Driving while distracted is dangerous and should be avoided. Drivers should remain attentive to driving and always exercise caution when using the steering-wheel-mounted controls while driving. Driving while distracted can result in a loss of vehicle control that may lead to an accident, severe personal injury and death. The driver's primary responsibility is in the safe and legal operation of a vehicle, and use of any handheld devices, other equipment or vehicle systems which take the driver's eyes, attention and focus away from the safe operation of a vehicle or that are not permissible by law should never be used during operation of the vehicle.

Safety Features: No system, no matter how advanced, can compensate for all driver error and/or driving conditions. Always drive responsibly.

Tilt/Telescoping Steering Wheel: Never attempt to adjust steering wheel position when vehicle is in motion.

Front Seat Headrest Adjustment: Never attempt to adjust headrests when vehicle is in motion.

Navigation: GPS maps and directions are for information purposes only, and Kia does not make any warranties about the accuracy of that information. Kia is not responsible for loss or delay resulting from the use of the navigation system.

Warning: Do not enter information into the navigation system while the vehicle is moving. Failure to pay attention to travel conditions and vehicle operation while the vehicle is in motion could result in loss of vehicle control. Operate the system only when it is safe and legal to do so.

🕒 QUICK TIPS

Voice Recognition and Phone Contact Tips

- To help optimize the Bluetooth® Wireless Technology Voice Recognition system, below are some tips and reminders. Improve the performance by making a few simple changes to your phone contacts:
- Use full names (first and last names) vs. short or single-syllable names (“John Smith” vs. “Dad,” “Smith Residence” vs. “Home”)
 - Avoid using special characters, emojis or hyphenated names (@, &, #, /, -, *, +, etc.)
 - Avoid using acronyms (“In Case of Emergency” vs. “ICE”) or words with all capital letters
 - Spell words completely, no abbreviations (“Doctor Smith” vs.“Dr. Smith”)
- The system may have difficulty understanding some accents or uncommon names. Below are other tips to optimize using the voice recognition

Reminder

- Pressing the “Talk” button the steering wheel and stating the command “HELP” will provide a list of commands available for the current mode
- When placing a call, speak in a natural, moderate tone, with clear pronunciation. The system may have trouble recognizing commands if you speak too soft or too loud
- Always wait for the beep before speaking any commands
- Close windows and sunroof and turn off A/C. Open windows, sunroof, weather (wind/rain), or an A/C fan operating at higher speeds can interfere with Voice Recognition
- Press the talk button and say “Help” to get a list of available commands
