for system response, then speak name as it appears in your contact list (e.g., "Robert Smith")]
- Dial Number
- Redial
- Recent Calls

UVO eServices COMMANDS

- UVO eServices
- Roadside Assist
- eServices Guide
- Vehicle Diagnostics
- My POIs

HELP COMMANDS

- Help
- Destination Help
- Map Help
- SiriusXM Help
- Disc Help
- iPod Help
- USB Help
- Jukebox Help
- Phone Help

RADIO COMMANDS

- Radio
- AM or FM
- FM 1 or FM 2
- AM <frequency> [e.g., say "AM 640"]
- FM <frequency> [e.g., say "FM 101.3"]
- Scan
- Preset Scan

SIRIUSXM* COMMANDS

- SiriusXM
- SiriusXM Channel <0 to 999>
- Channel <0 to 999>
- Scan
- Preset Scan

CD COMMANDS

- CD
- Play
- Pause
- Repeat
- Repeat Off
- Shuffle
- Shuffle Off
- Track <1-99> (Audio)
- Next folder (MP3)
- Previous folder (MP3)

OTHER COMMANDS

- Bluetooth Audio
- Auxiliary

For a complete list of Voice Commands, refer to the Car Navigation System Owner's Manual.

Warning: Driving while distracted can result in a loss of vehicle control that may lead to an accident, severe personal injury and death. The driver's primary responsibility is in the safe and legal operation of a vehicle, and use of any handheld devices, other equipment or vehicle systems which take the driver's eyes, attention and focus away from the safe operation of a vehicle or that are not permissible by law should never be used during operation of the vehicle.

Automatic Climate Control System

Front Climate Control:

- A** Driver's Temperature Control buttons
- B** AUTO (Automatic) Climate Control button
- C** Front Windshield Defrost button
- D** Fan Speed Control buttons
- E** Mode Select button
- F** Recirculated Air ON/OFF button
- G** Front Passenger's Temperature Control buttons

- H** Climate Control System OFF button
- I** Rear Window Defrost button
- J** Air Conditioning ON/OFF button
- K** SYNC (Synchronize All Zones) Temperature Control button
- L** CLIMATE Information Screen Selection button

Climate Control Auto Function:

Press AUTO **B** to select full auto operation. In AUTO mode the driver, front passenger and rear passenger have full control of their own temperature zones. The mode, fan speed, air intake and air conditioning will activate and adjust accordingly to achieve the temperature settings for each zone.

To set temperatures:

Press **A** to set the driver's zone temperature

Press **G** to set the front passenger's zone temperature

REMINDER: Pressing any button during AUTO operation will deactivate the AUTO function and switch to manual mode, except for temperature control.

Automatic and Manual Defrosting / Defogging

Defrost Outside Windshield:

1. Select Defrost Mode
2. Select Max Fan Speed
3. Set Temperature to Hot

Defrost Outside Windshield:

1. Select Defrost Mode
2. Select Max Fan Speed
3. Select a warm Temperature setting*

*If moisture appears on windshield, adjust Temperature Control Knob to a warmer temperature

Quick Tips

- Keep inside glass as clean as possible to reduce window fogging
- Defrost Mode activates A/C and opens Fresh Air Vent
- When Automatic Climate Control is set to Auto Operation, the A/C indicator will NOT illuminate. The fan speed, air intake, air flow and air conditioning may automatically engage at any time to reach desired temperature and reduce humidity

TRI-ZONE AUTOMATIC CLIMATE CONTROL VIDEO

To view a video on your mobile device, snap this QR Code or visit the listed website.

www.KuTechVideos.com/kh13/2016

Tri-Zone Climate Control:

Pressing the SYNC button **K** synchronizes all three climate control zones (driver, passenger and rear) to the driver's temperature control.

Rear Climate Control:

- A** Fan Speed Control knob
- B** Rear Climate Control OFF button
- C** Rear Climate Control LCD screen
- D** Rear Temperature Control knob
- E** AUTO (Automatic) Climate Control button
- F** Climate Control REAR LOCK button

Driver Information System (DIS) Controls

Provides access to all Navigation and audio-system control unit features.

A Controller – In addition to the touchscreen, the controller serves as a means for navigating K900's UVO Luxury Services with Premium Navigation system*. The controller is actually three buttons: A scroll knob — for scrolling the keyboard and menus and zooming in and out on the map screen; an 8-way joystick — for toggling from left to right and top to bottom of menus and moving the focus of the navigation map; and a push button — for selecting the highlighted feature

B Home – Displays the audio control unit's Home menu which provides access to the following options: Phone, UVO, Settings, Media, SiriusXM®, FM/AM, Navigation, and SiriusXM Data®

C Phone – Displays the Phone menu which provides access to the following options: Keypad, Call History, Contacts and Favorites

D Map – Displays a map of the current location or repeats voice guidance

E Nav – Displays the Navigation screen which provides access to the following menu options: Route, Destination, Nearby POI Search, Add to Address Book, Traffic, Guidance Volume and Settings

F Menu – Provides access to additional functions when available

G Back – Returns to the previous screen

H UVO – Displays the UVO menu which provides access to the following options: Roadside Assist, Vehicle Diagnostics, My POIs, eServices Guide, Apps and UVO Settings

I Power Rear Window Sunshade – Operates the one-touch power rear window shade

J Surround View Monitor – Turns on the parking support system, which shows the 360-degree surroundings of the K900 on the navigation screen

K SNOW mode – Turns on SNOW mode, which helps with driving on slippery, snowy or muddy roads

L ▲ / ▼ – Press to select previous/next radio/SiriusXM®* station or media track/file/chapter. Press and hold to automatically cycle through radio stations or rewind/fast forward media tracks/files/chapters

Quick Tip

In addition to the Driver Information System Controls (DIS), you can also move through the system using the touchscreen, steering wheel controls and voice commands.

Pair Your Phone via *Bluetooth*® Wireless Technology

To use the Bluetooth feature, make sure the *Bluetooth*® on your phone is turned on. Refer to your phone's user guide.

NOTE: Vehicle *MUST* be in "P" or Park.

1. Press **(PHONE)** on the remote control for head unit or "📞" on the steering wheel remote control.
2. On your phone, initiate a search for *Bluetooth*® devices. (The default device name is K900)
3. Press [Yes] to connect automatically to the unit and a *Bluetooth*® phone preferentially after ignition switch is in ON position. When you approve in the mobile phone, the mobile phone contacts and the latest call list are downloaded
4. When your phone is successfully connected, the phone screen is displayed on the screen. When the connection fails, a failure message is displayed on the screen. Once *Bluetooth*® connection is successful, the name of the connected mobile phone will become displayed on the phone screen and *Bluetooth*® handsfree functions will operate

NOTES:

- This process may take a few minutes. Radio may play during the wait
- Some phones (i.e., iPhone, Android and Blackberry phones) may offer an option to allow acceptance of all future *Bluetooth*® connection requests by default
- Visit www.Kia.com/#/bluetooth for additional information on pairing your *Bluetooth*® enabled mobile phone, and to investigate phone compatibility

Voice Recognition and Phone Contact Tips

The Kia Voice Recognition System may have difficulty understanding some accents or uncommon names. When using Voice Recognition to place a call, speak in a moderate tone, with clear pronunciation. Voice Recognition performance can be improved by ensuring all windows and sunroof are closed, and that Climate Control System fan speed has been lowered to reduce noise in the cabin.

- To maximize the use of Voice Recognition, consider these guidelines when storing contacts:
- Use full names vs. short or single syllable names ("John Smith" vs. "Dad", "Smith Residence" vs. "Home")
- Avoid using special characters or hyphens (@, &, #, /, -, *, +, etc.)
- Avoid using acronyms ("In Case Emergency" vs. "ICE")
- Spell words completely, no abbreviations ("Doctor Goodman" vs. "Dr. Goodman")

Quick Tips

- When using the voice command feature, wait for the system BEEP before speaking the command
- Phonebook transfer upload time varies by phone model and with number of phonebook entries
- Because of differences in phone quality, service providers and *Bluetooth*® Wireless Technology chip programming, functionality may differ from one phone to another
- Changing language may delete paired phones

UVO Luxury Services with Premium Navigation

To use UVO Luxury Services

1. Press the UVO Hard Key on the center console
2. Select UVO Settings on the home screen
3. Choose Service Activation. Select Activation
4. Review and Agree to UVO Terms and Conditions
5. Complete the form fields for Account Registration (email and password) and press Submit
6. Complete your activation by downloading the UVO Luxury Services app for your iPhone or Android™.

NOTE: Visit www.MyUVO.com to view a phone compatibility list

For more information on *Contacts Sync* or the *UVO eServices System*, refer to the *Car Navigation System Owner's Manual*.

Warning: Driving while distracted can result in a loss of vehicle control that may lead to an accident, severe personal injury and death. The driver's primary responsibility is in the safe and legal operation of a vehicle, and use of any handheld devices, other equipment or vehicle systems which take the driver's eyes, attention and focus away from the safe operation of a vehicle or that are not permissible by law should never be used during operation of the vehicle.

**If equipped*

Using Steering Wheel Audio Control Buttons

A Audio System Mode button - Press to cycle through FM1-2/AM/ SAT 1-3/CD/USB/Aux/iPod®.

B Seek/Presets buttons:

- Radio Mode: Press to advance through preset stations. Press and hold to AUTO SEEK
- CD/USB/iPod® Mode: Press to move TRACK UP/DOWN. Press and hold to FF/REW

C Volume buttons - Press VOL+ / VOL- arrows to raise/lower volume

D MUTE button - Press up to mute all audio

Quick Tips

- Pressing the Audio System Mode button for more than 1 second will turn Audio Mode ON/OFF
- Surround Sound can be turned on or off

REMINDERS:

- Your vehicle's steering wheel buttons may differ from those in the images. See your Owner's Manual for more details
- Driving while distracted is dangerous and should be avoided. Drivers should remain attentive to driving and always exercise caution when using the steering-wheel-mounted controls while driving

For more information on *Bluetooth*® Wireless Technology, refer to the *Car Navigation System Owner's Manual*.

Power Trunk Operation

Driver's Panel Power Trunk Main Control Lever – Located to the left of the steering wheel, below the main button panel.

To open, pull the Power Trunk Main Control lever.

To close, press and hold the Power Trunk Main Control lever.

Android™ Auto

Utilize your Android™ device to gain access to maps, communication, and many compatible music apps.

Setting up Android Auto

1. From an Android™ Auto compatible device, download the Android Auto app from the Google PlayStore
2. Open the Android™ Auto app and proceed with on-screen instructions to complete setup on the mobile device
2. Say "Navigate to [address]" to begin navigation
3. Or from your Android device, start navigation directions with Google Maps
4. In the vehicle's Android™ Auto home screen, press the map icon at the bottom left corner to view navigation

How to start Android™ Auto

1. Press the **(SETUP)** hard key
2. Press the Connectivity icon
3. Check the box for Android™ Auto to enable Android™ Auto
4. Connect the Android™ device with the vehicle using a factory USB cable
5. From the vehicle's home screen, press the Android™ Auto icon to launch Android Auto

How to use Google Maps inside Android™ Auto

1. Press the microphone icon from the vehicle's Android™ Auto screen

POWER TRUNK VIDEO

To view a video on your mobile device, snap this QR Code or visit the listed website.

www.KuTechVideos.com/Kh13/2016

Audio System Media Mode

Media mode includes a variety of modes, such as Disc CD, Disc MP3, Disc DVD, Disc VCD, Jukebox, USB, iPod, Aux, Pandora, *Bluetooth*® Audio. If a media element is not connected/inserted, the corresponding icon will not show on the display.

NOTE: Only MP3 and WMA files may be played or copied to the Jukebox

1. Insert/connect your media and it should automatically start playing. To choose a specific media, press the **(HOME)** key on the Driver Information System controls. Scroll to the desired media and press the Controller to select

2. Press the Controller to play or pause the track/song. To move to the next/previous track, shortly push the Controller **(LEFT / RIGHT)**

Listening to your iPod®

1. Connect an iPod® device or, if an iPod® device is already connected, press the Home key on the DIS controls, scroll to the Media icon, press the controller to select, scroll to iPod, press the controller to select

NOTE: Use the iPod® cable that was supplied with your device. Wait for the song catalog transfer to complete

2. Press the Controller to play or pause the track/song. To move to the next/previous track, shortly push the Controller **(LEFT / RIGHT)**

Listening to music with Pandora® Internet Radio

1. Download Pandora from the Apple® App Store or Google® Play Store on your mobile phone
2. For Apple Device, connect an Apple Device to the USB port. For Android™ Phone, connect an Android™ Phone by Bluetooth
3. Press the **(HOME)** key on the DIS Controls, scroll to the Media icon, press the controller to select, scroll to the Pandora® icon and select

4. Then use the on-screen options to choose what to listen to

NOTES:

- Pandora® on the system is only operable from an iPod® or iPhone® device
- The Pandora® icon must be selected on the screen in order to use all of the available Pandora® features
- If playing music from your device as a USB-connected device only or through *Bluetooth*® Audio streaming, not all of the available Pandora® features will be operable

For more information on using the system or Pandora®, refer to the *Car Navigation System Owner's Manual*.

Listening to Music from your *Bluetooth*® Wireless Technology Device

1. If not already done, pair your *Bluetooth*® wireless technology device to the Audio System
2. Press the **(HOME)** key on the DIS controls. Scroll to the Media icon, press the controller to select, scroll to the Bluetooth Audio icon and press the Controller to select.
3. Press the Controller to play or pause the track/song. To move to the next/previous track, shortly push the Controller **(LEFT / RIGHT)**

NOTE: Surround Sound can be turned ON or OFF depending upon preference
