Available information for users

Car Infotainment System User's Manual

This guide introduces your system's functions and explains how to use them. To use your system correctly and safely, read this guide before using the system.

Car Infotainment System Quick Reference Guide

This guide combines key information into a quick reference. Use this guide to refer to descriptions and instructions more quickly and easily.

Quick Guide

This guide is the help built into the system. You can access basic information on how to control the system and a brief description of major functions directly on the system screen.

- How to access the guide: On the Home screen, touch **All Menus ► Quick Guide**.

For safety, this quick guide will not be displayed while the vehicle is moving. Park your vehicle in a safe location before accessing the quick guide.

Symbols used in this guide

Warning

Indicates important information related to user safety. Failure to follow warnings may result in death or serious personal injury.

Caution

Indicates important information related to user safety. Failure to follow cautions may result in personal injury, or damage or malfunction your vehicle.

Note

Indicates helpful information for convenient use.

*if equipped

Indicates descriptions for optional features.

This guide covers all specifications, including all trim models and optional specifications. It may include descriptions for features that are not equipped in your vehicle.

Safety warnings

For safety, follow the instructions below. Failure to do so may increase the risk of a traffic accident, which may result in death or personal injury.

About driving

Do not operate the system while driving.

- Driving while distracted may result in a loss of vehicle control, potentially leading to an accident, severe personal injury, or death. The driver's primary responsibility is the safe and legal operation of a vehicle, and any handheld devices, equipment, or vehicle systems which divert the driver's attention from this responsibility should never be used during operation of the vehicle.

Follow traffic regulations while driving.

- Driving only with the guidance of the navigation system may cause violation of traffic regulations, which may lead to a traffic accident.

Depend on your vehicle's speedometer when checking your driving speed.

- The speed displayed in the navigation screen may differ from your actual speed.

Avoid watching the screen while driving.

- Driving while distracted may lead to a traffic accident.
- Stop your vehicle in a safe location before using functions that require multiple operations.

Stop your vehicle first before using your mobile phone.

- Using a mobile phone while driving may lead to a traffic accident.

Keep the volume low enough to hear external sounds.

- Driving without the ability to hear external sounds may lead to a traffic accident.
- Listening to a loud volume for a long time may cause hearing damage.

When looking for emergency services, such as hospitals or fire stations, do not depend solely on the navigation system.

- Some emergency services may not be included in the navigation map. Locate nearby emergency services in advance so you can take the proper action quickly in an emergency situation.

About handling the system

Do not disassemble or modify the system.

- Doing so may result in an accident, fire, or electric shock.

Do not allow liquids or foreign substances to enter the system.

- Liquids or foreign substances may cause noxious fumes, a fire, or a system malfunction.

Stop using the system if it malfunctions, such as no audio output or display.

- If you continue using the system when it is malfunctioning, it may lead to a fire, electric shock, or system failure.

Note

If you experience any problems with the system, contact your place of purchase or dealer.

Safety cautions

For safety, follow the instructions below. Failure to do so may result in personal injury or damage to the system.

About operating the system

Use the system with the engine running.

- Using the system for a long time when the engine is stopped may discharge the battery.

Do not install unapproved products.

- Using unapproved products may cause an error while using the system.
- System errors caused by installing unapproved products are not covered under the warranty.

About handling the system

Do not apply excessive force to the system.

- Excessive pressure on the screen may damage the LCD panel or the touch panel.

When cleaning the screen or button panel, make sure to stop the engine and use a soft, dry cloth.

- Wiping the screen or buttons with a rough cloth or using solvents (alcohol, benzene, paint thinner, etc.) may scratch or chemically damage the surface.

If you attach a liquid-type air freshener to the fan louver, the surface of the louver may become deformed due to the flowing air.

Note

If you experience any problems with the system, contact your place of purchase or dealer.

Cautions when using an SD card

Caution

The SD card installed in the system contains map data and software necessary for navigation. Be careful not to damage the SD card.

- Remove the SD card only when you update the system.
- Stop the engine before removing or re-inserting the SD card. Removing or re-inserting the SD card while the system is operating may cause an error or damage the SD card or the system.
- The SD card is intended for storing map data and update files only. Do not add or delete files on the SD card.
- Do not format the SD card arbitrarily.

1 System overview

Component names and functions

Turning the system on or off

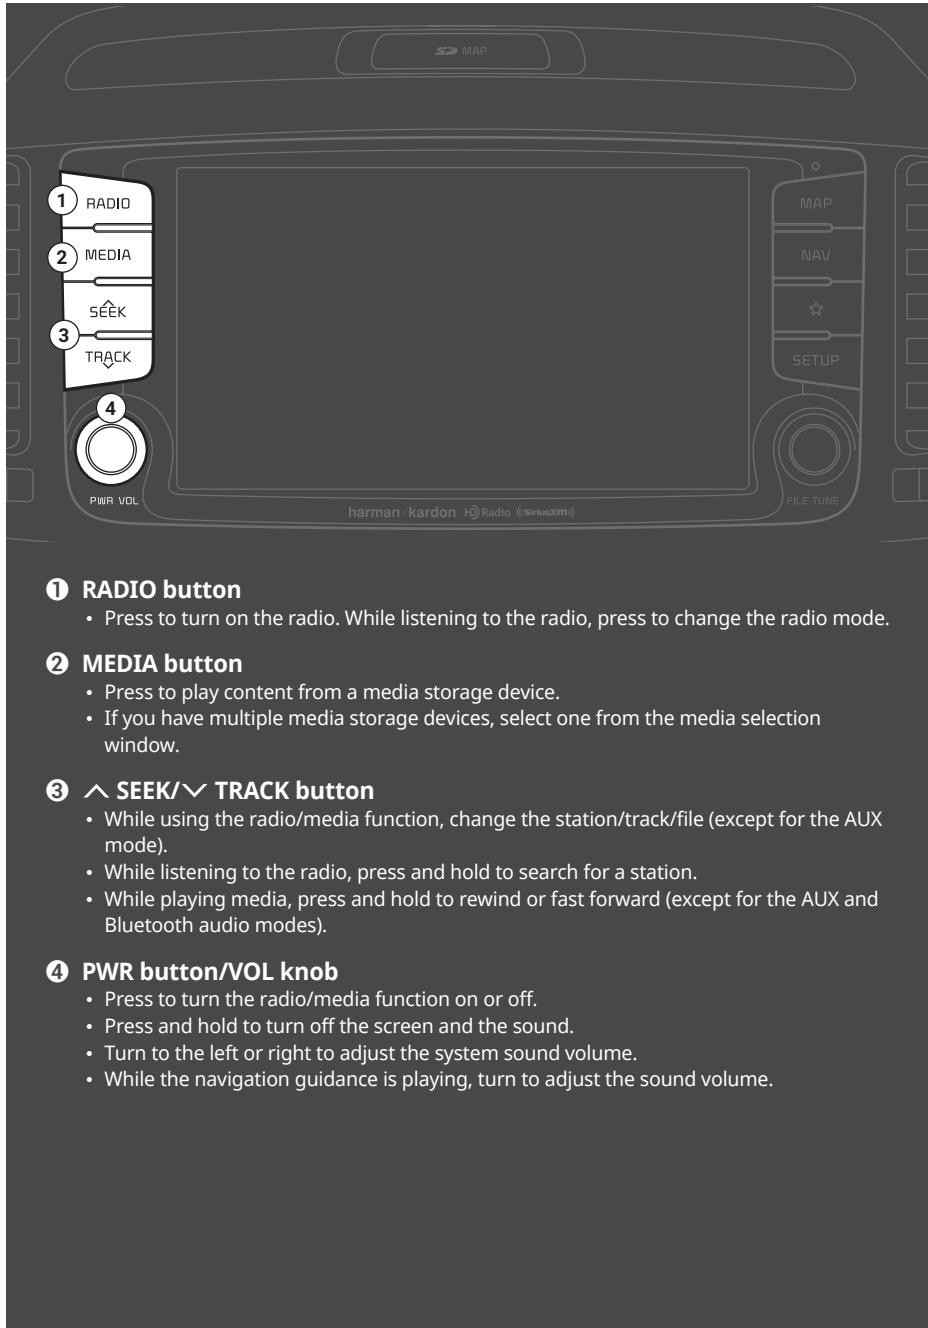

Controlling the touch screen

Getting to know the Home screen

Getting to know the driving assistance screen

Component names and functions

① RADIO button

- Press to turn on the radio. While listening to the radio, press to change the radio mode.

② MEDIA button

- Press to play content from a media storage device.
- If you have multiple media storage devices, select one from the media selection window.

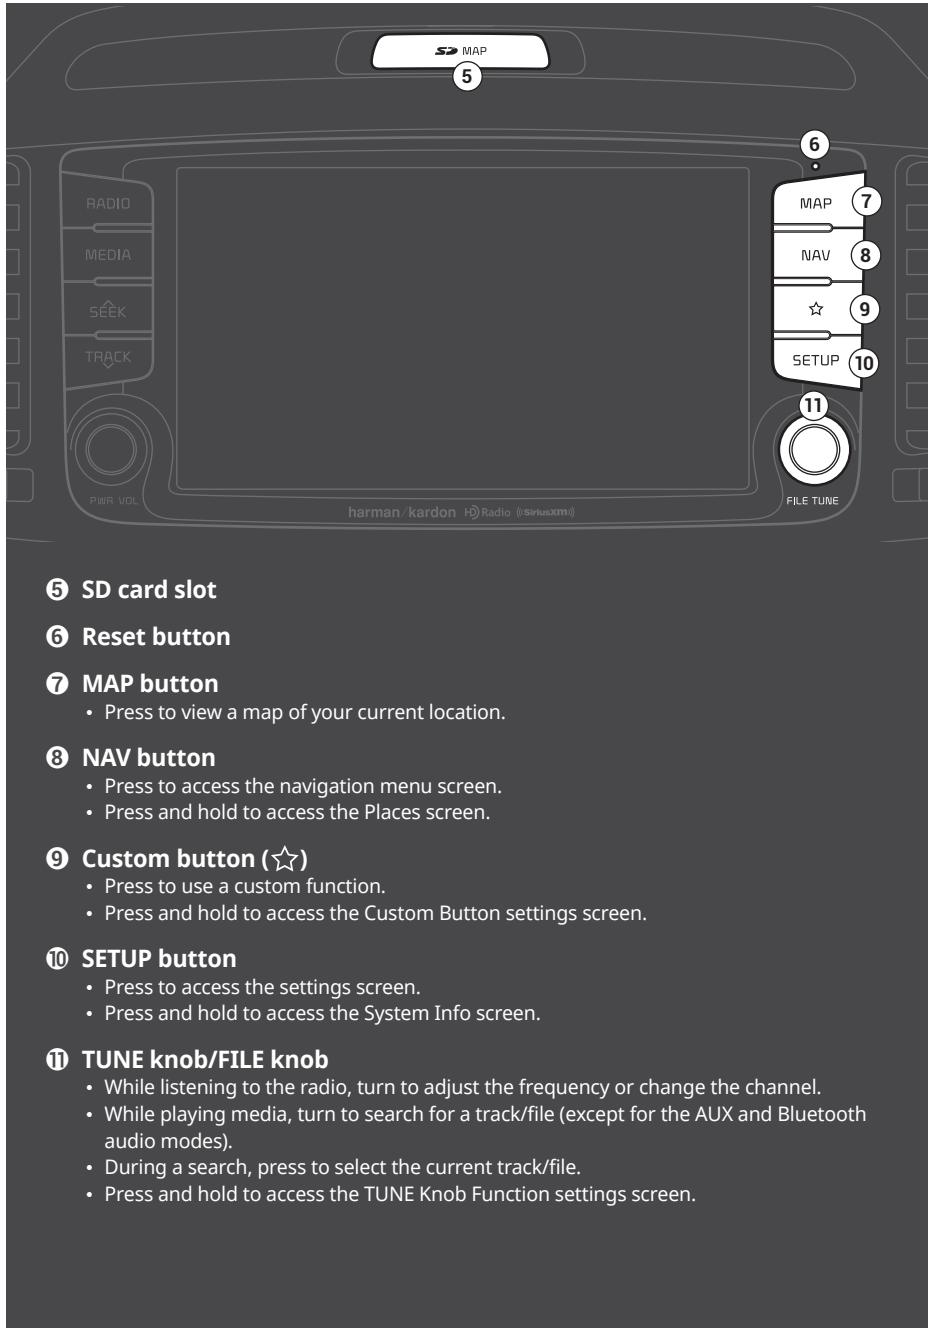

③ ▲ SEEK/▽ TRACK button

- While using the radio/media function, change the station/track/file (except for the AUX mode).
- While listening to the radio, press and hold to search for a station.
- While playing media, press and hold to rewind or fast forward (except for the AUX and Bluetooth audio modes).

④ PWR button/VOL knob

- Press to turn the radio/media function on or off.
- Press and hold to turn off the screen and the sound.
- Turn to the left or right to adjust the system sound volume.
- While the navigation guidance is playing, turn to adjust the sound volume.

Note: Depending on the vehicle model and specifications, the illustration above may differ from the product's actual appearance and layout.

⑤ SD card slot

⑥ Reset button

⑦ MAP button

- Press to view a map of your current location.

⑧ NAV button

- Press to access the navigation menu screen.
- Press and hold to access the Places screen.

⑨ Custom button (☆)

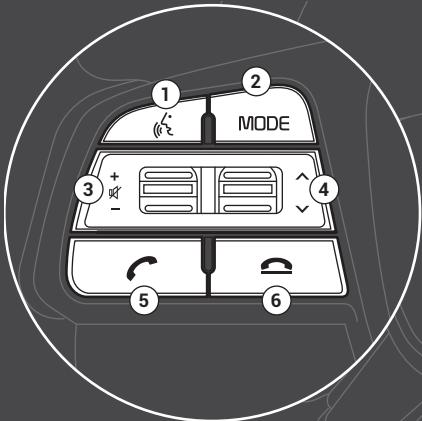

- Press to use a custom function.
- Press and hold to access the Custom Button settings screen.

⑩ SETUP button

- Press to access the settings screen.
- Press and hold to access the System Info screen.

⑪ TUNE knob/FILE knob

- While listening to the radio, turn to adjust the frequency or change the channel.
- While playing media, turn to search for a track/file (except for the AUX and Bluetooth audio modes).
- During a search, press to select the current track/file.
- Press and hold to access the TUNE Knob Function settings screen.

① Voice recognition button (⌚)

- Press to start voice recognition. Press and hold to end voice recognition.
- If the system does not support voice recognition, press to start or end voice recognition of a connected smartphone via phone projection. (The button's operation may vary depending on smartphone specifications.)

② MODE button

- Press to switch between radio/media modes.
- Press and hold to turn the radio/media function on or off.

③ Volume lever (+/-)/Mute button (🔇)

- Push up or down to adjust the volume.
- Press to mute or unmute the system (except for the navigation).
- While playing media, press to pause or resume playback (except for the iPod mode).

④ Up/Down lever (˄/˅)

- While using the radio/media function, change the station/track/file (except for the AUX mode).
- While listening to the radio, push and hold to search for a station.
- While playing media, push and hold to rewind or fast forward (except for the AUX and Bluetooth audio modes).

⑤ Call/Answer button (📞)

- Press to start connecting a mobile phone via Bluetooth.
- After a Bluetooth phone connection is made, press to access your call history. Press and hold to dial the most recent phone number. When a call comes in, press to answer the call.
- During a call, press to switch between the active call and the held call. Press and hold to switch the call between the system and the mobile phone.

⑥ Call end button (📴)

Note: Depending on the vehicle model and specifications, the illustration above may differ from the product's actual appearance and layout.

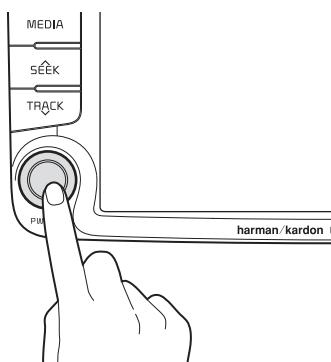

Turning the system on or off

- 1 To turn on the system, start the engine.
- 2 When the safety warning appears, read it and touch **Confirm**.

- To change the system language, touch **Language**.

- If you do not want to use the system while driving, you can turn off the screen and the sound by pressing and holding the **[PWR]** button on the control panel. To use the system again, press the **[PWR]** button.

After you have turned off the engine, the system will automatically turn off after a while or as soon as you open the driver's door.

- Depending on the vehicle model or specifications, the system may turn off as soon as you turn off the engine.
- When you turn back on the system, the previous mode and settings will remain intact.

⚠ Warning

- Driving while distracted can result in a loss of vehicle control that may lead to an accident, severe bodily injury, or death. The driver's primary responsibility is the safe and legal operation of the vehicle, and the use of any vehicle systems, including the touch screen and steering wheel controls, which take the driver's eyes, attention, and focus away from the safe operation of the vehicle, or which are not permissible by law, should never be used during the operation of the vehicle.
- Some functions may be disabled for safety reasons while the vehicle is moving. They work only when the vehicle stops. Park your vehicle in a safe location before using any of them.
- Stop using the system if it malfunctions, such as no audio output or display. If you continue using the system when it is malfunctioning, it may lead to a fire, electric shock, or system failure.

⚠ Caution

- You can turn on the system when the key ignition switch is placed in the "ACC" or "ON" position. Using the system for an extended period without the engine running drains the battery. If you plan on using the system for a long time, start the engine.
- If you turn on your system without starting the engine, a battery warning will appear. Once the engine starts, the battery warning will disappear.

>Note

To avoid having audio play at an excessive volume when you start the engine, adjust the volume level before stopping the engine. You can also set the system to decrease the volume level automatically. On the Home screen, touch **All Menus ▶ Setup ▶ Sound ▶ Priority** and activate the **Start-up Volume Limit** option.

Controlling the touch screen

Your system is equipped with a touch screen. You can perform various functions via touch inputs.

⚠ Warning

Do not use the touch screen while driving as this will divert your attention away from the safe operation of the vehicle. You may lose your steering control which could cause an accident and severe bodily injuries.

⚠ Caution

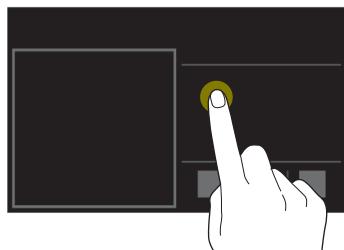

- Do not apply excessive pressure to the touch screen or touch it with a pointed object. Doing so may damage the touch screen.
- Do not let any electrically conductive material contact the touch screen. A shock from static electricity may cause the system or the touch screen to malfunction.

Note

If you wear regular gloves, you will not be able to control the touch screen. Remove your gloves or wear gloves designed for use with a touch screen.

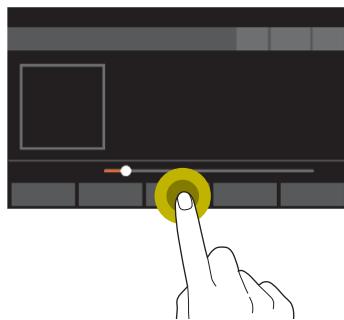

Touch

Touch an object lightly and lift your finger. You can perform a function or select an option.

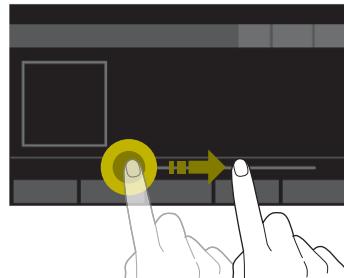

Touch and hold

Touch an object and hold it for at least one second without lifting your finger. You can rewind or fast forward media by touching and holding an appropriate button.

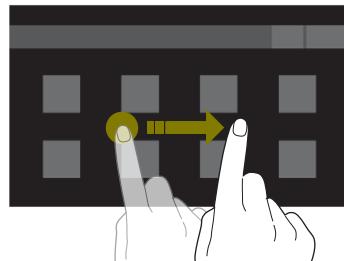

Drag

Touch and hold an object, drag it, and then drop it on a new location. You can move the selected object to another location or skip ahead or replay part of a song.

Swipe

Swipe the screen lightly in an appropriate direction. This is an easy way to scroll through a menu or list quickly.

Getting to know the Home screen

From the Home screen, you can access various functions.

- ① Current time and date
- ② System status icons ▶ See p.11-2 "System status icons."
- ③ Radio/media information. Touch to activate the corresponding radio/media mode in full screen.
- ④ Map. Touch to view in full screen.
- ⑤ Access the All Menus screen.
- ⑥ Access the Bluetooth phone screen. ▶ See p.6-7 "Making a call."
- ⑦ Access the My Menu screen. ▶ See p.2-2 "Setting up My Menu."

Note

- To move to the Home screen from another screen, touch .
- If an SD card is not inserted into your system, the map will not be displayed on the Home screen.

Getting to know the driving assistance screen

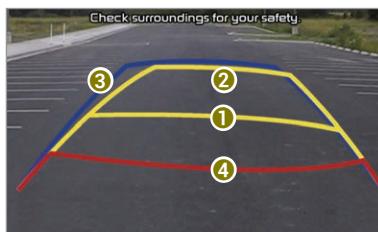

You can view the outside of your vehicle on the system screen. Depending on the vehicle model, the screens displayed in this section may differ from the actual screen.

⚠ Caution

The distance shown in the rear view screen may differ from the actual distance. For safety, be sure to visually check the rear, left, and right sides of your vehicle.

Rear view screen (common)

When you shift to "R" (Reverse) while the engine is running, the system screen will automatically display the rear view and the parking guides.

- **Driving direction lines (yellow) ①②**

These lines show the directions of the vehicle according to the steering angle.

- **Neutral direction lines (blue) ③**

These lines indicate your vehicle's expected path with the steering wheel in the neutral position. It can help you determine whether the vehicle is in the correct position in a parking space and prevent you from parking too close to the next vehicle.

- **Crash warning lines (red) ④**

These lines are to help prevent a collision.

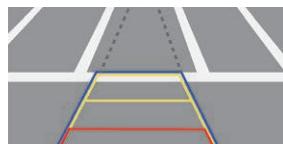

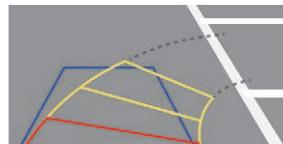

⚠ Warning

When backing up, make sure to follow the guidelines below:

- Before entering your vehicle, always check the area behind your vehicle.
- Do not solely rely on the rear view camera when backing up. Always ensure that it is safe to back up by checking behind you and looking in the rearview mirrors.
- Always back up slowly and stop immediately if you suspect that a person, especially a child, might be behind you.

Note

- The rear view screen remains active while you are backing up. When you shift to any position other than "R" (Reverse) after backing up, the rear view screen will be deactivated and the system will display the previous screen automatically.
- The parking guides show your vehicle's path according to the steering angle.

- If an object comes too close to your vehicle as you are parking the vehicle, a warning beep will sound. To prevent an accident that might result if you do not hear the beep, you can set the system to decrease the volume level of any media playing automatically when you are parking the vehicle. On the Home screen, touch **All Menus ▶ Setup ▶ Sound ▶ Priority ▶ Proximity Warning**.

Steering-interactive camera

Checking the rear top view

With the rear top view feature, you can look down at what is behind you.

On the rear view screen, touch .

- The parking guides are displayed on the rear top view screen.
 - The parking guides indicate the space necessary to open the tailgate of your vehicle. It can help you see if there is enough space to open the tailgate after parking and if there is any obstacle to opening it.
 - An extension of your vehicle's center appears. It shows the path of your vehicle's center according to the steering angle.

Surround view monitor (*if equipped)

The surround view monitor feature enables you to view the surroundings of your vehicle by using multiple cameras installed in the vehicle.

Checking your surroundings while driving

Press the  button.

- The front view with the surround view is displayed on the screen.
- The feature is activated only in the following conditions:
 - When you are driving at 9 mph or less in "D" (Drive)
 - When you stop in "D" (Drive) or "N" (Neutral)

Touch one of the icons at the bottom of the screen to check the corresponding direction.

Icon	Description
	Check the front view and the surround view.
	Check the front view in full screen.
	Check the front view and front-left view.
	Check the front view and front-right view.
	Change the surround view screen settings.

To deactivate the surround view screen, press the [VIEW] button.

Note

If an open door or tailgate or a folded outside rearview mirror is detected while the surround view monitor is active, an alert icon will appear on the left side of the screen.

I Checking your surroundings while backing up

When you shift to "R" (Reverse), the rear view will appear on the screen automatically.

Touch one of the icons at the bottom of the screen to check the corresponding direction.

Icon	Description
	Check the rear view and the surround view.
	Check the rear view in full screen.
	Check the rear view and rear-left view.
	Check the rear view and rear-right view.
	Change the surround view screen settings.

Note

If you shift to "P" (Park), the surround view monitor will not work.

I Setting the surround view screen

To change the screen settings, touch on the surround view screen.

- **Display Guidelines:** Set to display the parking guides on the rear view screen.
- **F/R Proximity Warnings:** Set to receive a warning message when the surround view monitor detects an object close to the front or rear of your vehicle.
- **Front View Mode:** Select a default view to be displayed when you activate the surround view monitor while driving.
- **Rear View Mode:** Select a default view to be displayed when the surround view monitor is activated while backing up.

MEMO

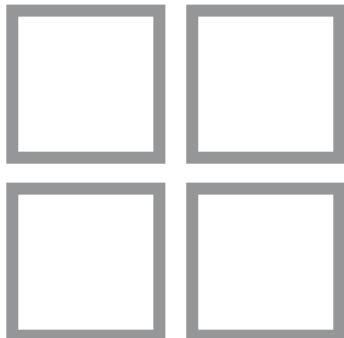

2 Useful features

Setting up My Menu

Using Voice Memo

Using phone projection

Using data services

Setting up My Menu

Add your frequently used functions or favorites to My Menu to access them quickly from the Home screen. You can add up to 24 items to My Menu.

- 1** On the Home screen, touch **My Menu ▶ Add to My Menu**.
 - If you have already added items, on the My Menu screen, touch **Menu ▶ Add**.
- 2** Select items to add and touch **Add ▶ Yes**.

Editing My Menu

You can rearrange the items added to My Menu.

- 1** On the Home screen, touch **My Menu ▶ Menu ▶ Rearrange**.
- 2** Drag an item to a desired location.

You can delete the items added to My Menu.

- 1** On the Home screen, touch **My Menu ▶ Menu ▶ Delete**.
- 2** Select items to delete and touch **Delete ▶ Yes**.

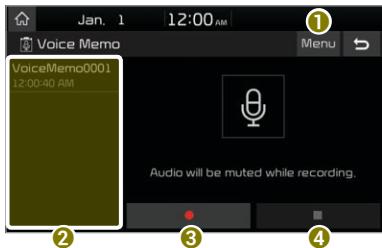

Warning

Driving while distracted can result in a loss of vehicle control that may lead to an accident, severe bodily injury, or death. The driver's primary responsibility is the safe and legal operation of the vehicle, and the use of any vehicle systems, including the touch screen and steering wheel controls, which take the driver's eyes, attention, and focus away from the safe operation of the vehicle, or which are not permissible by law, should never be used during the operation of the vehicle.

Using Voice Memo

You can record voice memos using the microphone installed in your vehicle and play voice memos on your system.

On the Home screen, touch All Menus ► Voice Memo.

① Display the options list.

- **Delete:** Delete voice memos.
- **Save to USB Device:** Save voice memos to a USB storage device. This option is available only for USB storage devices formatted in FAT16/32 formats.
- **Storage Info:** View information on the storage space used for your voice memos.

② List of your voice memos. Touch a voice memo to play it.

③ Record/Pause button

- Touch to start recording.
- Touch to pause recording.

④ Stop button

- Touch to stop recording. The recorded memo is added to the voice memos list on the left of the screen.

- You can also press the button on the steering wheel.

Note

- Voice memo recording mutes the function in operation or pauses media playback.
- If you make or answer a call while recording a voice memo, the recording pauses. If an emergency call is connected, the recording will stop and the recorded voice memo will be saved automatically.

Using phone projection

Phone projection enables you to connect your Android smartphone or iPhone to your system and use their functions via the system. You can perform and control your smartphone applications by using the larger screen and enhance your use of the system.

Warning

Do not adjust or set up any phone settings while driving. You may lose your steering control which could cause an accident and severe bodily injuries.

Caution

- Use only applications that are compatible with phone projection. Using incompatible applications may cause problems for your system or smartphone.
- Only compatible applications will be displayed on the phone projection screen. You can also check compatible applications by visiting the following websites:
 - Apple CarPlay: <https://www.apple.com/ios/carplay>
 - Android Auto: <https://www.android.com/auto>

Connecting your iPhone via Apple CarPlay

Before using Apple CarPlay, be sure to check the following:

Apple CarPlay support on your iPhone

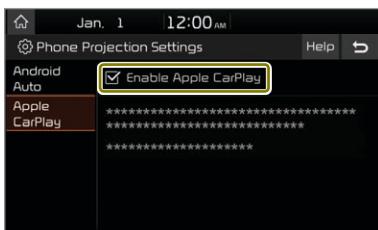

Visit the Apple homepage (<https://www.apple.com/ios/carplay>) and check the iPhone models that support Apple CarPlay.

Apple CarPlay activated or updated on your iPhone

On your iPhone, ensure that Apple CarPlay is activated. If your iPhone does not have the function, update the iPhone's operating system to the latest version.

Start Apple CarPlay by following the steps below:

1 On the Home screen, touch All Menus ▶ Setup ▶ Phone Projection ▶ Apple CarPlay ▶ Enable Apple CarPlay.

2 Connect your iPhone to the USB port in your vehicle via the cable supplied with the iPhone.

- If you are connecting the device for phone projection for the first time, read the message on the notification pop-up window and touch **OK**.

⚠ Caution

Do not connect and disconnect a USB connector repeatedly in a short time. Doing so may cause an error in the device or a system malfunction.

3 If your iPhone is locked, unlock it and agree to use phone projection.

- When the iPhone is recognized successfully, **Apple CarPlay** appears on the Home screen.

4 On the Home screen, touch Apple CarPlay.

5 Use your iPhone's functions, such as calling and messaging, on your system.

- Touch an icon on the screen to run an application or perform a function. Touch the **KIA** icon () to move to the Home screen of your system.
- Press the [] button on the steering wheel to start Siri.
- Press the [] button on the steering wheel to answer an incoming call.

6 To end Apple CarPlay, remove the USB cable from your system.

Note

- When a USB cable is connected to your system, you cannot change the phone projection settings.
- Depending on Apple's policies, applications or functions that are compatible with Apple CarPlay, such as navigation apps or media players, may change. To check compatible applications, visit the Apple homepage (<https://www.apple.com/ios/carplay>).
- To use phone projection in optimized environments, update your smartphone's operating system to the latest version.
- Depending on the connected device's hardware, firmware, and operating system versions, the recognition time may vary.
- Using phone projection may result in mobile communication charges.
- Depending on the network signal status, some functions may not work correctly.
- Avoid controlling your smartphone while phone projection is in use.
- While you are using Apple CarPlay, the following functions are unavailable:
 - Bluetooth
 - UVO calls
 - System's voice recognition (iPhone's voice recognition is available.)
 - USB and iPod modes
 - Searches using the [TUNE/FILE] knob
 - Android Auto

Connecting your Android smartphone via Android Auto

Before using Android Auto, be sure to check the following:

Android Auto support on your smartphone

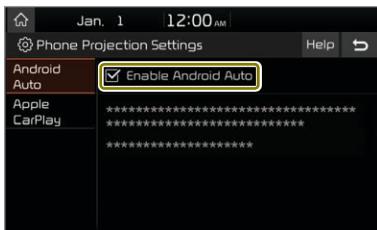

Visit the Android homepage (<https://www.android.com/auto>) and check the regions, device types, and models that support Android Auto.

Android Auto installed on your smartphone

Download and install the Android Auto application from Google Play. If you are in a region where Android Auto is not supported, you cannot install the application.

Start Android Auto by following the steps below:

- 1 On the Home screen, touch **All Menus ▶ Setup ▶ Phone Projection ▶ Android Auto ▶ Enable Android Auto.**

- 2 Connect your smartphone to the USB port in your vehicle via the cable supplied with the smartphone.
 - If you are connecting the device for phone projection for the first time, read the message on the notification pop-up window and touch **OK**.

Caution

Do not connect and disconnect a USB connector repeatedly in a short time. Doing so may cause an error in the device or a system malfunction.

- 3 If your smartphone is locked, unlock it and agree to use phone projection.
 - When the smartphone is recognized successfully, **Android Auto** appears on the Home screen.
- 4 On the Home screen, touch **Android Auto**.
- 5 Use your smartphone's functions, such as calling and messaging, on your system.
 - Touch an icon on the screen to run an application or perform a function.
 - Press the [MIC] button on the steering wheel to start Google voice recognition.
 - Press the [CALL] button on the steering wheel to start using Bluetooth call functions.

- 6 To end Android Auto, remove the USB cable from your system.

Note

- When a USB cable is connected to your system, you cannot change the phone projection settings.
- Depending on Google's policies, the icons on the main screen of Android Auto may change.
- Depending on Google's policies, applications or functions that are compatible with Android Auto may change. To check compatible applications, visit the Android homepage (<https://www.android.com/auto>).
- To use phone projection in optimized environments, update your smartphone's operating system to the latest version.
- Depending on the connected device's hardware, firmware, and operating system versions, the recognition time may vary.
- Using phone projection may result in mobile communication charges.
- Depending on the network signal status, some functions may not work correctly.
- Avoid controlling your smartphone while phone projection is in use.
- While you are using Android Auto, the following functions are unavailable:
 - Bluetooth audio
 - UVO calls
 - System's voice recognition (smartphone's voice recognition is available.)
 - USB and iPod modes
 - Searches using the [TUNE/FILE] knob
 - Apple CarPlay

Using data services

You can access an array of information with data services, such as HD Radio™ or SiriusXM™.

Note

- HD Radio data services are only available in metropolitan areas.
- SiriusXM is a paid satellite radio service.

On the Home screen, touch **All Menus ▶ Data Services**.

- ① View traffic information. ► See p.2-9 "Viewing traffic information."
- ② View weather information via HD Radio. ► See p.2-10 "Viewing weather information via HD Radio."
- ③ View details of current weather conditions, if you are in an HD Radio coverage area. ► See p.2-10 "Viewing weather information in HD Radio Doppler Radar."
- ④ View weather information via SiriusXM. ► See p.2-11 "Viewing weather information via SiriusXM."
- ⑤ View fuel price information and search for a nearby service station. ► See p.2-11 "Viewing fuel price information via SiriusXM."

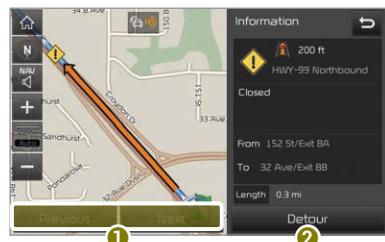

- 6 Stay on top of current stock values and trends in the stock market. ► See p.2-12 "Viewing stock information via SiriusXM."
- 7 View sports information. ► See p.2-12 "Viewing sports information via SiriusXM."
- 8 See what is playing now and search for a nearby theater. ► See p.2-13 "Viewing the latest movie information via SiriusXM."

Viewing traffic information

- 1 On the Home screen, touch **All Menus** ► **Data Services**.
- 2 Touch **Traffic**.
- 3 Select an item from the traffic information list to view its details.
 - To view traffic information along your current route or to view all available traffic information, touch **On Route**.
 - To select the types of traffic information you want to view, touch **Category**.

- 4 View detailed traffic information.

- 1 View the previous or next traffic information.
- 2 Reflect traffic information to your current route.

Note

Traffic support for border crossings and speed limits set for individual roads may not be accurate. Use the information at your discretion.

Viewing weather information via HD Radio

- 1 On the Home screen, touch **All Menus ▶ Data Services**.
- 2 Touch **HD Radio Weather**.
- 3 View today's weather information in your city.
 - To view weather forecasts for today and the next four days, touch **5 Days**.
 - To view weather information of another area, touch **Other City**.

Viewing weather information in HD Radio Doppler Radar

- 1 On the Home screen, touch **All Menus ▶ Data Services**.
- 2 Touch **HD Radio Doppler Radar**.
- 3 View detailed weather conditions in the HD Radio coverage area.

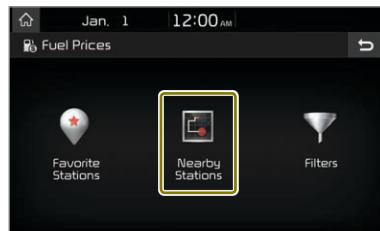

Viewing weather information via SiriusXM

- 1 On the Home screen, touch **All Menus ▶ Data Services**.
- 2 Touch **SiriusXM Weather**.
- 3 View today's weather information in your city.
 - To view weather forecasts for today and the next four days, touch **5 Days**.
 - To view weather information of another area, touch **Other City**.
 - To view warnings and advisories for adverse weather conditions, such as tornadoes, tropical storms, and blizzards, touch **Warnings and Advisories**.

Viewing fuel price information via SiriusXM

- 1 On the Home screen, touch **All Menus ▶ Data Services**.
- 2 Touch **SiriusXM Fuel Prices ▶ Nearby Stations**.

- 3 Search for nearby gas stations and check or compare fuel prices.

- To sort the search results, touch the option menu (▼) and select a sorting option.
- To set a service station as one of your favorites, touch ★.

Nearby Stations [30] Nearest			
↓ 2.0mi	BP 1645 WASHTEENAW RD., YPS...	Regular \$ 3.80	May 21
↓ 2.2mi	UNBRANDED 405 N PROSPECT RD., YPS...	Regular \$ 3.80	May 21
↓ 2.4mi	BP 173 E MICHIGAN AVE., YPS...	Regular \$ 3.79	May 21
↓ 2.5mi	CITGO 501 E MICHIGAN AVE., YPS...	Regular \$ 3.76	May 21
↑ 2.5mi	MARATHON 4970 WASHTEENAW AVE., A...	Regular \$ 3.80	May 21

Note

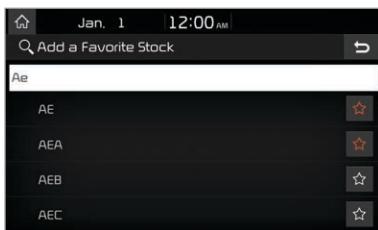

To access your list of favorite gas stations, touch **Favorite Stations** on the main screen.

Setting a filter for searching for gas stations

- 1 On the Home screen, touch **All Menus** ► **Data Services**.
- 2 Touch **SiriusXM Fuel Prices** ► **Filters**.
- 3 Select the type of fuel your vehicle uses and your favorite brands.

Viewing stock information via SiriusXM

- 1 On the Home screen, touch **All Menus** ► **Data Services**.
- 2 Touch **SiriusXM Stocks** ► **Add**.
- 3 Search for your favorite stock by entering a stock symbol in the search bar and then touch  to add it to the list.
 - Repeat this step to add more stock symbols.

Now you can check information on your stock every day by touching **All Menus** ► **Data Services** ► **SiriusXM Stocks**.

Symbol	Price	Change	Favorited
AE	64.53	- 1.57	
AEA	0.0	N/A	
AEC	17.0	- 0.14	
AEGR	30.35	- 1.45	
AEGN	23.03	- 0.79	

Note

To delete a stock symbol from your favorites list, touch .

Viewing sports information via SiriusXM

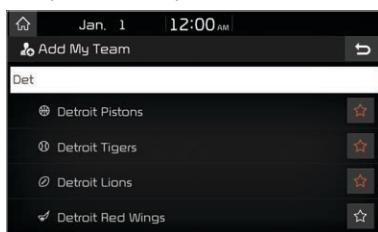

- 1 On the Home screen, touch **All Menus** ► **Data Services**.
- 2 Touch **SiriusXM Sports**.
- 3 Select the sport that interests you.
 - To set up a list of your favorite teams and check their daily results and schedules, touch **My Teams**.

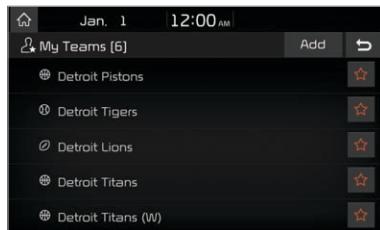

- 4 View real-time scores and schedules for major events and games.

Creating a list of your favorite teams

- 1 On the Home screen, touch **All Menus ▶ Data Services**.
- 2 Touch **SiriusXM Sports ▶ My Teams ▶ Add**.
- 3 Search for your favorite team by entering its full name in the search bar and then touch  to add it to the list.
 - Repeat this step to add more teams.

Now you can check your favorite team's scores and schedules every day.

Note

To delete a team from your favorites list, touch .

Viewing the latest movie information via SiriusXM

- 1 On the Home screen, touch **All Menus ▶ Data Services**.
- 2 Touch **SiriusXM Movies ▶ Top Movies**.

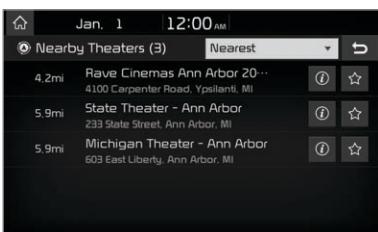

- 3 View information about the latest movies.

- To reorder the titles on the list, touch the option menu (▼) and select an option.
- To view detailed information about a movie, touch .

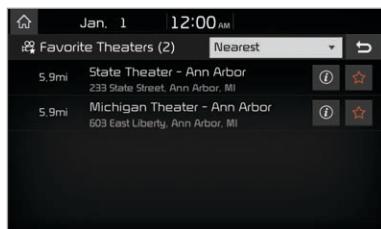

■ Searching for nearby theaters

- 1 On the Home screen, touch **All Menus ▶ Data Services**.
- 2 Touch **SiriusXM Movies ▶ Nearby Theaters**.
- 3 Search for nearby theaters and view their location information.
 - To sort the search results, touch the option menu (▼) and select a sorting option.
 - To view detailed information about a theater, touch **i**.
 - To set a theater as one of your favorites, touch **☆**.

■ Creating a list of your favorite theaters

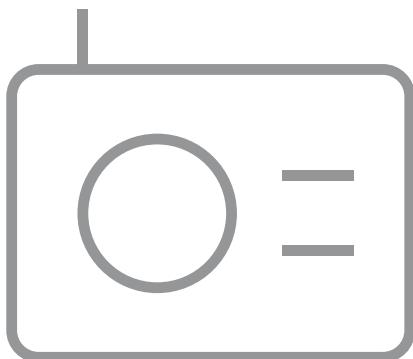

- 1 On the Home screen, touch **All Menus ▶ Data Services**.
- 2 Touch **SiriusXM Movies ▶ Favorite Theaters ▶ Add**.
- 3 Find your favorite theater from the list and touch **☆**.
 - Repeat this step to add more theaters.

3

Radio

- Turning on the radio
- Changing the radio mode
- Scanning for available radio stations
- Searching for radio stations
- Saving radio stations
- Listening to saved radio stations
- Listening to HD Radio™
- Listening to SiriusXM™ radio

Turning on the radio

On the Home screen, touch **All Menus ▶ Radio**.

① Display the options list.

- **Station List:** Access the list of available radio stations.
- **Delete Presets:** Delete saved radio stations from the preset list.
- **Info:** Set to display text information received from the current broadcasting station.
- **Sound Settings:** Customize the system sound settings. ► See p.9-2 "Setting the system sound."

② Return to the previous level.

③ Radio station information

④ Preset list

⑤ Select a radio mode.

⑥ Activate the HD Radio mode.

⑦ Preview each radio station for five seconds and select the station you want.

⚠ Warning

Driving while distracted can result in a loss of vehicle control that may lead to an accident, severe bodily injury, or death. The driver's primary responsibility is the safe and legal operation of the vehicle, and the use of any vehicle systems, including the touch screen and steering wheel controls, which take the driver's eyes, attention, and focus away from the safe operation of the vehicle, or which are not permissible by law, should never be used during the operation of the vehicle.

Changing the radio mode

On the radio screen, touch **Band** and select a desired mode.

- Alternatively, press the [**RADIO**] button on the control panel. Each time you press the button, the radio mode switches to FM ▶ AM ▶ SiriusXM in order.

Scanning for available radio stations

You can listen to each radio station for a few seconds and select the one you want.

- 1 On the radio screen, touch **Scan**.
 - The system provides a preview of each radio station on the available stations list for five seconds.
- 2 When you find the radio station to which you want to listen, touch **Scan** to stop the scan.
 - You can continue listening to the current radio station.

Searching for radio stations

To search for the previous or next available radio station, press the [\checkmark **TRACK**] or [\wedge **SEEK**] button on the control panel.

- To select a radio station from the available stations list, touch **Menu ▶ Station List** on the radio screen.
- You can also press and hold the [\checkmark **TRACK**] or [\wedge **SEEK**] button to search for frequencies quickly. When you release the button, the next available radio station is selected automatically.

Saving radio stations

You can save your favorite radio stations and listen to them by selecting from the preset list.

On the radio screen, touch and hold an empty slot from the preset list.

- The radio station you are listening to will be added to the selected slot.

Note

- You can save up to 40 radio stations.
- If a station is already saved to the selected preset number, the station will be replaced by the station you are listening to.
- To delete saved radio stations from the preset list, touch **Menu ▶ Delete Presets**.

Listening to saved radio stations

Select one of the radio stations in the preset list.

- Alternatively, push the [\wedge/\vee] lever on the steering wheel to change the radio station.

Listening to HD Radio™

If you enable HD Radio reception by touching **H2 Radio**, you can listen to HD Radio stations in areas where they are available. When HD Radio signals are received, the radio will switch from the analog mode to the HD mode.

In the HD mode, HD Radio station buttons are displayed at the top of the radio screen. Touch a button to select one of the available HD Radio stations.

Note

HD Radio is only available in metropolitan areas.

Program Info: Presents song name, artist, station IDs, and other relevant data streams.

Program Info)

Digital, CD-quality sound. HD Radio™ Technology enables local radio stations to broadcast a clean digital signal. AM sounds like today's FM and FM sounds like a CD.

Digital Sound)

FM stations can provide additional digital-only audio programming on HD2/HD3 Channels.

HD2/HD3)

Real-Time Traffic reports, alerts, and flow data displayed on screen via interactive traffic maps and/or data.

Traffic)

Listening to SiriusXM™ radio

You can listen to radio channels provided by SiriusXM, a satellite radio service. Various kinds of channels, such as music, sports, and news, are available via streaming or live broadcast.

On the radio screen, touch **Band** ► **SiriusXM**.

- ① Access the list of available SiriusXM radio channels.
- ② Display the options list.
 - **Delete Presets:** Delete saved radio stations from the preset list.
 - **What is on My Presets?:** View broadcast schedule.
 - **Featured Favorites:** Listen to groups of channels provided by SiriusXM.
 - **Sound Settings:** Customize the system sound settings. ► See p.9-2 "Setting the system sound."

- ③ Return to the previous level.
- ④ Switch to the live broadcast mode. This button is activated only when a live broadcast is available on the selected channel.
- ⑤ Move to the previous segment. Touch and hold to rewind the broadcast by five second decrements.
- ⑥ Pause or stop the broadcast.
- ⑦ Move to the next segment. Touch and hold to fast forward the broadcast by five second increments.
- ⑧ Weak reception indicator
- ⑨ Change the radio mode.
- ⑩ Select a channel by entering its channel number.
- ⑪ Scan through all available SiriusXM radio channels.

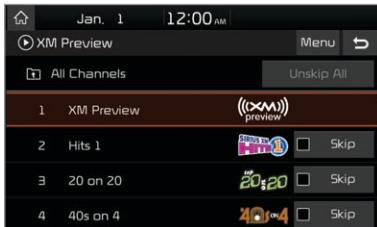

Note

The REC icon will be shown next to the first 10 SiriusXM channels saved. Once preset channels are saved, broadcasts from these channels will be buffered automatically for your convenience each time you start your vehicle.

Searching for SiriusXM radio channels

You can select a channel from the available SiriusXM channels list.

- 1 On the radio screen, touch **Band ▶ SiriusXM**.
- 2 On the SiriusXM radio screen, touch **Channel List**.
- 3 Select a category and a channel.
 - To skip a channel when scanning with the [∇ TRACK] and [\wedge SEEK] buttons or [TUNE] knob, touch **Skip**.

Selecting channels by using channel numbers

If you know the exact channel number, you can enter it to select the channel directly.

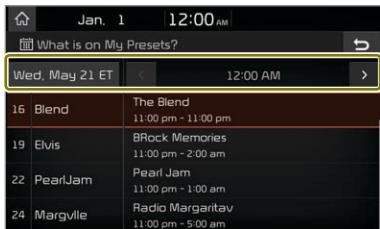

- 1 On the radio screen, touch **Band ▶ SiriusXM**.
- 2 On the SiriusXM radio screen, touch **Direct Tune**.
- 3 Enter a channel number and touch **OK**.

Viewing the program schedule

You can view the program schedule and information for the channels stored in your preset list.

- 1 On the radio screen, touch **Band ▶ SiriusXM**.
- 2 On the SiriusXM radio screen, touch **Menu ▶ What is on My Presets?**.
- 3 Set a date and time on the top line of the screen.
 - To select a date, touch the date display field at the top left of the preset list and select a date and time zone.
 - To select a time, touch **<** or **>**.

- 4 Select a channel and a program to view its detailed information.

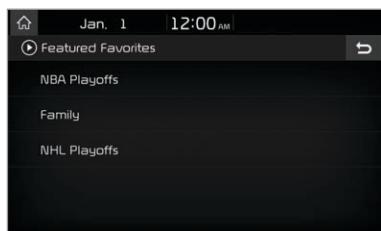

Note

If there is hidden information, an arrow will appear next to the program. Touch the arrow to view the hidden information.

Listening to Featured Favorites channels

You can listen to Featured Favorites channels on SiriusXM radio. Multiple sets of channels can be broadcast and can be changed by SiriusXM.

- 1 On the radio screen, touch **Band ▶ SiriusXM**.
- 2 On the SiriusXM radio screen, touch **Menu ▶ Featured Favorites**.
- 3 Select a channel.

4

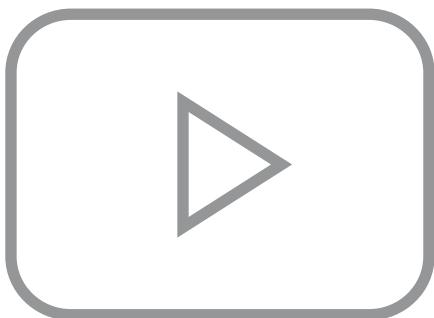

Media player

Using the media player

Using the USB mode

Using the iPod mode

Using the AUX mode

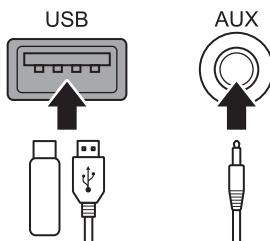

Using the media player

You can play music stored in various media storage devices, such as USB storage devices, smartphones, and iPods.

1 Connect a device to the USB port or the AUX port in your vehicle.

- Playback may start immediately depending on the device that you connect to the system.

2 Touch the radio/media information area on the Home screen or press the [MEDIA] button on the control panel.

- If you have multiple media storage devices, press the [MEDIA] button again and select a media mode from the media selection window.

⚠ Warning

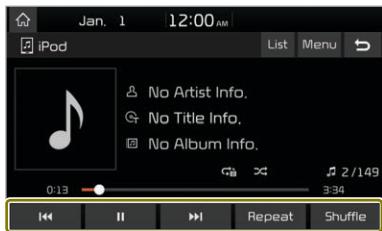

Driving while distracted can result in a loss of vehicle control that may lead to an accident, severe bodily injury, or death. The driver's primary responsibility is the safe and legal operation of the vehicle, and the use of any vehicle systems, including the touch screen and steering wheel controls, which take the driver's eyes, attention, and focus away from the safe operation of the vehicle, or which are not permissible by law, should never be used during the operation of the vehicle.

>Note

- When you connect an Apple device, playback does not start automatically and the radio/media information area remains in the previous mode. You cannot touch the radio/media information area to start playback. To start the media player in the iPod mode, press the [MEDIA] button on the control panel.
- Depending on the vehicle model and specifications, available buttons or the appearance and layout of the USB/AUX ports in your vehicle may vary.

Controlling the media player

Use the buttons at the bottom of the playback screen to control the media player.

Pausing/Resuming playback

Touch **[■]** to pause playback. Touch **[▶]** to resume playing your music.

Rewinding/Fast forwarding

Touch and hold **[◀]** or **[▶]** to rewind or fast forward. Alternatively, press and hold the **[▼ TRACK]** or **[▲ SEEK]** button on the control panel.

- You can also push and hold the **[▲/▼]** lever on the steering wheel.

Restarting the current playback

After the song has played for 3 seconds, touch **[◀]** or press the **[▼ TRACK]** button on the control panel to restart the current song.

- You can also push the **[▲/▼]** lever downward on the steering wheel.

Playing the previous or next song

To play the previous song, touch **[◀]** or press the **[▼ TRACK]** button on the control panel within the first 3 seconds of the current song. To play the next song, touch **[▶]** or press the **[▲ SEEK]** button on the control panel.

- You can also use the **[▲/▼]** lever on the steering wheel.

Note

- If more than 3 seconds of playback have elapsed, touch **[◀]** twice or press the **[▼ TRACK]** button on the control panel twice to play the previous song.
- On the control panel, turn the **[FILE]** knob to find the desired song and press the knob within five seconds to play the file.
- If no control is detected within five seconds, the search is canceled and the screen displays information about the song currently playing.

Playing repeatedly

Touch **Repeat** to play a file on repeat. The repeat play mode changes each time you touch it. The corresponding mode icon will be displayed on the screen. Depending on the current media or playlist, available repeat play modes may vary.

Playing in random order

Touch **Shuffle** to shuffle an album or playlist. The shuffle play mode is activated or deactivated each time you touch it. When you activate the shuffle mode, the corresponding mode icon will be displayed on the screen. Depending on the current media or playlist, available shuffle play modes may vary.

Note

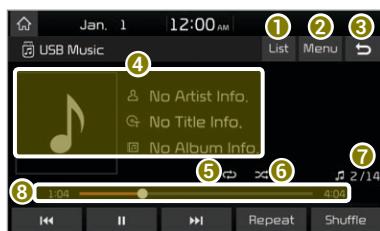

For specific descriptions of each media mode, refer to the corresponding section. The description on the Bluetooth audio mode is included in the "Bluetooth" chapter.

Using the USB mode

You can play media files stored in portable devices, such as USB storage devices and MP3 players. Check compatible USB storage devices and file specifications before using the USB mode. ► See p.11-8 "USB mode."

Listening to music

- 1 Connect your USB device to the USB port in the vehicle.
- 2 Touch the radio/media information area on the Home screen or press the [**MEDIA**] button on the control panel.
 - The media player is displayed in full screen.
 - If you have multiple media storage devices, press the [**MEDIA**] button again and touch **USB Music** from the media selection window.

- ① Access the files list.
- ② Display the options list.
 - **Hide Current File:** Delete the file that is playing currently from the system.
 - **Sound Settings:** Customize the system sound settings. ▶ See p.9-2 "Setting the system sound."
- ③ Return to the previous level.
- ④ Information about the song currently playing
- ⑤ Repeat play mode
- ⑥ Shuffle play mode
- ⑦ Current file number and total number of files
- ⑧ Playback time and playback position

Note

Only USB storage devices formatted in FAT16/32 formats support deleting files. You can find the deleted files in the "Hidden_" folder.

⚠ Caution

- Start the engine of your vehicle before connecting a USB device to your system. Starting the engine with a USB device connected to the system may damage the USB device.
- Be careful of static electricity when connecting or disconnecting a USB device. A static discharge may cause a system malfunction.
- Be careful not to let your body or external objects contact the USB port. Doing so may cause an accident or a system malfunction.
- Do not connect and disconnect a USB connector repeatedly in a short time. Doing so may cause an error in the device or a system malfunction.
- Do not use a USB device for purposes other than playing files. Using USB accessories for charging or heating may cause poor performance or a system malfunction.

Note

- When connecting a USB storage device, do not use an extension cable. Connect it directly to the USB port. If you use a USB hub or an extension cable, the device may not be recognized.
- Fully insert a USB connector into the USB port. Failure to do so may cause a communication error.
- When you disconnect a USB device, a distorted noise may occur.
- The system can play only files encoded in a standard format.
- The following types of USB devices may not be recognized or work correctly:
 - Encrypted MP3 players
 - USB devices not recognized as removable disks
- A USB device may not be recognized depending on its condition.
- Some USB devices may be incompatible with your system.
- Depending on the USB device's type, capacity, or the format of files, USB recognition time may be longer.
- Depending on the specification, some USB devices may not support charging via a USB connection.

Searching for music files on a file list

Access a file list to search for and select a song.

- 1 On the music playback screen, touch **List**.
- 2 Touch the screen to open a folder, move to another category, or play a music file.

- 1 Display the options list.
 - **Now Playing:** Return to the currently playing file if it is not visible on the current screen.
- 2 Return to the previous level.
- 3 Move up to another folder/category.
- 4 Search for a song based on categories.
- 5 Scroll bar

Using the iPod mode

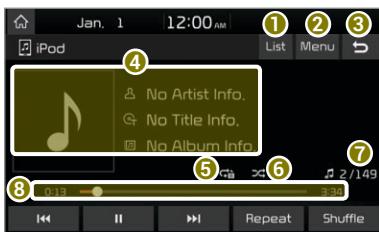

You can listen to music stored on your Apple devices, such as an iPod or an iPhone. Check compatible Apple devices and iOS specifications before using the iPod mode. ▶ See p.11-10 "iPod mode."

1 Connect your Apple device to the USB port in your vehicle using the cable supplied with the Apple device.

- When connected, the device will begin charging. Music playback will not start automatically.

2 On the control panel, press the [MEDIA] button.

- If you have multiple media storage devices, press the [MEDIA] button again and touch **iPod** from the media selection window.

① Access the files list.

② Display the options list.

- **Sound Settings:** Customize the system sound settings. ▶ See p.9-2 "Setting the system sound."

③ Return to the previous level.

④ Information about the song currently playing

⑤ Repeat play mode

⑥ Shuffle play mode

⑦ Current file number and total number of files

⑧ Playback time and playback position

⚠ Caution

Do not connect and disconnect a USB connector repeatedly in a short time.

Doing so may cause an error in the device or a system malfunction.

■ Searching for music files on a file list

Access a file list to search for and select a song.

- 1 On the music playback screen, touch **List**.
- 2 Touch the screen to move to another category or play a music file.

- ① Return to the previous level.
- ② Move up to another category.
- ③ Search for a song based on categories.
- ④ Scroll bar

Notes on connecting Apple devices

- Ensure that the iOS and firmware of your device is up-to-date before connecting it to your system. Outdated devices may cause a system error.
- If your device's battery is low, the device may not be recognized. Check the battery level and, if necessary, charge the battery before connecting the device to your system.
- Use an Apple-approved cable. Using an unapproved cable may cause a distorted noise or an error during playback.
- Fully insert a USB connector into the USB port. Failure to do so may cause a communication error.
- If you connect a media device or mobile phone to your system via both a USB cable and an AUX cable, your system or device may not operate correctly. To use a USB connection, disconnect the AUX cable from the device.
- If you connect your device to the system while playback is in progress on the device, you may hear a high pitch sound just after the connection. Connect the device after stopping or pausing playback.

- Connecting your device during a download or synchronizing with iTunes may cause an error. Connect the device after the download or synchronization is complete.
- If you connect an iPod nano (except for the 6th generation) or an iPod classic, the brand logo will be displayed on the device screen. For an iPhone and an iPod touch, the logo will not be displayed.

Notes on playing Apple devices

- Depending on the model, your device may not be recognized due to unsupported communication protocols.
- The order of the songs displayed or played on the system may differ from the order of the songs stored in your device.
- Podcasts and audiobooks will play on your system if the dedicated applications are not installed on your Apple device. You can access those files in the **Other** category.
- Podcasts and audiobooks may not play or may not be displayed on your system if your Apple device has iOS 6.0 or later installed.

- In an iPhone, the audio streaming function and iPod mode control may conflict. If an error occurs, disconnect and reconnect the USB cable.
- When using an iPhone or an iPod touch, do not control the device while it is connected to your system. An error may occur.
- If you make or receive a call during playback via an iPhone, the music may remain paused after you end the call. If you do not hear the music after ending a call, check the device to see if the music is paused.
- Do not duplicate a song in multiple folders. One song saved in multiple folders may cause an error with search and playback functions.
- If you perform a media control function, such as stop or repeat, just before a song ends, the song information displayed on the screen may not match the song currently playing. This is not a system error. Restart the iPod mode on the system or pause and resume playback on your device.

Using the AUX mode

You can listen to audio from your vehicle's speakers by connecting external devices, such as smartphones and MP3 players.

Connect an external device to the AUX port in your vehicle using an AUX cable.

- The AUX mode starts automatically and the sound is heard via your vehicle's speakers.

Note

- Because the system works as an output device of the connected external device in the AUX mode, you cannot use controls other than the volume control. Use controls on the external device to control playback.
- The sound volume for the AUX mode is adjusted separately from the other modes.
- Depending on the device type, using an external device with the power cable plugged into the power jack may cause a distorted noise.
- If the AUX cable is plugged into the system without an external device, a distorted noise may occur. Remove the AUX cable from the AUX port when an external device is not connected.

① Display the options list.

- Sound Settings:** Customize the system sound settings. ► See p.9-2 "Setting the system sound."

② Return to the previous level.

Navigation

Finding a route quickly

Finding a route with various search methods

Using helpful navigation options

Registering locations

Updating the map

Changing navigation settings

Finding a route quickly

You can find a route to your destination quickly and start the navigation.

⚠ Warning

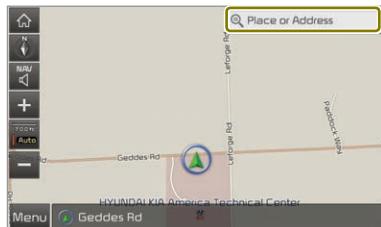

Driving while distracted can result in a loss of vehicle control that may lead to an accident, severe bodily injury, or death. The driver's primary responsibility is the safe and legal operation of the vehicle, and the use of any vehicle systems, including the touch screen and steering wheel controls, which take the driver's eyes, attention, and focus away from the safe operation of the vehicle, or which are not permissible by law, should never be used during the operation of the vehicle.

1 On the Home screen, touch the map area.

- Alternatively, if your system has the [MAP] button on the control panel, press the [MAP] button.

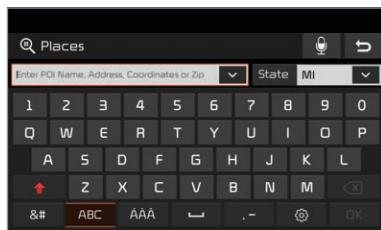

2 On the map, touch Place or Address.

>Note

The **Place or Address** field appears only when the vehicle is in "P" (Park).

3 Enter location information, such as a place name, an address, or coordinates, and touch OK.

- Search for a location via voice command.
- View the recent keywords list.
- Narrow the search range to a desired region. Touch to view the recent states list.

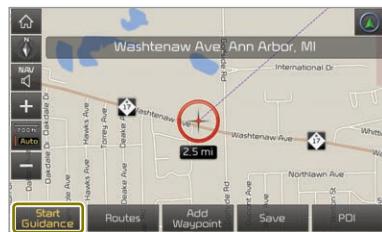

- : Switch to the uppercase mode.
- : Delete the entered characters.
- : Switch to the symbol input mode.
- : Switch to the alphabet input mode.
- : Switch to the accent input mode.
- : Enter a space.
- : Enter a punctuation mark.
- : Change the keyboard settings.

4 Select a location from the search result list.

- To filter the search results by region, touch **Filter by City**.
- To filter the search results by POI category, touch **Filter by Category**.

5 Touch **Start Guidance**.

Note

- You can use various search methods available in the navigation menu. On the Home screen, touch **All Menus ▶ NAV Menu**. ► See p.5-8 "Finding a route with various search methods."
- If the HD Radio or SiriusXM service is available for traffic information, the corresponding icon will appear at the top of the navigation screen.
 - HD Radio (): The system is using HD Radio data. HD Radio is only available in metropolitan areas.
 - SiriusXM (): The system is using SiriusXM data. SiriusXM is only available when HD Radio is unavailable because HD Radio data has higher priority than SiriusXM data.

Caution

Depending on the region you are driving in or the driving conditions, information on the map may differ from the actual road conditions.

- When converted to an electronic map, the road shape may be altered. If the navigation guidance is different from the actual road, use your judgment and take the appropriate road.
- The navigation guidance may differ from the actual road due to the time difference between the map production and your driving. Drive according to the current road conditions and traffic regulations. When you reach the section of the route that matches the actual road, the navigation will resume your route correctly.

Notes on navigation

- The location of your vehicle displayed on the screen may temporarily differ from the actual location in the following situations:
 - When you are driving on a narrow Y-shaped or spiral road
 - When another road is located close to the current road
 - When you are driving on a road with a lot of high buildings nearby
 - When you are driving on a road under construction or a new road
 - When your vehicle is transported by a car ferry

- When you are driving on a road on a steep mountain or a road with a sharp curve
- When your vehicle enters a road after rotating on a turn table of an underground parking lot or a multistory parking lot
- When you start and stop repeatedly or drive slowly at an intersection
- When you turn on your system just after charging or replacing the discharged battery
- When you are driving in slippery conditions, such as in heavy snow
- When the tires have been replaced recently or when studless tires or spare tires are used
- When improper-sized tires are used or the pressure of each tire is different
- When the replacement tire is worn, especially studless tires that have been used for more than two seasons
- When a roof carrier has been installed on your vehicle
- While a long distance route is being calculated on a highway. In this circumstance, continued driving will enable the system to conduct map matching or use updated GPS information to provide the current location information.

- The navigation guidance may be incorrect temporarily depending on search conditions or your driving position:
 - The navigation may instruct you to go straight when you are driving on a straight road.
 - The navigation guidance may stop while you are driving an intersection or just after turning at an intersection.
 - The navigation may instruct you to take a U-turn at a location where a U-turn is prohibited.
 - The navigation may instruct you to take prohibited roads, such as roads marked as no trespassing or roads under construction.
 - The navigation may instruct you to a distant location from your destination when there is no road or where only narrow roads to the destination exist.
 - The navigation guidance may be incorrect when you are off your route.
 - The navigation estimate to your destination may differ from the actual distance due to the difference in the starting point of the road on a overpass or an underpass.
 - When you are driving at high speeds, route recalculations may take longer.

Getting to know the navigation screen

You can use the following functions and information on the navigation screen.

- Move to the Home screen.
- Change how the map is displayed.
 - (North Up)**: North is always up.
 - (Heading Up)**: The map rotates according to your driving direction.
 - (3D Map)**: A three-dimension effect is applied and the map rotates according to your driving direction.
- Adjust the navigation sound volume.
- Zoom in.
- Set to fix the map scale or to set it to change automatically according to driving conditions.
- Zoom out.
- Information about this turn point
- Information about the next turn point
- Lane guidance
 - Yellow: The recommended lane
 - White: Lanes you can choose
 - Gray: Lanes to avoid

- ⑩ Display the quick menus you can use for navigation guidance.
- ⑪ View the distance to your destination and the estimated arrival time.
Touch to view detailed destination information.
- ⑫ Stop the navigation guidance.
- ⑬ Hide or display the split screen.

Viewing the split screen

The screen splits automatically when you need to take a turn or change lane and displays detailed information.

- To hide or display the split screen, touch  or .

On the split screen, you can view brief or detailed information about each section of the route.

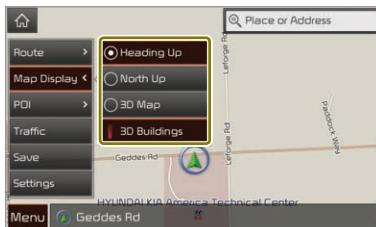

- ① Set to view additional information about highway exits or rest areas on the split screen.
- ② Return to the information of the current section if it is not visible on the section list.

Changing the default map view settings

You can change the default view mode of the map screen.

On the navigation screen, touch **Menu ▶ Map Display** and select a view mode or set to display nearby buildings.

Note

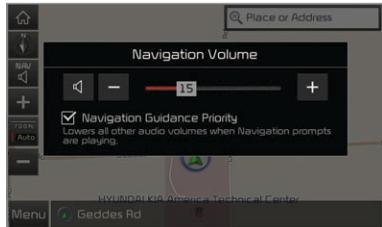

To change the navigation settings other than the default map view settings, touch **Menu ▶ Settings**.

Adjusting the navigation sound volume

You can adjust the sound volume of the navigation guidance including GPS alert beeps.

Touch  on the navigation screen and touch  or  or drag the adjustment bar to adjust the volume level.

- To mute the voice guidance, touch . You can also set to hear the voice guidance prior to the radio/media sound.

Note

You can set to use the [VOL] knob or the [+/-] lever to adjust the navigation sound volume while the voice guidance is playing. On the Home screen, touch **All Menus** ▶ **Setup** ▶ **Sound** ▶ **Navigation Volume** and select **Use Map Screen Volume Buttons or Volume Knob**.

Canceling the navigation

To stop the navigation guidance and cancel the set destination, touch **Cancel Route** ▶ **Cancel Route**.

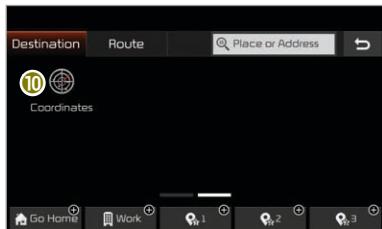

- The destination mark at the bottom of the screen disappears.

Finding a route with various search methods

You can search for a location by various ways, such as entering location information, selecting among categorized locations or the recently selected locations in the navigation menu.

On the Home screen, touch **All Menus** ▶ **NAV Menu** to access the navigation menu.

- Alternatively, if your system has the **[NAV]** button on the control panel, press the **[NAV]** button.

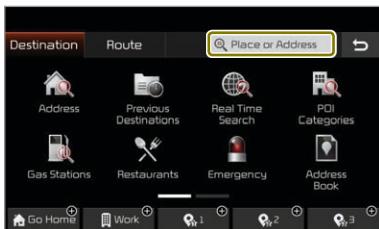

- ① Search for a location by entering various kinds of keywords, such as a place name or an address. ► See p.5-9 "Searching for locations by keyword."
- ② Search for a location by entering an address. ► See p.5-10 "Searching for locations by address."
- ③ Select one of the destinations you entered previously. ► See p.5-14 "Selecting a location from previous destinations."
- ④ If you are subscribed to the UVO service, search for a location based on the online map database. ► See p.5-14 "Searching for locations via the online server."
- ⑤ Search for a location by using the point of interest (POI) category. ► See p.5-10 "Searching for locations by POI category."
- ⑥ Search for a gas station. ► See p.5-12 "Searching for gas stations."
- ⑦ Search for a restaurant by type. ► See p.5-12 "Searching for restaurants."
- ⑧ Search for a nearby emergency service. ► See p.5-13 "Searching for emergency services."
- ⑨ Select one of locations stored in your address book. ► See p.5-22 "Using the saved locations."
- ⑩ Search for a location by entering coordinates. ► See p.5-13 "Searching for locations by coordinates."

Searching for locations by keyword

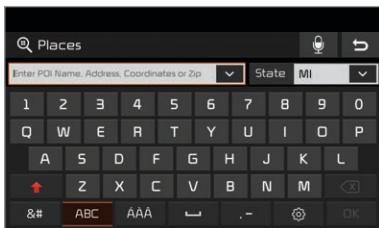

You can find a location by entering various keywords, such as a place name, an address, or a phone number and select a location from the search results to set it as your destination.

1 On the navigation menu screen, touch **Place or Address**.

2 Enter location information, such as a place name, an address, or coordinates, and touch **OK**.

- If there are any entries in your search history that match your input, they will appear above the keyboard.

Note

You can search for a location via voice command. Touch and say a keyword.

3 Select a location from the search result list.

- To filter the search results by region, touch **Filter by City**.
- To filter the search results by POI category, touch **Filter by Category**.

4 View the location on the map and touch **Start Guidance**.

- If the destination is active, touch **Yes** to change the destination.

- ① Select another route or access route-related options.
 - **Route Options:** Set the route options and find another route.
 - **Route Info.:** View the detailed information about the selected route.
 - **Edit Route:** Edit the detailed path of the selected route.
- ② Add a waypoint to your current route.
- ③ Save the currently selected location to your address book.
- ④ Access the POI category list to view or search for nearby POIs.

Searching for locations by address

- 1 On the navigation menu screen, touch **Address**.
- 2 Enter the address of your destination and touch **OK**.

Note

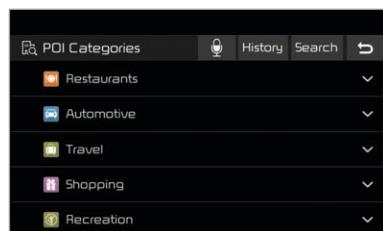

You can search for a location via voice command. Touch and say a keyword.

- ③ Select a location from the search result list.
- ④ View the location on the map and touch **Start Guidance**.
 - If the destination is active, touch **Yes** to change the destination.

Searching for locations by POI category

You can find a location by using the POI categories or names.

- 1 On the navigation menu screen, touch **POI Categories**.
- 2 Select a POI category.
 - To select one from the recent search list, touch **History**.
 - To search for a POI by entering a POI category, touch **Search**.

Note

You can search for a location via voice command. Touch and say a keyword.

- 3 Select a sub-category by following the on-screen instructions.
- 4 Select a location from the search result list.
 - To filter the search results, select a filtering option from the left side of the screen.
 - To sort the search results, touch the option menu (v) and select a sorting option.

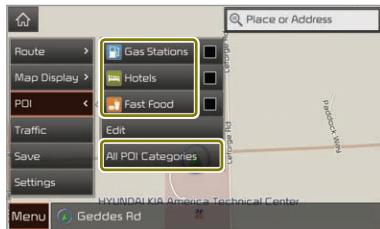

- 5 View the location on the map and touch **Start Guidance**.
 - If the destination is active, touch **Yes** to change the destination.

Note

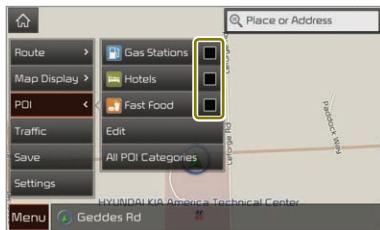

To search for nearby points of interest during the navigation guidance, touch **Menu ▶ POI ▶ All POI Categories**. You can also select a category from the POI category list.

Displaying POIs on the map

You can set to display nearby POIs on the map.

On the navigation screen, touch **Menu ▶ POI** and touch the check boxes next to items to display on the map.

- To edit the POI category list in the quick menu, touch **Menu ▶ POI ▶ Edit**.

Searching for gas stations

- 1 On the navigation menu screen, touch **Gas Stations**.
- 2 Select a location from the search result list.
 - To filter the search results, select a filtering option from the left side of the screen.
 - To sort the search results, touch the option menu (⌄) and select a sorting option.

- 3 View the location on the map and touch **Start Guidance**.
 - If the destination is active, touch **Yes** to change the destination.

Searching for restaurants

- 1 On the navigation menu screen, touch **Restaurants**.
- 2 Select a location from the search result list.
 - To filter the search results, select a filtering option from the left side of the screen.
 - To sort the search results, touch the option menu (⌄) and select a sorting option.

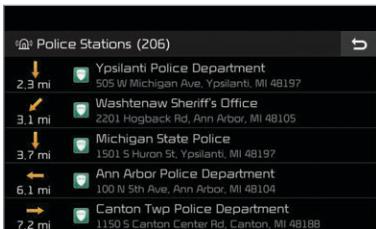

- 3 View the location on the map and touch **Start Guidance**.
 - If the destination is active, touch **Yes** to change the destination.

Searching for emergency services

- 1 On the navigation menu screen, touch **Emergency**.
- 2 Select an emergency service type.
 - If applicable, use the location displayed at the bottom of the screen when contacting an emergency service.

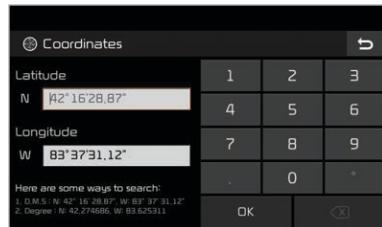

- 3 Select a location from the search result list.

- 4 View the location on the map and touch **Start Guidance**.
 - If the destination is active, touch **Yes** to change the destination.

Searching for locations by coordinates

- 1 On the navigation menu screen, touch **Coordinates**.
- 2 Enter the latitude and longitude of the location you want and touch **OK**.
 - You can enter coordinates in either the DMS (degrees, minutes, seconds) format or the decimal degree format. When you enter a decimal point or degree symbol, the format will change automatically.

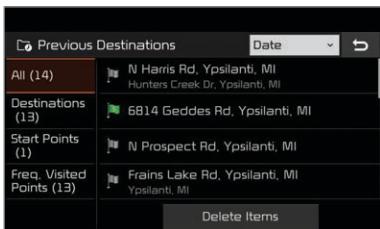

- 3 View the location on the map and touch **Start Guidance**.
 - If the destination is active, touch **Yes** to change the destination.

Selecting a location from previous destinations

You can select a location from the list of locations you have previously entered.

- 1 On the navigation menu screen, touch **Previous Destinations**.
- 2 Select a location type and a location.
 - To sort the search results, touch the option menu (⌄) and select a sorting option.
 - To delete the locations from a list, touch **Delete Items**. You can select and delete locations, or delete all locations at a time.

- 3 View the location on the map and touch **Start Guidance**.
 - If the destination is active, touch **Yes** to change the destination.

Searching for locations via the online server

You can search for locations in the online map database. To use this feature, you must subscribe to the UV0 service.

- 1 On the navigation menu screen, touch **Real Time Search**.
- 2 Enter a keyword in the input field and touch **OK**.

Note

You can search for a location via voice command. Touch **Q** and say a keyword.

- 3 Select a location from the search result list.
- 4 View the location on the map and touch **Start Guidance**.
 - If the destination is active, touch **Yes** to change the destination.

Using helpful navigation options

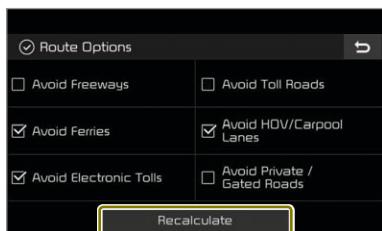

Finding another route

You can change the route options to search for a route again.

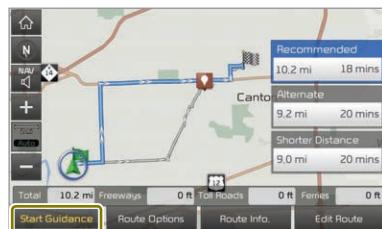

- 1 On the navigation screen, touch **Menu ▶ Route ▶ Route Options**.

- 2 Set the route options and touch **Recalculate**.

- 3 Select a route and touch **Start Guidance**.

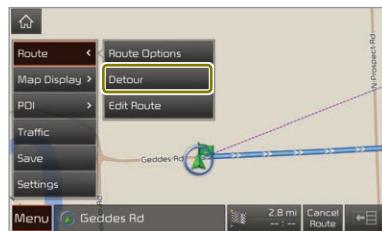

Note

Depending on the vehicle model or specifications, available options may vary.

Making a detour

You can search for a detour from the current route.

- 1 On the navigation screen, touch **Menu ▶ Route ▶ Detour**.

- 2** Select a detour by distance.
- The navigation system searches for a new route according to the selected distance.

- 3** Select a new route and touch **Start Guidance**.

Avoiding specific roads

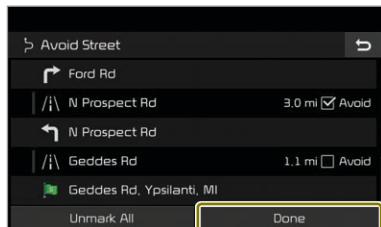

You can search for a new route that avoids specific roads, such as congested roads and roads under construction.

- 1** On the Home screen, touch **All Menus** ► **NAV Menu** to access the navigation menu.
- Alternatively, if your system has the **[NAV]** button on the control panel, press the **[NAV]** button.

- 2** Touch **Route** ► **Avoid Street**.

- 3** Select the roads you want to avoid and touch **Done**.

- 4** Select a new route and touch **Start Guidance**.

Note

When there is a nearby road under construction, a notification pop-up window appears to ask you whether to avoid the section. To avoid the section, touch **Yes**. The navigation system will search for a new route.

Adding waypoints

You can add waypoints to the current route to your destination. You can add up to two waypoints to your route.

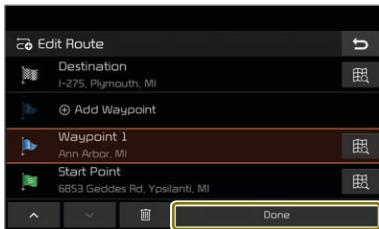

I Searching for and adding waypoints

You can search for a location and add it as a waypoint.

- 1 Search for a waypoint by various search methods. ► See p.5-8 "Finding a route with various search methods."
- 2 View the location and information on the map and touch **Add Waypoint**.

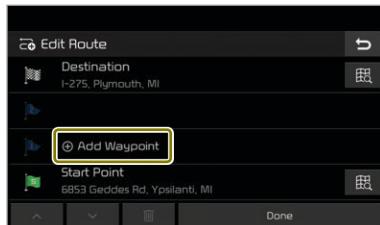

- 3 Touch **Done**.

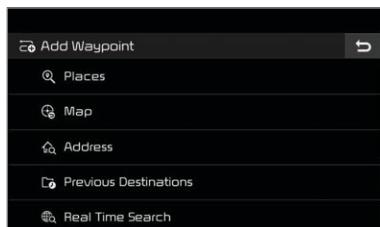

Editing your route

You can edit your route by adding waypoints or rearranging the locations in the route.

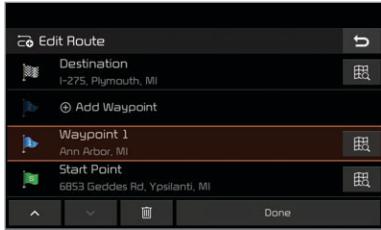

- 1 On the navigation screen, touch **Menu ▶ Route ▶ Edit Route**.
- 2 On the route editing screen, touch **Add Waypoint**.

- 3 Select a search method and search for a location to add it as a waypoint. ► See p.5-8 "Finding a route with various search methods."

- 4** Edit the route, if necessary.
- To rearrange the locations, select a location and touch or .
 - To delete a waypoint, select the location you want and touch .
 - To view the locations on the map, touch next to the location names.

- 5** When editing your route is complete, touch **Done**.

Viewing information

During navigation, you can view useful information, such as traffic conditions.

Viewing traffic information

You can view real-time traffic information including any ongoing road work or accidents.

- 1** On the navigation screen, touch **Menu ▶ Traffic**.

- 2** Select an item from the traffic information list to view its details.

- To view traffic information along your current route or to view all available traffic information, touch **On Route**.
- To select the types of traffic information you want to view, touch **Category**.

3 View detailed traffic information.

- ① View the previous or next traffic information.
- ② Reflect traffic information to your current route.

Note

Traffic support for border crossings and speed limits set for individual roads may not be accurate. Use the information at your discretion.

| Viewing satellite information

You can view GPS satellite status and the coordinates of your current location. Use this information if you need to know your accurate location, such as in an emergency situation.

On the navigation screen, touch **Menu ▶ Settings ▶ Display ▶ GPS Information**.

- ① Current status of satellite signal reception
 - **Receiving:** The system is receiving satellite signals and the current location is recognized.
 - **Searching:** The system is searching for satellite signals.
- ② Information about your current location

Registering locations

You can register your current location or desired locations to your address book and select them quickly when setting a destination.

Saving your current location

You can save your current location quickly.

- 1 On the navigation screen, touch **Menu ▶ Save**.

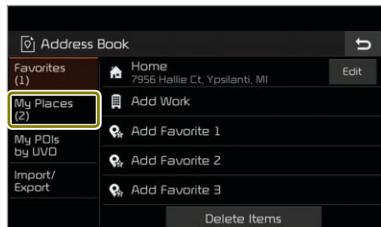

- 2 Edit the location information, if necessary, and touch **Save**.

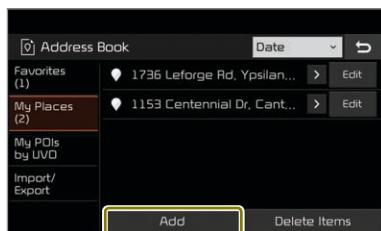

Searching for and saving locations

You can search for a location and save it to your address book.

- 1 On the Home screen, touch **All Menus ▶ NAV Menu** to access the navigation menu.
 - Alternatively, if your system has the **[NAV]** button on the control panel, press the **[NAV]** button.
- 2 Touch **Address Book ▶ My Places**.

- 3 Touch **Add** from the address book.

- 4** Touch **Places** and enter a keyword to search for a location.
- You can use other search methods to find a location. ► See p.5-8 "Finding a route with various search methods."

- 5** View the location and information on the map and touch **Done**.

- 6** Edit the information, if necessary, and touch **Save**.

Saving your favorite locations

You can save your favorite locations, such as your home and workplace, to use navigation guidance more quickly.

- 1** On the Home screen, touch **All Menus** ► **NAV Menu** to access the navigation menu.

- Alternatively, if your system has the **[NAV]** button on the control panel, press the **[NAV]** button.

- 2** Touch a shortcut button with **+**.

- 3** Touch **Yes**.

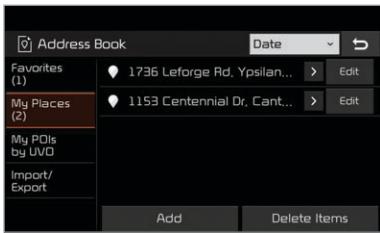

- 4** Touch **Places** and enter a keyword to search for a location.

- You can use other search methods to find a location. ► See p.5-8 "Finding a route with various search methods."

- 5** View the location and information on the map and touch **Done**.

Using the saved locations

- 1 On the Home screen, touch **All Menus** ► **NAV Menu** to access the navigation menu.
 - Alternatively, if your system has the **[NAV]** button on the control panel, press the **[NAV]** button.
- 2 Touch **Address Book** ► **My Places**.
 - To select a location from the ones received from the UVO website and the UVO application, touch **My POIs by UVO**. ▶ See p.8-6 "Using received location information."
- 3 Select a location from the address book.

- 4 View the location on the map and touch **Start Guidance**.
 - If the destination is active, touch **Yes** to change the destination.

Note

You can import or export your address book data by using a USB storage device. From the address book screen, touch **Import/Export** and select an option you want.

Using your favorite locations

If you have set up a list of your favorite locations, you can select one of them directly at the bottom of the screen to set it as your destination.

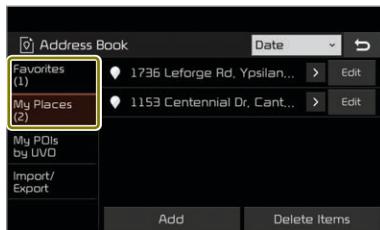

- 1 On the Home screen, touch **All Menus** ► **NAV Menu** to access the navigation menu.
 - Alternatively, if your system has the **[NAV]** button on the control panel, press the **[NAV]** button.
- 2 Touch a shortcut button where a desired location has been saved.
 - If the destination is active, touch **Yes** to change the destination.

Editing saved locations

You can edit information, such as the name and phone number, or change the attributes of the information.

- 1 On the Home screen, touch **All Menus** ► **NAV Menu** to access the navigation menu.
 - Alternatively, if your system has the **[NAV]** button on the control panel, press the **[NAV]** button.
- 2 Touch **Address Book**.
- 3 Select a group including the location information you want to change on the left side of the screen.

- 4 Touch **Edit** next to the location name from the address book.
- 5 Edit the information and touch **Save**.

Deleting saved locations

You can delete saved location information.

- 1 On the Home screen, touch **All Menus** ► **NAV Menu** to access the navigation menu.
 - Alternatively, if your system has the **[NAV]** button on the control panel, press the **[NAV]** button.
- 2 Touch **Address Book**.
- 3 Select a group that includes the location you want to delete and touch **Delete Items**.
- 4 Select the location you want to delete and touch **Delete** ► **Yes**.

Updating the map

To update your map, contact your Kia dealer or visit www.kia-gpsmap.us.

Changing navigation settings

You can customize various settings for navigation, such as map view and guidance settings.

On the Home screen, touch **All Menus ▶ Setup ▶ Navigation**.

Display

- **Unit:** Select a unit of measure for the distance display on the map.
- **Show Previous Destinations after Navigation Start-up:** Set whether to view previous destinations when the navigation starts up.
- **Automatic Return after Scrolling:** Set whether to return to your current location automatically 10 seconds after you move to another location by swiping on the map.
- **Save Previous Destinations:** Set whether to save your previous destinations, frequently visited points, and starting points automatically. If you activate this option, the list of your previous destinations will appear when you access the map for the first time after your system is turned on.
- **Speed Limit:** Set whether to display the speed limit.
- **GPS Information:** View GPS satellite status and the coordinates of your current location.

Traffic/Guidance

- **Source of Traffic Info:** Select a source to receive traffic information from.
- **Traffic-based Rerouting:** Set to search the route on a regular basis and to accept guidance reflecting the latest traffic conditions.
- **Number of Guidance Prompts:** Set whether to hear more or fewer voice guidance prompts before each maneuver.
- **Show Traffic Information:** Set whether to view traffic information on the map.

Default

Reset your navigation settings to the default values.

END USER LICENSE AGREEMENT

PLEASE READ THIS END USER LICENSE AGREEMENT ("EULA") CAREFULLY BEFORE USING THE NAVIGATION SYSTEM.

This is a license agreement between you and Hyundai MnSoft, INC. including its affiliates ("COMPANY") regarding a copy of the COMPANY navigable map database together with associated software, media and explanatory printed documentation published by COMPANY (jointly the "Product"). The Product is provided for your personal, internal use only and not for resale. It is protected by copyright and is subject to the following terms which are agreed to by you, on the one hand, and COMPANY and its licensors (and their licensors and suppliers) (collectively, "Licensors") on the other hand.

By using the Product, you accept and agree to all terms and conditions in this End User License Agreement ("EULA"). IF YOU DO NOT AGREE TO THE TERMS OF THIS EULA, YOU MUST PROMPTLY EXIT THE PRODUCT OPERATION PROGRAM AND DO NOT USE OR ACCESS TO THE PRODUCT. YOU AGREE THAT YOUR RIGHTS UNDER THIS EULA MAY BE TERMINATED AUTOMATICALLY WITHOUT NOTICE IF YOU FAIL TO COMPLY WITH ANY TERM(S) OF THIS EULA.

Terms and Conditions

Personal Use Only. You agree to use this Product together with COMPANY's authorized application for the solely personal, non-commercial purposes for which you were licensed, and not for service bureau, time-sharing or other similar purposes. Accordingly, but subject to the restrictions set forth in the following paragraphs, you agree not to otherwise reproduce, copy, modify, decompile, disassemble, create any derivative works of, or reverse engineer any portion of this Data, and may not transfer or distribute it in any form, for any purpose, except to the extent permitted by mandatory laws. You may not assign this EULA or any of the rights or licenses granted under this EULA, except when installed in the system for which it was created.

Restrictions. Except where you have been specifically licensed to do so by COMPANY, and without limiting the preceding paragraph, you may not use the Product (i) with any products, systems, or applications installed or otherwise connected to or in communication with vehicles, capable of vehicle navigation, positioning, dispatch, real time route guidance, fleet management or similar applications; or (ii) with or in communication with any positioning devices or any mobile or wireless-connected electronic or computer devices, including without limitation cellular phones, palmtop and handheld computers, pagers, and personal digital assistants or PDAs.

COPYING OR USE OF THE PRODUCT EXCEPT AS PERMITTED BY THIS EULA IS UNAUTHORIZED AND IS COPYRIGHT INFRINGEMENT UNDER THE LAWS OF YOUR COUNTRY. IF YOU COPY OR USE THE PRODUCT WITHOUT COMPANY'S PERMISSION, EXCEPT AS PERMITTED BY THIS EULA, YOU ARE VIOLATING THE LAW AND LIABLE TO COMPANY AND ITS LICENSORS FOR DAMAGES, AND YOU MAY BE SUBJECT TO CRIMINAL PENALTIES.

THE PRODUCT MAY INCLUDE ENFORCEMENT TECHNOLOGY DESIGNED TO PREVENT (i) UNAUTHORIZED COPYING OF THE PRODUCT ONTO PHYSICAL STORAGE MEDIA OR VIA TRANSFER OVER THE INTERNET OR OTHER ELECTRONIC COMMUNICATION MEANS AND/OR (ii) ILLEGAL USAGE OF THE PRODUCT OTHER THAN BY A SPECIFICALLY AUTHORIZED DEVICE. YOU AGREE THAT COMPANY MAY USE THESE MEASURES TO PROTECT COMPANY AND THE LICENSORS AGAINST COPYRIGHT INFRINGEMENT.

Uploads. The Product may provide functionality through which you are able to upload certain information about your use of the Product (collectively, "Uploads") to COMPANY's servers or receive other services from COMPANY (collectively, the "Services"). If you use such functionality, you authorize COMPANY to retain your Uploads on its servers. COMPANY will have no obligation to provide any Services, may change the form and nature of any Services at any time with or without notice to you, will have no liability whatsoever to you for any failure of the Product or Services to transmit your Uploads to or from COMPANY's servers, may cease providing any Services at any time with or without notice to you, and will have no obligation to retain your Uploads (or any other materials you may provide

to COMPANY) on its servers or return your Uploads (or any other materials you may provide to COMPANY) to you before deleting them from its servers.

Storage. The Product may provide functionality through which you are able to store information (such as images) on the device on which you are using the Product. COMPANY will have no liability whatsoever to you or any third party for any failure of the Product to store any such information on such device.

Personal Information. By using the Product, you agree to the collection, retention and processing of your personal data (including the location of your mobile device) by COMPANY and to the storage and processing of such personal information on computers located outside of the country in which you reside. Even though COMPANY has taken steps intended to protect your personal information from being intercepted, accessed, used, or disclosed by unauthorized persons, COMPANY cannot fully eliminate security risks associated with your personal information and cannot guarantee that its systems will not be breached. See [*] for additional information regarding COMPANY's use of your personal information.

WARNING. THE PRODUCT REFLECTS REALITY AS EXISTING BEFORE YOU RECEIVED THE PRODUCT AND IT COMPRISSES DATA AND INFORMATION FROM GOVERNMENT OTHER SOURCES. ACCORDINGLY, THE PRODUCT MAY CONTAIN INACCURATE OR INCOMPLETE INFORMATION DUE TO THE PASSAGE OF TIME, CHANGING CIRCUMSTANCES, SOURCES USED AND THE NATURE OF COLLECTING COMPREHENSIVE GEOGRAPHIC PRODUCT, ANY OF WHICH MAY LEAD TO INCORRECT RESULTS. THE

PRODUCT AND SERVICES MAY NOT TO BE USED FOR SAFETY OF LIFE APPLICATIONS, OR FOR ANY OTHER APPLICATION IN WHICH THE ACCURACY OR RELIABILITY OF THE PRODUCT OR SERVICES COULD CREATE A SITUATION WHERE PERSONAL INJURY OR DEATH MAY OCCUR. **DO NOT ATTEMPT TO CONFIGURE THE PRODUCT OR INPUT INFORMATION WHILE DRIVING. FAILURE TO PAY FULL ATTENTION TO THE OPERATION OF YOUR VEHICLE COULD RESULT IN DEATH, SERIOUS INJURY, OR PROPERTY DAMAGE. BY USING THE PRODUCT, YOU ASSUME ALL RESPONSIBILITY AND RISK.**

Disclaimer of Warranty. The Product is provided to you "as is," and you agree to use it at your own risk. SUBJECT TO THE APPLICABLE LAWS, COMPANY AND THE LICENSORS MAKE NO GUARANTEES, REPRESENTATIONS OR WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, ARISING BY LAW OR OTHERWISE, INCLUDING BUT NOT LIMITED TO, CONTENT, QUALITY, ACCURACY, COMPLETENESS, EFFECTIVENESS, RELIABILITY, PERFORMANCE, MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, NON-INFRINGEMENT, USEFULNESS, USE OR RESULTS TO BE OBTAINED FROM THE PRODUCT, OR THAT THE PRODUCT OR SERVER WILL BE UNINTERRUPTED OR ERROR-FREE, OR THAT ERRORS IN THE PRODUCT OR NONCONFORMITY TO ITS DOCUMENTATION CAN OR WILL BE CORRECTED. YOU ACKNOWLEDGE THAT THE PROVISIONS OF THIS SECTION ARE A MATERIAL INDUCEMENT AND CONSIDERATION TO COMPANY AND THE LICENSORS TO GRANT THE LICENSE CONTAINED IN THIS EULA AND TO PROVIDE YOU WITH ACCESS TO THE SERVICES.

Limitation of Liability: TO THE MAXIMUM EXTENT PERMITTED UNDER THE APPLICABLE LAWS, COMPANY AND THE LICENSORS SHALL NOT BE LIABLE TO YOU: IN RESPECT OF ANY CLAIM, DEMAND OR ACTION, IRRESPECTIVE OF THE NATURE OF THE CAUSE OF THE CLAIM, DEMAND OR ACTION ALLEGING ANY LOSS, INJURY OR DAMAGES, DIRECT OR INDIRECT, INCURRED BY YOU OR ANY THIRD PARTY WHICH MAY ARISE IN CONNECTION WITH OR RESULT FROM THE USE OR POSSESSION OF THE PRODUCT; OR FOR ANY LOSS OF DATA, PROFIT, REVENUE, CONTRACTS OR SAVINGS, OR OTHER DIRECT, INDIRECT, INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF YOUR USE OF OR INABILITY TO USE THE PRODUCT, ANY DEFECT IN THE PRODUCT, OR THE BREACH OF THESE TERMS OR CONDITIONS, WHETHER IN AN ACTION IN CONTRACT OR TORT OR BASED ON A WARRANTY, EVEN IF COMPANY OR THE LICENSORS HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES AND NOTWITHSTANDING THE FAILURE OF ANY LIMITED REMEDY PROVIDED HEREIN.

Exclusions. Some jurisdictions do not allow certain warranty exclusions or the limitation or exclusion of liability, so to that extent the above exclusion may not apply to you. To the extent that COMPANY may not, as a matter of applicable law, disclaim any implied warranty or limit its liabilities, the scope and duration of such warranty and the extent of COMPANY's liability shall be the minimum permitted under such applicable law. The disclaimer of warranty and limitation of liability set forth in this EULA does not affect or prejudice your statutory rights where you have acquired the Product otherwise than in the course of business.

Third-Party Copyright Notices. The third-party sourced data has been incorporated into or made a part of the Product and is being sublicensed to you subject to the terms and conditions of this EULA. In this regard, you shall not remove or tamper with any intellectual property rights notice attached or used in relation to data supplied by the Licensors.

Entire Agreement. This EULA is the entire agreement between COMPANY (and the Licensors) and you pertaining to the subject matter hereof, and supersedes in their entirety any and all previous written or oral communications or documents (including, if you are obtaining an update, any agreement that may have been included with an earlier version of the Product) with respect to such subject matter.

Governing Law. This EULA shall be governed by the laws of the jurisdiction in which you reside at the date of acquisition of the Product. Should you at that moment reside outside the European Union or Switzerland, the law of the jurisdiction within the European Union or Switzerland where you acquired the Product shall apply. In all other cases, or if the jurisdiction where you acquired the Product cannot be defined, the laws of the Republic of Korea shall apply. This EULA will not be governed by the U.N. Convention on Contracts for the International Sale of Goods. The courts competent at your place of residence at the time you acquired the Product shall have jurisdiction over any dispute arising out of, or relating to this EULA, without prejudice to COMPANY's right to bring claims at your then current place of residence.

Export Control. You agree not to export or re-export from anywhere any part of the Product in any form except in compliance with applicable export laws, rules and regulations, including but not limited to the laws, rules and regulations administered by the Office of Foreign Assets Control of the U.S. Department of Commerce and the Bureau of Industry and Security of the U.S. Department of Commerce.

Miscellaneous. If any provision of this EULA is found to be invalid or unenforceable, it will be enforced to the extent permissible and the remainder of this EULA will remain in full force and effect. Failure by COMPANY to prosecute any right with respect to a default hereunder will not constitute a waiver by COMPANY of the right to enforce rights with respect to the same or any other breach. No refunds or replacements will be permitted on damaged Product.

U.S. Government End Users. If the Product is being acquired by or on behalf of the United States Government or any other entity seeking or applying rights similar to those customarily claimed by the United States Government, this Product and related documentation are "Commercial Items" as that term is defined at 48 C.F.R. ("FAR") 2.101. This Product and related documentation are licensed to the United States Government end users (a) only as "Commercial Items" and (b) with only those rights as are granted to all other end users in accordance with this EULA, and each copy of Product delivered or otherwise furnished shall be marked and embedded as appropriate with the following "Notice of Use," and shall be treated in accordance with such Notice:

NOTICE OF USE

Bluetooth

Connecting Bluetooth devices

Using a Bluetooth audio device

Using a Bluetooth phone

Connecting Bluetooth devices

Bluetooth is a short-range wireless networking technology. Via Bluetooth, you can connect nearby mobile devices wirelessly to send and receive data between connected devices. This enables you to use your devices effectively.

To use Bluetooth, you must first connect a Bluetooth-enabled device to your system, such as a mobile phone or an MP3 player. Ensure that the device you want to connect supports Bluetooth.

⚠ Warning

Park your vehicle in a safe location before connecting Bluetooth devices. Distracted driving can cause a traffic accident and lead to personal injury or death.

Note

- On your system, you can use only Bluetooth Handsfree and Audio features. Connect a mobile device that supports the Bluetooth Handsfree or Audio feature.
- For more information on Bluetooth-enabled devices and their functional compatibility, visit the KIA Motors America website (<https://www.kia.com>).

Pairing devices with your system

For Bluetooth connections, first pair your device with your system to add it to the system's list of Bluetooth devices. You can register up to five devices.

- 1 On the Home screen, touch **All Menus ▶ Setup ▶ Bluetooth ▶ Bluetooth Connection ▶ Add New**.
 - If you are pairing a device with your system for the first time, you can also press the [] button on the steering wheel. Alternatively, on the Home screen, touch **All Menus ▶ Phone**.

- 2 On the Bluetooth device you want to connect, activate Bluetooth, search for your vehicle's system, and then select it.
 - Check the system's Bluetooth name, which is displayed in the new registration pop-up window on the system screen.

- 3** Ensure that the Bluetooth passkeys displayed on the Bluetooth device screen and the system screen are the same and confirm the connection from the device.
- 4** Choose whether or not to connect the Bluetooth device to your system prior to other devices.
 - If you grant priority to the Bluetooth device, it will be connected automatically to the system when you turn on the system.
- 5** If you are connecting a mobile phone, permit the system to access and download your data from the device.
 - Downloading data is only for Bluetooth call functions. Permission is not required if you are connecting an audio device.

 **Note**

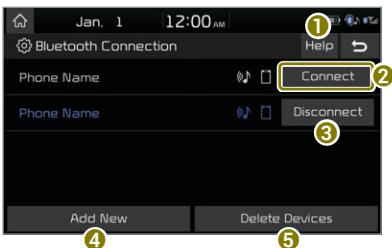

- It may take a while for the system to connect with the device after you permit the system to access the device. When a connection is made, the Bluetooth status icon appears at the top of the screen.
- You can change the permission settings via the mobile phone's Bluetooth settings menu. For more information, refer to your mobile phone's user guide.
- To register a new device, repeat steps 1 to 5.
- When a device is connected to the system via Bluetooth, you cannot pair another device.
- If you do not want the system to connect with the device automatically, deactivate Bluetooth on your device.

Connecting a paired device

To use a Bluetooth device on your system, connect the paired device to the system. Your system can connect with only one device at a time.

1 On the Home screen, touch **All Menus** ▶ **Setup** ▶ **Bluetooth** ▶ **Bluetooth Connection**.

2 Touch **Connect** next to the device you want to connect.
• If another device is already connected to your system, disconnect it. Touch **Disconnect** next to the device.

- ① View Bluetooth help.
- ② Connect the device.
- ③ Disconnect the device.
- ④ Pair a new device with your system.
- ⑤ Delete paired devices. Downloaded data from devices will also be deleted.

Note

- If a connection ends because a device is out of the connection range or a device error occurs, the connection will be restored automatically when the device enters the connection range or when the error is cleared.
- If a connection is unstable due to a communication error, reset Bluetooth by touching **All Menus** ▶ **Setup** ▶ **Bluetooth** ▶ **Default Factory Settings**, and then re-connect the device.

Disconnecting a device

If you want to stop using a Bluetooth device or connect another device, disconnect your currently connected device.

1 On the Home screen, touch **All Menus** ▶ **Setup** ▶ **Bluetooth** ▶ **Bluetooth Connection**.

2 Touch **Disconnect** next to the device.

3 Touch **Yes**.

Deleting paired devices

If you no longer want a Bluetooth device paired or if you want to connect a new device when the Bluetooth device list is full, delete paired devices.

- 1 On the Home screen, touch **All Menus ▶ Setup ▶ Bluetooth ▶ Bluetooth Connection ▶ Delete Devices.**
- 2 Select the devices you want to delete and touch **Delete**.
 - To delete all paired devices, touch **Mark All ▶ Delete**.
- 3 Touch **Yes**.

Using a Bluetooth audio device

You can listen to music stored in the connected Bluetooth audio device via your vehicle's speakers.

On the control panel, press the **[MEDIA]** button.

- If you have multiple media storage devices, press the **[MEDIA]** button again and touch **Bluetooth Audio** from the media selection window.

- ① Search for and connect another Bluetooth device.
- ② Display the options list.
 - **Change Device:** Search for and connect another Bluetooth device.
 - **Sound Settings:** Customize the system sound settings. ► See p.9-2 "Setting the system sound."
- ③ Return to the previous level.
- ④ Information about the song currently playing

- ⑤ Repeat play mode
- ⑥ Shuffle play mode
- ⑦ Restart the current playback. Touch twice to play the previous file. You can also press the [\checkmark TRACK] button on the control panel or use the [\wedge/\vee] lever on the steering wheel.
- ⑧ Pause or resume playback.
- ⑨ Play the next file. You can also press the [\wedge SEEK] button on the control panel or use the [\wedge/\vee] lever on the steering wheel.
- ⑩ Change the repeat play mode.
- ⑪ Activate or deactivate the shuffle play mode.

Note

- Depending on the connected Bluetooth device, mobile phone, or the music player you are using, playback controls may differ.
- Depending on the music player you are using, streaming may not be supported.
- Depending on the connected Bluetooth device or mobile phone, some functions may not be supported.
- If you connect a media device or mobile phone to your system via both Bluetooth and a USB or AUX cable, your system or device may not operate correctly. To use a Bluetooth connection, disconnect any cable connection to the device.

Using a Bluetooth phone

You can use Bluetooth to talk on the phone hands free. View call information on the system screen, and make or receive calls safely and conveniently via the vehicle's built-in microphone and speakers.

Warning

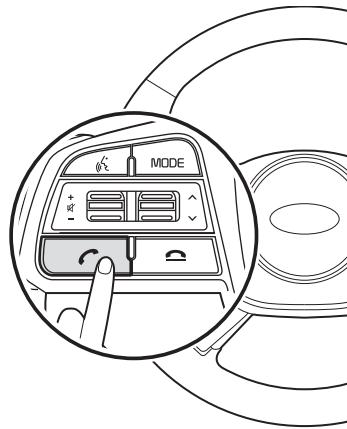

- Driving while distracted can result in a loss of vehicle control that may lead to an accident, severe bodily injury, or death. The driver's primary responsibility is the safe and legal operation of the vehicle, and the use of any vehicle systems, including the touch screen and steering wheel controls, which take the driver's eyes, attention, and focus away from the safe operation of the vehicle, or which are not permissible by law, should never be used during the operation of the vehicle.
- Park your vehicle in a safe location before connecting any Bluetooth devices. Distracted driving can cause a traffic accident and lead to personal injury or death.
- Never dial a phone number or pick up your mobile phone while driving. Use of a mobile phone may distract your attention, making it difficult to recognize external conditions and reducing the ability to cope with unexpected situations, which may lead to an accident.

Making a call

If your mobile phone is connected to the system, you can make a call by selecting a name from your call history or contacts list. You can also enter a phone number on the keypad.

1 On the Home screen, touch **All Menus ▶ Phone**.

- Alternatively, press the [📞] button on the steering wheel.

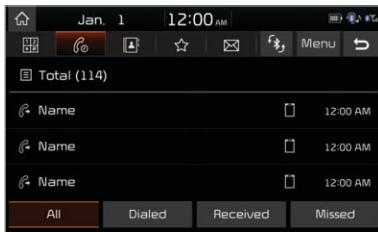

2 If you have multiple paired mobile devices, select a mobile phone from your list of paired devices.

3 Select a phone number from your call history.

- You can find the number you want by pushing the [↖/↗] lever on the steering wheel. You do not need to touch the screen.
- To select a phone number from your contacts list, touch [📞].
- To enter a phone number manually, touch [123].

4 To end the call, press the [📞] button on the steering wheel or touch **End** on the call screen.

Using your call history

- 1 On the Bluetooth phone screen, touch .
- 2 Select a call record from the list to make a call.

- 1 Search for and connect another Bluetooth device.
- 2 Display the options list.
 - **Download:** Download your call history.
 - **Privacy Mode:** Activate the privacy mode to protect your personal information. In the privacy mode, personal data will not be displayed.
 - **Change Device:** Search for and connect another Bluetooth device.
- 3 View all call records.
- 4 View only dialed calls.
- 5 View only received calls.
- 6 View only missed calls.

Note

- Some mobile phones may not support the download function.
- Up to 50 call records will be downloaded per individual list.
- Call durations do not appear on the system screen.
- Permission is required to download your call history from the mobile phone. When you attempt to download data, you may need to permit the download on the mobile phone. If the download fails, check the mobile phone screen for any notification or the mobile phone's permission setting.
- When you download your call history, any old data will be deleted.

Using the contacts list

- 1 On the Bluetooth phone screen, touch .
- 2 Select a contact from the list to make a call.

- ① Search for and connect another Bluetooth device.
- ② Display the options list.
 - **Download:** Download your mobile phone contacts.
 - **Search:** Enter a contact's name or phone number to search the list.
 - **Privacy Mode:** Activate the privacy mode to protect your personal information. In the privacy mode, personal data will not be displayed.
 - **Change Device:** Search for and connect another Bluetooth device.
- ③ Select an initial letter to find contacts quickly.

Note

- Only contacts in the supported format can be downloaded and displayed from the Bluetooth device. Contacts from some applications will not be included.
- Up to 5,000 contacts can be downloaded from your device.
- Some mobile phones may not support the download function.
- Contacts stored both in the phone and in the SIM card are downloaded. With some mobile phones, contacts in the SIM card may not be downloaded.

- If you have set up speed dial numbers on the mobile phone, you can make a call by touching and holding a speed dial number on the keypad. Depending on the mobile phone type, the speed dialing function may not be supported.
- Permission is required to download contacts from the mobile phone. When you attempt to download data, you may need to permit the download on the mobile phone. If the download fails, check the mobile phone screen for any notification or the mobile phone's permission setting.
- Depending on the mobile phone type or status, downloading may take longer.
- When you download your contacts, any old data will be deleted.
- You cannot edit or delete your contacts on the system.
- When you connect a new mobile phone, your contacts downloaded from the previous mobile phone will not be displayed, but they will remain in your system until you delete the previous phone from the device list.

I Using the keypad

- 1 On the Bluetooth phone screen, touch .
- 2 Enter a phone number on the keypad and touch  to make a call.

- 1 Search for and connect another Bluetooth device.
- 2 Display the options list.
 - **Privacy Mode:** Activate the privacy mode to protect your personal information. In the privacy mode, personal data will not be displayed.
 - **Change Device:** Search for and connect another Bluetooth device.
- 3 Change the settings for Bluetooth connections.

Answering calls

When a call comes in, a notification pop-up window of the incoming call appears on the system screen.

To answer the call, touch **Accept**.

- Alternatively, press the  button on the steering wheel.

To reject the call, touch **Reject**.

- Alternatively, press the  button on the steering wheel.
- To reject the call with a text message, touch **Message**. Select a call rejection message from the list and touch **Send**.

Note

- Depending on the mobile phone type, call rejection or sending call rejection messages may not be supported.
- Once your mobile phone is connected to the system, the call sound may be output through the vehicle's speakers even after you exit the vehicle if the phone is within the connection range. To end the connection, disconnect the device from the system or deactivate Bluetooth on the device.

Using options during a call

During a call, you will see the call screen shown below. Touch a button to perform the function you want.

- ① Turn off the microphone so the other party cannot hear you.
- ② Adjust the microphone volume.
- ③ Switch the call to your mobile phone. Depending on the mobile phone type, this function may not be supported.
- ④ End the call.
- ⑤ Display the keypad.

Note

- If you set the microphone volume too high, the other party may have a difficulty understanding you due to noise or echoing, depending on their mobile phone and surroundings. Setting the volume to 30 or lower is recommended.
- If the caller information is saved in your contacts list, the caller's name and phone number will be displayed. If the caller information is not saved in your contacts list, only the caller's phone number will be displayed.

- You cannot switch to any other screen, such as the radio, media, or settings screen, during a Bluetooth call.
- Depending on the mobile phone type, call quality may vary. On some phones, your voice may be less audible to the other party.
- Depending on the mobile phone type, the phone number may not be displayed.

Switching between calls

If your mobile phone supports call waiting, you can accept a second call. The first call is put on hold.

To switch between the active call and the held call, touch **Switch** or touch the phone number displayed on the call screen.

Note

Depending on the mobile phone type, this function may not be supported.

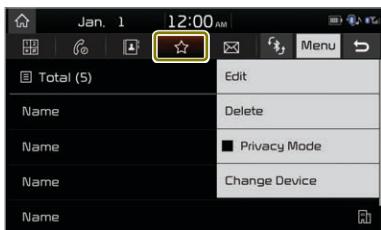

Setting up your favorites list

If you register frequently used phone numbers as your favorites, you can find them and dial them quickly.

1 On the Home screen, touch **All Menus ▶ Phone**.

- Alternatively, press the [📞] button on the steering wheel.

2 On the Bluetooth phone screen, touch **☆**.

3 Touch **Menu ▶ Edit** and select a contact from your contacts list.

- If you have not yet added any favorites, touch **Add New**.

4 Touch **☆** next to the phone number you want.

- The star icon changes to orange and the phone number is added your favorites list.

Note

- You can register up to 10 favorites for each device.
- To delete one of your favorites, on the favorites list, touch **Menu ▶ Delete**.
- When you connect a new mobile phone, your favorites set for the previous mobile phone will not be displayed, but they will remain in your system until you delete the previous phone from the device list.

Viewing text messages

You can view your messages on the system screen and listen to the messages converted to voice. You can also send a simple reply using the templates predefined on the system.

Viewing a new message

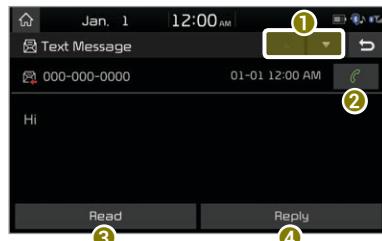

When you receive a message, a new message notification appears.

- ① Sender information
- ② View the message details.
- ③ Convert the message to voice and listen to it through the vehicle's speakers.
- ④ Close the notification pop-up window.

Viewing messages from the messages list

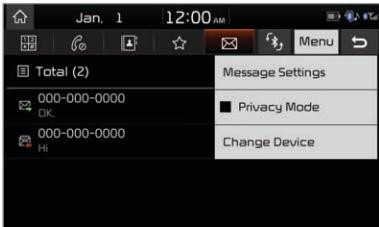

- 1 On the Home screen, touch **All Menus** ► **Phone**.
 - Alternatively, on the steering wheel, press the [C] button.
- 2 On the Bluetooth phone screen, touch .
- 3 Select a message from the list.
- 4 View the message details.

- ① Move to the previous or next message.
- ② Call the sender back.
- ③ Convert the message to voice and listen to it through the vehicle's speakers.
- ④ Send a simple reply using one of the message templates.

Note

- You can change the message settings on the messages list.

- To receive notifications every time you receive a message, touch **Menu ▶ Message Settings** and touch **Message Notification** to select it.
- To edit the reply message templates, touch **Menu ▶ Message Settings ▶ Predefined Messages** and select the template you want to edit.
- Depending on the mobile phone type, replying to received messages may not be supported.
- To edit or delete templates, park your vehicle in a safe location first and use your mobile phone's messaging function. You cannot edit or delete your messages on your system.

- When you connect an iPhone, you may have some restrictions on receiving messages.
 - If the sender's contact information is saved in your contacts list, only the sender's name will be displayed.
 - If the sender's contact information is not saved in your contacts list, only the sender's phone number will be displayed.
 - Replying to received messages is not available.
 - If the message notification setting is disabled or the option for viewing content on the lock screen is disabled, messages will not be received by your system.
- Depending on the system language, converting the message to voice may not be supported.

7

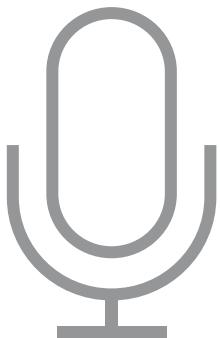

Voice recognition

[Starting voice recognition](#)

[Viewing the voice recognition help](#)

[Available voice commands](#)

[Using Siri Eyes Free](#)

Before starting voice recognition

- The system can recognize only specified voice commands. ► See p.7-6 "Available voice commands" or the on-screen help of the voice recognition.
- To increase the recognition rate, keep in mind the following when saying a voice command:
 - Say a command naturally and clearly.
 - Say a command in the direction of the microphone, keeping your body straight in the driver's seat. The microphone is located at the top part of the inside rearview mirror.
- Voice recognition will end automatically in the following situations:
 - When a call comes in or when you make a call
 - When you connect or remove a media storage device
 - When the front view or rear view camera turns on (*if equipped)
 - When you start another function by pressing a button, such as the [RADIO] or [MEDIA] button.
 - When an unintentional function is performed, such as a new route search when you deviate from the route during navigation.

- Voice recognition will be affected by the ambient noise in the following situations:
 - When a window or the sun roof is open, causing a loud sound made by the wind
 - When the air conditioner or heater is set to a high air volume level (level 3 or lower is recommended)
 - While you are driving through a tunnel
 - When severe vibrations and noises occur while driving on a unpaved or uneven road
 - When severe noises occur due to heavy rain or a storm

Starting voice recognition

With voice recognition, you can use your system's functions without controlling the screen or buttons. This can help you maintain focus while driving and avoid any dangerous situations.

Use voice recognition to perform functions safely and conveniently.

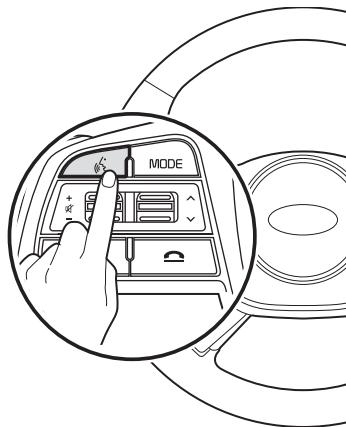

On the steering wheel, press the [] button. Voice recognition starts with a voice guidance.

- ① Voice recognition status
 - Waiting for your command
 - Playing a voice guidance
 - Processing your command
- ② Recognized command. The voice volume level is indicated as a bar graph while you are saying a command.
- ③ Primary voice commands you can use
- ④ End voice recognition.

Use voice recognition by following the steps below.

- 1 On the steering wheel, press the [] button.
 - Voice recognition starts with a voice guidance.

- 2 After the voice guidance ends and you hear a beep, say a command. ► See p.7-6 "Available voice commands" or the on-screen help of the voice recognition.
 - The system displays the recognized command at the top of the screen and performs the corresponding function.
 - If an additional command is required for performing the function, available commands for the next step are displayed on the screen. Say or touch a command.

- When there are multiple commands similar to the recognized command, the system displays the numbered candidates on the screen. Say the number corresponding to the command you want.

- To end voice recognition, say "Exit" while the system is waiting for your command.
 - Alternatively, press and hold the [✖] button on the steering wheel or touch **Exit** on the voice recognition screen.

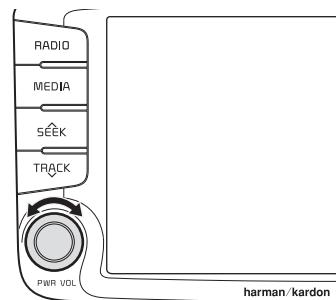

Note

- To skip a voice guidance, press the [✖] button on the steering wheel.
- To extend the waiting time, press the [✖] button while the system is waiting.
- If you sign up for UVO and activate the service on your system, you can use server-based voice recognition with voice commands for finding POIs and addresses. To activate this feature, on the Home screen, touch **All Menus** ► **Setup** ► **Voice Recognition** ► **Use Network** and ensure that **Use UVO Network** is selected.

Adjusting the voice guidance volume

You can adjust the volume of the voice guidance to an appropriate level for using voice recognition while driving.

While you are using voice recognition, turn the **[VOL]** knob on the control panel.

Viewing the voice recognition help

You can see how to perform various functions by voice commands.

Caution

For safety, voice recognition help will not be displayed while the vehicle is moving. Park your vehicle in a safe location to view the on-screen help.

1 On the steering wheel, press the [?] button.

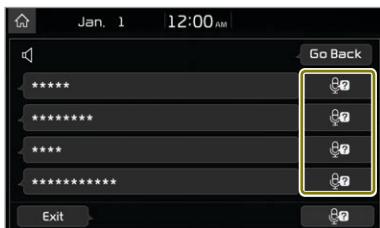

2 Touch **Help** on the voice recognition screen or say "Help" while the system is waiting for your command.

3 To view full help information on how to use voice commands, touch [?] at the bottom of the screen.

- To view help on how to use voice commands for a specific function, touch [?] next to the function name you want.

4 To close the help screen, touch **Exit** on the voice recognition screen or say "Exit" while the system is waiting for your command.

Note

- To view a list of available voice commands for each function, say or touch a function name you want.
- After accessing a list of voice commands, you can perform a function by saying or touching a command.
- You can view a list of available voice commands without activating voice recognition. On the Home screen, touch **All Menus ▶ Voice Commands**.

Available voice commands

Call commands

Command	Function
Call	You can make a call to one of your mobile phone's contacts. Say a contact's name to begin a call.
Call <Name>	The system dials the phone number of that contact. If the contact has multiple phone numbers, select a phone number.
Call <Name> on Mobile	The system dials the phone number saved as "Mobile" for that contact.
Call <Name> at Work	The system dials the phone number saved as "Work" for that contact.
Call <Name> at Home	The system dials the phone number saved as "Home" for that contact.
Call <Name> on Other	The system dials a phone number saved as other than "Mobile", "Work", or "Home" for that contact.
Dial Number	You can make a call. Say a phone number to begin a call.
Dial <Phone #>	You can make a call immediately to that phone number.

Command	Function
Send Message	You can send a text message to one of your mobile phone's contacts. Say a contact's name and then enter the message content by following the guidance. This command is available only if UVO is activated.
Send Message to <Name>	You can send a text message to that specific contact. Enter the message content by following the guidance. This command is available only if UVO is activated.
Send Message to <Name> <Message>	You can send a text message to that contact more directly. This command is available only if UVO is activated.
Change Bluetooth Device	You can search for and connect another Bluetooth device.

Note

To use call commands, your mobile phone must be connected to the system via Bluetooth and your contacts must be downloaded.

Navigation commands

Command	Function
Find <POI or Address>	You can search for a designated POI name or address. For example, say "Find Kia dealerships" or "Find Kia dealerships in Seattle."
Find Address in <State>	You can search for a location with its address in a designated state. Say an address in order of the house number, street, and city.
Find <POI>	You can search for a designated category of POIs nearby. ► See p.7-10 "POI names."
Frequently Visited Points	You can select a location from the list of your frequently visited points. Say the number of the location you want.
Address Book	Access the address book screen.
Previous Points	You can select a location from the list of your previous destinations, frequently visited points, and starting points. Say the number of the location you want.
Previous Destinations	You can select a location from the list of your previous destinations. Say the number of the location you want.

Command	Function	Command	Function
Previous Starting Points	You can select a location from the list of your previous starting points. Say the number of the location you want.	Cancel Route	Stop the navigation guidance and cancel your current destination.
Traffic Information	Access the traffic information screen.	Destination Information	View information on the distance and time to your current destination.
Go Home	Set the location saved to the Go Home shortcut button in your address book as your destination.	Route Options	Find another route.
Go to Work	Set the location saved to the Work shortcut button in your address book as your destination.	Emergency Services	You can select a location from the list of nearby police stations, hospitals, dealerships, and roadside assistance services. Say the number of the location you want.
Change Home	You can change the location saved as your home.	Police Stations	You can select a location from the list of nearby police stations. Say the number of the location you want.
Change Work	You can change the location saved as your work.	Hospitals	You can select a location from the list of nearby hospitals. Say the number of the location you want.
Pause Route	Pause the navigation guidance.	Dealerships	You can select a location from the list of nearby motor dealerships. Say the number of the location you want.
Resume Route	Resume the navigation guidance.	Roadside Assistance	You can select a location from the list of nearby roadside assistance services. Say the number of the location you want.
Turn Guidance On	Unmute the navigation guidance.	Show Route	View the entire route on the map.
Turn Guidance Off	Mute the navigation guidance.		
Zoom In	Zoom in on the map.		
Zoom Out	Zoom out from the map.		

Note

- When you use a command starting with "Find," the system searches for locations within the state or province where your vehicle is currently located. To search for locations in another state or province, say the state or province name first and then say the location you want.
- Some commands, such as "Cancel Route" or "Show Route," are available only when a destination is set.
- When **Use UVO Network** is selected in the **Setup ▶ Voice Recognition ▶ Use Network** menu, a UVO subscription is required to use voice commands for finding POIs or addresses. If you do not have a UVO subscription or do not want to use server-based voice recognition, deactivate the option.

Radio commands

Command	Function
FM <87.5 to 107.9>	Turn on the FM radio with that frequency.
AM <530 to 1710>	Turn on the AM radio with that frequency.
SiriusXM <0 to 999>	Turn on the SiriusXM radio with that frequency.

UVO commands

Command	Function
Roadside Assist	The system calls the UVO Center. You can request vehicle towing and services.
Vehicle Diagnostics	You can check your vehicle's abnormal conditions and view the diagnosis result.
My POIs	Access the list of POIs received from the UVO website or the UVO application.
Virtual Assistant	The system calls the UVO Center. You can request help or make inquiries about using the UVO service.

Other commands

Command	Function
Help	Move to the help screen.
Line <1 to 4>*	Select an item with the designated number on a list. Simple numbers, such as "One" or "Two," can be recognized.
Yes*	Accept a notification asking for your confirmation in an exceptional situation.
No*	Deny a notification asking for your confirmation in an exceptional situation.
Next*	If there are more than five items on a list, scroll to the next page.
Previous*	If you scroll to the next page of a list, scroll back to the previous page.
Manual Input*	When using the Dial Number command, open the keypad to enter a phone number manually.
Go Back*	Return to the previous level.
Exit	End voice recognition.

*These commands are available only in certain situations.

Using Siri Eyes Free

When you connect an Apple device that is compatible with Siri to your system via Bluetooth, you can use Siri Eyes Free. This allows you to perform the functions of your system and Apple device with voice commands so that you can devote your attention to driving.

First, ensure that your Apple device supports Siri and that you have activated Siri.

1 Connect your Apple device to your system via Bluetooth.

- ▶ See p.6-2 "Connecting Bluetooth devices."

2 On the steering wheel, press and hold the [自然而] button.

3 On the Siri screen, touch Speak.

4 Say a command.

- You can perform the functions related to Bluetooth calls on the system and other functions on your Apple device.
- Press the [自然而] button to restart Siri.

5 To end Siri, press and hold the [自然而] button.

Siri Eyes Free is enabled only while you are driving. When you shift to "P" (Park) or apply the parking brake, you disable this function.

Note

Different Apple devices may have different functions enabled and may vary in how they respond to Siri commands, depending on the type of device and the iOS version.

8

UVO

- UVO services
- Activating the service
- Locating the UVO buttons
- Using the UVO menu
- Using Local Search by Voice Commands
- Using 911 Connect

The logo consists of the word "UVO" in a bold, sans-serif font. The letter "O" has three short horizontal lines extending from its right side, suggesting motion or sound.

UVO services

UVO provides connected car services, such as roadside assistance and emergency rescue, via the latest IT and communication technologies.

Once subscribed, you can access UVO services via the buttons on your inside rearview mirror. You can also access other useful features using the UVO menu in your system.

Note

- You must be an active UVO subscriber or within the initial free trial period to receive UVO services.
- Depending on your vehicle type, the system type or the subscribed service package, available services may vary.
- Some services may incur additional charges.
- Services may be modified, added, or deleted according to changes in the company's policies.

Activating the service

You must activate UVO services to use them. An account with MyUVO.com is required for activation. If you do not already have an account, you will be prompted to create one. If you already have an account, enter the verification code you received from MyUVO.com.

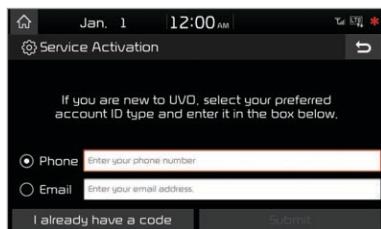

1 Park your vehicle in a safe location.

- You cannot enter information for service activation while your vehicle is moving.

2 On the Home screen, touch **All Menus** ▶ **UVO** ▶ **UVO Settings** ▶ **Service Activation**.

3 Enter your phone number or email address and touch **Submit**.

- If you have a registered account and your verification code, touch **I already have a code**.

4 Enter the verification code you received from MyUVO.com and touch **Submit**.

- Activation will begin. While the activation is in progress, the system buttons will be locked.

Caution

Do not turn off the engine while activation is in progress. Doing so may cause the system to malfunction.

Note

- If the activation fails, contact the UVO Center at (844) UVO-9411.
- If your UVO service has expired, you can reactivate by renewing your subscription at MyUVO.com and entering your verification code again in the **Service Activation** menu.

Service limitations

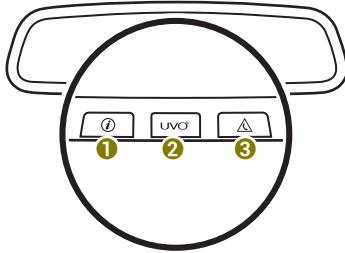

Because UVO services are provided via mobile networks, use of this service may be limited depending on the status of your mobile network. Check the network signal icon () at the top of the screen to verify if the network signal strength is adequate.

Note

- Use of this service is recommended when the network signal icon has more than four signal bars.
- Depending on your mobile network status, UVO services may be affected in the following places:
 - In a building or tunnel
 - In a mountain or dense forest
 - On a road close to cliffs
 - In an area with a lot of high buildings
 - On a highway or a road under an overpass
 - Out of a service area based on the mobile network service provider's coverage policy

Locating the UVO buttons

You can access UVO services via the buttons on your inside rearview mirror.

- ① Call the UVO Center.
- ② Start Voice Local Search to search for locations using voice commands.
- ③ Call for roadside assistance.

Note

Depending on the vehicle model and specifications, the illustration shown may differ in appearance and layout.

Using the UVO menu

You can use UVO services via the UVO menu in your system.

On the Home screen, touch **All Menus ▶ UVO**.

- ① Call the UVO Center for vehicle towing and other services. ► See p.8-5 "Contacting roadside assistance."
- ② Check your vehicle for any issues and view the diagnosis. ► See p.8-6 "Diagnosing your vehicle."
- ③ View location information received from the UVO website or the UVO application. ► See p.8-6 "Using received location information."
- ④ Call the UVO Center to request help or make inquiries about using UVO services. ► See p.8-7 "Contacting the UVO Center."
- ⑤ Access UVO services to use it in your system, activate the automatic 911 connection feature, or access modem information.

⚠ Warning

Distracted driving can result in a loss of vehicle control, leading to an accident, severe bodily injury, or death. The driver's primary responsibility is the safe and legal operation of the vehicle, and the use of any vehicle systems, including the touch screen and steering wheel controls, which take the driver's eyes, attention, and focus away from the safe operation of the vehicle, or which are not permissible by law, should never be used during the operation of the vehicle.

Note

Use the UVO features in the system when your vehicle is parked with the engine running.

Viewing driving information

You can view your driving patterns by checking information such as driving time, distance, idling time ratio, and speed distribution. Use driving information to ensure safe and economical vehicle operation.

1 On the Home screen, touch All Menus ► Driving Info.

2 View your vehicle's driving information.

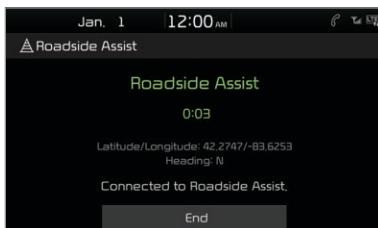

- To view the latest information, touch **Update**.

Contacting roadside assistance

If you encounter a disabled vehicle or other problems while on the road, you can contact the UVO Center directly for roadside assistance, vehicle towing or service.

Touch All Menus ► UVO ► Roadside Assist or press the [⚠] button on the inside rearview mirror.

Note

Depending on the network connection, this feature may not work correctly.

Diagnosing your vehicle

If you are curious about whether or not there is a problem with your vehicle, you can perform a vehicle diagnosis. With a vehicle diagnosis, you can schedule maintenance.

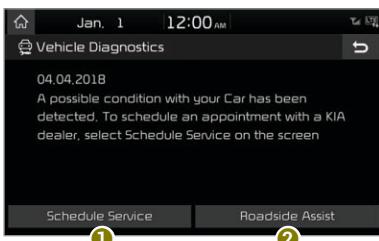

1 Park your vehicle in a safe location.

- Depending on the vehicle model or specifications, you may need to ensure your vehicle is parked before performing a diagnosis.

2 On the Home screen, touch **All Menus ▶ UVO ▶ Vehicle Diagnostics**.

- A remote diagnosis will begin. Refrain from using your system until the diagnosis is complete and the result is displayed on the screen. If you move to another screen while a diagnosis is in progress, the diagnosis will be canceled.

3 Check the result displayed on the screen.

- Schedule maintenance at your preferred Kia dealership or the nearest one.
- Call the UVO Center for roadside assistance.

Note

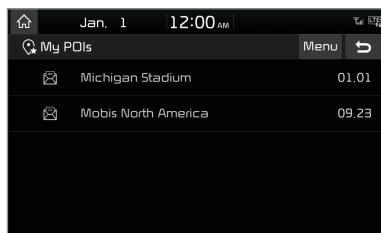

- A diagnosis result provided by this service is only an estimation based on data from your vehicle. Visit a Kia dealership for a detailed diagnosis.
- If a critical issue is detected with your vehicle, an automatic diagnosis will start and a warning light will display in the instrument cluster. You will be notified of the diagnosis result.
- Your preferred dealership must be registered on MyUVO.com for you to schedule maintenance with it.

Using received location information

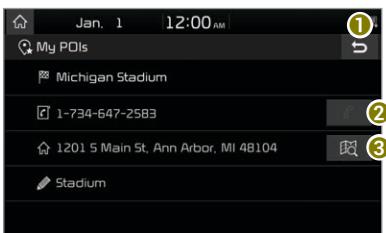

You can view points of interest (POIs) received from either the UVO website or the UVO application, and can also set them as your destination.

1 On the Home screen, touch **All Menus ▶ UVO ▶ My POIs**.

2 From the list of received locations, select a place name.

3 Check the location information.

- ① Return to the previous level.
- ② Dial the selected POI. This feature is enabled only if a phone number is provided with the information received.
- ③ View the location of the selected POI on the map.

Note

- You can save up to 200 POIs.
- To delete locations from the list, touch **Menu ▶ Delete**.
- Locations outside the US are not displayed on the map.

Contacting the UVO Center

You can contact a UVO Center customer care representative directly to request help or to inquire about using UVO services.

On the Home screen, touch **All Menus ▶ UVO ▶ Virtual Assistant** or press the [*i*] button on your inside rearview mirror.

- When connected to the UVO Center, ask a representative for the service you need.
- To end the call, touch **End** on the screen or press the [*i*] button.

Note

This feature is not available during a Bluetooth call.

Using Local Search by Voice Commands

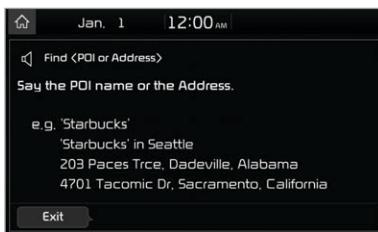

With UVÖ, you can search for locations from the online map database by using voice commands.

If your map or system has not been recently updated, or if you are having difficulty finding your destination, you can use the latest information from our online server to look up locations or receive guidance.

1 On your inside rearview mirror, press the [UVÖ] button.

- Voice recognition starts with a voice guidance.

2 Once voice guidance ends, you will hear a beep prompting you to say a POI name or an address.

3 You can end voice recognition by saying "Exit" (when the system is listening for your command).

- Alternatively, press the [UVÖ] button on the steering wheel or touch **Exit** on the screen.

Note

Depending on the system language, voice recognition may not be supported.

Using 911 Connect

This feature provides you with immediate assistance in the event of an accident or when any airbag is deployed.

First, activate the 911 Connect feature.

- 1 On the Home screen, touch **All Menus ▶ UVO ▶ UVO Settings**.
- 2 Select **911 Connect** to activate.

- 3 Read the terms of use and touch **Agree**.
 - The feature will be activated and a ***** symbol will appear at the top right of the screen.

If an airbag deploys, the system will automatically call 911 and send your vehicle's location to the 911 operator.

MEMO

9

Settings

Setting sounds

Setting the system screen

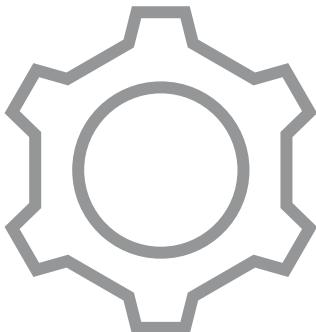

Setting the screen saver

Setting voice recognition

Setting Bluetooth

Setting the system environments

Updating system software and map data

Setting sounds

You can adjust/modify sound settings such as speaker volume or sound effects.

Setting the system sound

On the Home screen, touch **All Menus ▶ Setup ▶ Sound**.

Note

- Depending on the model or specifications of your vehicle, available options may vary.
- Depending on the system or amplifier specifications in your vehicle, available options may vary.

Position

Select where you would like sound to be concentrated in your vehicle. Touch a desired location on the seat image or use the arrow buttons to adjust. To center the sound in your vehicle, touch .

Volume

Adjust the volume levels for various system features, including phone projection.

Tone

Adjust the tone and output level of each sound.

Priority

- **Navigation Guidance Priority:** Set to give priority to navigation guidance over radio/media features when both functions are being used simultaneously.
- **Proximity Warning:** Set to give priority to the proximity warning feature and lower all other sounds when parking your vehicle.
- **Navigation During Calls:** Set to receive navigation guidance during a phone call.
- **Start-up Volume Limit:** Set to automatically lower the system volume upon vehicle start-up, if the volume has been previously set to a high level.

Navigation Volume

Select a method to adjust the volume while using the navigation system.

- **Use Map Screen Volume Buttons:** You can use the volume adjustment buttons on the navigation screen.
- **Use Map Screen Volume Buttons or Volume Knob:** You can use the volume adjustment button on the navigation screen or the [VOL] knob on the control panel while voice guidance is playing.

Advanced (*if equipped)

Adjust advanced sound options and apply various sound effects.

Depending on your amplifier's specifications, available sound options and effects may vary.

Default

Reset your sound settings to default values.

Note

To turn the touch sound on or off, touch **Beep** at the top of the sound settings screen.

Setting the system screen

You can change the settings for the screen display.

On the Home screen, touch **All Menus ▶ Setup ▶ Display**.

Mode

Set the screen brightness to be adjusted automatically to ambient lighting conditions, and also to keep the screen bright or dim.

Illumination

Link to Cluster Illumination Control allows system brightness to be adjusted to match the instrument cluster's brightness. If deactivated, this feature allows you to adjust screen brightness in day or night mode, depending on the mode selected.

Default

Reset your screen settings to default values.

Setting the screen saver

You can select a screen saver option after turning off your screen by pressing and holding the [**PWR**] button on the control panel.

- 1 On the Home screen, touch **All Menus ▶ Setup ▶ Screen Saver**.
- 2 Select a screen saver option.
 - **Digital:** The digital clock is displayed.
 - **Analog:** The analog clock is displayed.
 - **None:** No screen saver is displayed.

Setting voice recognition

You can change the settings for voice recognition.

On the Home screen, touch **All Menus ▶ Setup ▶ Voice Recognition**.

Use Network

If you are subscribed to the UVO service, set to use the server-based voice recognition.

Guidance

Set to hear brief guidance or detailed guidance.

Setting Bluetooth

You can modify Bluetooth connection settings.

On the Home screen, touch **All Menus ▶ Setup ▶ Bluetooth**.

Bluetooth Connection

Pair new Bluetooth devices to your system, or connect or disconnect a paired device. You can also delete paired devices.

Auto Connection Priority

Select a paired device to automatically connect to your system when it turns on.

Message Settings

- **Message Notification:** Set to receive message notifications.
- **Predefined Messages:** Edit message templates for quick replies.

Bluetooth Voice Prompts

Set to enable or disable voice prompts for Bluetooth connections.

Privacy Mode

Activate privacy mode to protect your personal information. In the privacy mode, personal data will not be displayed.

Bluetooth System Info

View or edit your system's Bluetooth information.

Default Factory Settings

Delete all paired Bluetooth devices and reset your Bluetooth settings to default values. All data related to Bluetooth devices will also be deleted.

Note

Some options are only displayed when a mobile phone is connected to your system.

Setting the system environments

You can customize system settings, such as the time and date, system language, and more.

Setting the system language

- 1 On the Home screen, touch **All Menus** ▶ **Setup** ▶ **Language**.
- 2 Select a language.

Note

- This setting will not affect user data, such as MP3 file names.
- Depending on the system language, voice to text may not be supported using Bluetooth.
- Depending on the system language, voice recognition may not be supported.

Setting the time and date

- 1 On the Home screen, touch **All Menus ▶ Setup ▶ Date/Time**.
- 2 Touch **GPS Time** to receive information via GPS.
 - To set the time and date manually, touch **GPS Time** to deactivate it, then set the correct date and time using the arrow buttons located above/below the input fields.
 - Touch **24 Hours** to set the time in the 24 hour format.
 - Touch **Daylight Saving Time** to apply daylight saving time.

Setting the keyboard

You can customize your keyboard settings.

On the Home screen, touch **All Menus ▶ Setup ▶ Keyboard**.

Keyboard Type - English

Select a default keyboard type for English.

Default Keyboard

Select a default character type for the keyboard.

Note

Your keyboard settings will be applied throughout the system when inputting text.

Setting advanced options

You can customize additional settings, such as notifications or button functions.

On the Home screen, touch **All Menus ▶ Setup ▶ Advanced**.

Return to Map: Set Time

Return to the map screen from the radio/media screen, after a set period of time. This feature functions only when there is a destination set.

TUNE Knob Function

Select which function the **[TUNE/FILE]** knob will perform on the navigation screen.

Custom Button

Assign a function to the custom button **[☆]** on your control panel.

Steering Wheel Mode Button

Switch between different radio/media functions when pressing the **[MODE]** button on your steering wheel.

Media Change Notifications

Set to briefly display media information at the top of the screen when not on the main media screen.

My Data

- **Import Address Book from USB:**

Import address book data from a USB storage device.

- **Export Address Book to USB:** Export your address book data to a USB storage device.

Note

- For importing and exporting address book data, use only USB storage devices formatted in FAT16/32.
- If you import data using different coordinates, your imported places may be altered.

Viewing system information

On the Home screen, touch **All Menus** ▶ **Setup** ▶ **System Info**.

SW Info

View your system's version information or update it to the latest version. To update your system, visit your local dealership.

Storage

View your system's memory storage information.

Default

Reset your system settings to default values. All user data stored in the system, including navigation history, will also be deleted.

Updating system software and map data

To update your map, contact your Kia dealer or visit www.kia-gpsmap.us.

Note

- Any changes made after the update file is created will not be reflected in the map data. As a result, certain roads, buildings, and speed limits may not be up-to-date.
- Depending on data size, an update may take several minutes.
- Do not turn off the system or remove the storage device while the update is in progress. If the power supply is cut off or the storage device is removed from the system, it may corrupt the data or cause a system malfunction.

10 Troubleshooting

Solutions

Solutions

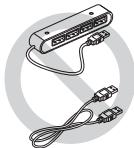

Before reporting a malfunctioning system, refer to the following table for troubleshooting tips. If the problem persists or you are unable to locate your specific need, contact your place of purchase or dealer.

Sound and display

Symptom	Possible cause	Solution
No sound	System turned off	<ul style="list-style-type: none">• Ensure that the engine start/stop button is set to "ACC" or "ON."• Press the [PWR] button to turn on the system.
	Low volume level	Turn the [VOL] knob on the control panel to adjust the volume.
	System muted	Press the [] button on the steering wheel to unmute the system.
Sound is heard from only one speaker.	Unbalanced sound output	On the Home screen, touch All Menus ▶ Setup ▶ Sound ▶ Position and change the settings to adjust the sound balance.
Sound is cut off or a distorted noise is heard.	System vibration	This is not a malfunction. Vibration can cause distortion and even cut off sound. The system will function normally when the vibration stops.
	AUX cable connected without an external device	If an AUX cable is plugged into the system without an external device, a distorted noise may occur. Remove the AUX cable from the AUX port when an external device is not connected.
The image quality is deteriorated.	System vibration	This is not a malfunction. Vibration can cause distortion. The system will function normally when the vibration stops.
	Aged or deteriorated screen	If the problem persists, contact your place of purchase or dealer.

Symptom	Possible cause	Solution
Small red, blue, or green dots appear on the screen.		Because the LCD is manufactured with technology requiring extremely high pixel density, dead, stuck or poorly lit pixels may occur. The permitted amount is no more than 0.01% of the total pixels.

USB playback

Symptom	Possible cause	Solution
The files on the USB storage device are not recognized.	File format not compatible	Copy compatible media files to the USB device and reconnect the device. ► See p.11-8 "USB mode."
	Poor connection	Disconnect the USB storage device from the USB port and reconnect it correctly.
	Damaged or dirty USB connectors	Remove foreign substances from the USB connector of the storage device and the contact surface of the USB port.
	USB hub or extension cable used	<p>Connect the USB storage device directly to the USB port.</p> 
	Non-standard USB storage device used	Use a USB storage device that is compatible with the system. ► See p.11-8 "USB mode."
	Corrupt USB storage device	Format the USB storage device on a PC and reconnect it. Format the device in FAT16/32.

iPod/iPhone playback

Symptom	Possible cause	Solution
An iPod or iPhone is not recognized by the system.	Poor connection	Disconnect the cable from the USB port and reconnect it correctly.
	Device not ready or malfunctioning	<ul style="list-style-type: none">Check if the device's battery is low. If the battery is low, the smartphone may not be recognized.Check if the device's firmware is up-to-date. If not, update the firmware via iTunes and reconnect the device.Reset the device and reconnect it.
	Uncertified cable used	Use an Apple-certified cable.
	Device not supported	Use the device types and models that can be played in the system. ► See p.11-10 "iPod mode."
No sound is heard during music playback from an iPod or iPhone.	Device connected both to the USB and the AUX port	When the device is connected to the USB port and the AUX port simultaneously, the system defaults to AUX mode. If the AUX cable is connected to the device, disconnect it.
	Playback paused during a call	If you make or receive a call while playing music from an iPhone, the device pauses playback. Playback remains paused after you end the call. Check the playback status on the device and resume the audio.

AUX mode

Symptom	Possible cause	Solution
No sound is heard in the AUX mode.	Poor connection	Disconnect the cable from the AUX port and reconnect it correctly.
A distorted noise is heard in the AUX mode.	Device powered by your vehicle's battery power	Connecting the device with the power cable plugged into the power jack may cause a distorted noise. Unplug the device's power cable from the vehicle.

Bluetooth connection

Symptom	Possible cause	Solution
The system is not detected on the Bluetooth device.	Pairing mode not activated	On the Home screen, touch All Menus ▶ Setup ▶ Bluetooth ▶ Bluetooth Connection ▶ Add New to switch the system to pairing mode. Then, try searching for the system again on the device.
The Bluetooth device is not connected to the system.	Bluetooth deactivated Bluetooth error	Activate Bluetooth on the device. • Deactivate Bluetooth and reactivate it on the device. Then, reconnect the device. • Turn the device off and on. Then, reconnect it. • Remove the battery from the device and reinstall it. Then, turn the device on and reconnect it. • Unregister Bluetooth pairing on both the system and the device and then re-register and connect them.

Phone projection

Symptom	Possible cause	Solution
Phone projection does not start when a smartphone is connected via a USB cable.	Phone projection not supported by the phone	<p>Visit the following websites and ensure that the smartphone supports one of the corresponding functions.</p> <ul style="list-style-type: none">• Android Auto: https://support.google.com/androidauto• Apple CarPlay: https://www.apple.com/ios/carplay
	Phone projection disabled	<ul style="list-style-type: none">• On the Home screen, touch All Menus ▶ Setup ▶ Phone Projection, then select a function you want to use.• Check if phone projection is disabled in the application settings or if there are any restrictions set on your smartphone.
	Smartphone not ready or malfunctioning	<ul style="list-style-type: none">• Check if the smartphone's battery is low. If the battery is low, the smartphone may not be recognized.• If the network signal is weak, phone projection may not work correctly.• If the smartphone is locked, unlock it.• Reset the smartphone and reconnect it.
When phone projection starts or is in use, a black screen is displayed.	Smartphone malfunctioning	<ul style="list-style-type: none">• Disconnect the USB cable from the smartphone and reconnect the cable.• Reset the smartphone and reconnect it.

System operation

Symptom	Possible cause	Solution
The previously used media mode is not activated after the system turns off and back on.	Poor connection or playback error	If the corresponding media storage device is not connected or has a problem in playback when you turn on the system, the radio/media mode you previously used will be activated. Reconnect the media storage device or restart playback.
The system is slow or it does not respond.	Internal system error	<ul style="list-style-type: none">• Press and hold the reset button with a suitable tool, such as a pen or a paperclip.• If the problem persists, contact your place of purchase or dealer.
The system does not turn on.	Fuse shorted	<ul style="list-style-type: none">• Visit a repair shop and replace with a suitable fuse.• If the problem persists, contact your place of purchase or dealer.

Navigation system operation

Symptom	Possible cause	Solution
Locations are not found.	Outdated map data	To update your system, visit your local dealership.
The navigation guidance is different from the actual road.	Outdated map data	To update your system, visit your local dealership.
	Road changed after map update	The navigation guidance may be incorrect depending on the build date of the map update, even if the map is updated with the latest data. Drive according to the actual road and traffic regulations.
The navigation provides detours and the speed camera information is delayed.	Outdated system data or map data	To update your system, visit your local dealership.
Real-time traffic information is not received.	Poor signal reception	<ul style="list-style-type: none">Receiving traffic information may be difficult in some mountainous or island regions. Check the reception status again in a region with strong signals.If the problem persists, contact your place of purchase or dealer.

FAQ

Navigation

Q How do I update the map?

A You can download the latest map data by using the SD card provided with your system. ► See p.9-8 "Updating system software and map data."

Q The navigation system guides me to incorrect bypasses and notifies me the position of speed cameras too late.

A You can search for an alternative route by reconfiguring the route options. On the navigation screen, touch **Menu** ▶ **Route** ▶ **Route Options** and set the options and search for other routes. ► See p.5-15 "Finding another route."

If your system is outdated, update the system's software and map data with the latest version. ► See p.9-8 "Updating system software and map data."

Bluetooth

Q What kinds of functions can I use with Bluetooth?

A You can connect your mobile phone to make or answer calls hands free. You can also connect audio devices, such as MP3 players and mobile phones, to listen to music in your vehicle. ► See p.6-6 "Using a Bluetooth phone," p.6-5 "Using a Bluetooth audio device."

Q What is the difference between pairing a device and connecting a device?

A Pairing occurs through authenticating the system and a mobile device. Devices paired with the system can be connected and disconnected until they are deleted from the system. Bluetooth Handsfree features, such as making or answering calls or accessing contacts, are supported only in mobile phones connected with the system.

Q How do I pair a Bluetooth device with the system?

A On the Home screen, touch **All Menus** ▶ **Setup** ▶ **Bluetooth** ▶ **Bluetooth Connection** ▶ **Add New**. From the Bluetooth device you want to connect, search for and pair with your system. When you enter or confirm a Bluetooth passkey displayed on the system screen, the device is registered to the system's Bluetooth device list and connected to the system automatically. ► See p.6-2 "Connecting Bluetooth devices."

Q What is a passkey?

A A passkey is the password used to authenticate the connection between the system and the mobile device. The passkey needs to be entered only once when you pair a mobile phone for the first time.

The initial passkey is "0000." You can change it by touching **All Menus** ▶ **Setup** ▶ **Bluetooth** ▶ **Bluetooth System Info** ▶ **Passkey**.

Q I changed my mobile phone that was registered to the system via Bluetooth. How can I register my new mobile phone?

A You can register additional devices to your system by following the instructions to pair a device. Up to five devices can be added to your system's Bluetooth device list. To delete a registered device, on the Bluetooth device list, touch **Delete Devices**, select the devices to delete, and touch **Delete**. ▶ See p.6-2 "Connecting Bluetooth devices."

Q How do I answer a call?

A When a call comes in and a notification pop-up window appears, press the [📞] button on the steering wheel or touch **Accept** on the screen.

To reject the call, press the [📞] button on the steering wheel or touch **Reject** on the screen.

Q What should I do if I want to switch the call to my mobile phone while on a call via the system?

A Press and hold the [📞] button on the steering wheel or touch **Use Private** on the screen to switch the call to your mobile phone.

Q How do I access the contacts in my mobile phone from the system?

A When connecting your mobile phone to your system, permit the system to access the contacts saved in the mobile phone. The contacts will be downloaded to the system. To open the downloaded contacts list, press the [📞] button on the steering wheel and touch [📞] on the phone screen. You can search for a contact to make a call or add it to favorites. ▶ See p.6-6 "Using a Bluetooth phone."

Radio/media function

Q What is the range of my wireless connection?

A A wireless connection can be used within about 10 m (about 33 ft). The maximum Bluetooth range may be affected by the usage environment, such as the vehicle type, the system platform, or the connected mobile phone.

Q How many mobile devices can be paired?

A Up to five devices can be paired with your system.

Q Why is call quality sometimes poor?

A Check your mobile phone's reception sensitivity when call quality deteriorates. The call quality may deteriorate when the signal strength is low.

Call quality may also become poor if metal objects, such as beverage cans, are placed near the mobile phone. Check to see if any metal objects are near the mobile phone.

The call sound and quality may differ depending on the type of mobile phone.

Q What kinds of media and radio functions does my system have?

A Your system is enabled to play various radio services (FM, AM, HD Radio, SiriusXM, etc.) and audio through various types of media (USB, iPod, AUX, etc.). For more information, see the corresponding chapters.

Q I want to move to the previous or next song without touching the screen while driving. How do I do this?

A Push the [\wedge/\vee] lever on the steering wheel to move to the previous or next song.

Broadcast reception

Q No sound is heard or a distorted noise is heard when listening to the radio while driving.

A Depending on the location, the reception may deteriorate due to obstacles. If the reception diminishes, change the radio station to another one.

Attaching a window film including metal components to the rear window equipped with a glass antenna may lower radio reception.

How to self-check a system fault

Q My system does not operate normally. What should I do?

A Check your system by referring to the solutions explained in the troubleshooting sections. ► See p.10-2 "Solutions."

If the system still does not operate normally after following the relevant instructions, press and hold the reset button.

If the problem persists, contact your place of purchase or dealer.

➤ Music

Item	Specifications	
Audio file specification	MPEG-1/2 Layer3, OGG (Vorbis), FLAC, WMA (Standard/Professional), WAV	
Bit rates/Sampling frequency	MP3	8 to 320 kbps (CBR/VBR), to 48 kHz (ID3 tag version: Ver. 1.0, Ver. 1.1, Ver. 2.2, Ver. 2.3, Ver. 2.4)
	OGG	Q1 to Q10, to 48 kHz
	FLAC	8/16/24 bit, to 48 kHz
	WMA	<ul style="list-style-type: none">• Standard (0x161): to L3 Profile, to 385 kbps, to 48 kHz• Professional (0x162): to M0b, to 192 kbps, to 48 kHz
	WAV	8/16 bit, to 48 kHz
Detailed specifications	<ul style="list-style-type: none">• Maximum number of directory layers: 20• Maximum length of folder/file names: 255 byte• Supported characters for folder/file names: Alphanumeric characters, Korean standard character set 2,350 characters, Simplified Chinese 4,888 characters• Maximum number of folders: 2,000 (including ROOT)• Maximum number of files: 8,000	

Note

- You cannot play the following types of files:
 - Modified files (files whose file format has changed)
 - Variant files (for example, MP3 files encoded with WMA audio codec)
 - Files with digital rights management (DRM)
 - Files with no index
- Sound quality of music files using a bit rate in more than 192 kbps is not guaranteed.
- For files that do not use a fixed bit rate, some functions may not work or the playback time may be incorrect.
- If an error occurs when you play a file or the file is not in supported format, change the file format by using the latest encoding software.

● USB storage devices

Item	Specifications
Byte/Sector	64 kbyte or less
Format system	FAT16/32 (recommended), exFAT, NTFS

Note

- Operation is guaranteed only for a metal cover type USB storage device with a plug type connector.
 - USB storage devices with a plastic plug may not be recognized.
 - USB storage devices in memory card types, such as CF card or SD cards, may not be recognized.
- Any problems caused by the use of USB storage devices not listed in the following table are not covered by the warranty.

Product name	Manufacturer
XTICK	LG Electronics Inc.
BMK	BMK Technology Co., Ltd.
SKY-DRV	Sky Digital Co., Ltd.
TRANSCEND JetFlash	Transcend Information, Inc.

Product name	Manufacturer
Sandisk Cruzer	SanDisk
Micro ZyRUS	ZyRUS
NEXTIK	Digiworks Co., Ltd.

- USB hard disk drives may not be recognized.
- When you use a large capacity USB storage device with multiple logical drives, only files stored on the first drive will be recognized.
- If an application program is loaded on a USB storage device, the corresponding media files may not play.

■ iPod mode

➤ Supported devices

Device type	Model	Generation
iPod	iPod nano	1G, 2G, 3G, 4G, 5G, 6G, 7G
	iPod touch	1G (except for iOS 1.1), 2G, 3G, 4G, 5G, 6G
	iPod classic	5G (iPod with video), 6G (iPod classic), 6.5G (iPod classic)
iPad	iPad/iPad mini	Unable to charge, not certified, operation not guaranteed
iPhone		3G (not certified, operation not guaranteed), 3GS, 4, 4S, 5, 5C, 5S, 6, 6+, 6S, 6S+, SE, 7, 7+

➤ Supported OS

Device type	OS version
iPhone/iPod touch/iPod nano/iPod classic/iPad/iPad mini	iOS 9.3.2 or earlier

Common

Item	Specifications
Power supply	DC 14.4 V
Operating power	DC 9 to 16 V
Sleep current	<ul style="list-style-type: none">Average current within 96 hours of ACC off: 10 mA or lessAverage current after 96 hours of ACC off: 1 mA or less
Operating temperature	-20 to +70 °C (-4 to +158 °F)
Storage temperature	-40 to +85 °C (-40 to +185 °F)
Dimensions (W x H x L)	255.8 x 167 x 184 mm
Current consumption	2.5 A
Weight	2.16 kg

Display

Item	Specifications
Size (W x H)	8 inch (176.4 x 99.36 mm)
Pixel number	384,000 pixels (resolution: 800 x 480)
Operating method	Thin Film Transistor (TFT) Active Matrix
Viewing angle	Left/Right, Top/Bottom: 89°
Internal lighting	LED

Radio

Item	Specifications
Channels A2	<ul style="list-style-type: none">FM: 87.5 to 107.9 MHz (200 kHz)AM: 530 to 1710 kHz (10 kHz)
Sensitivity	<ul style="list-style-type: none">FM: 10 dBuV or lowerAM: 35 dBu EMF or lower
Distortion factor	2 % or less

Bluetooth

Item	Specifications
Frequency range	2400 to 2483.5 MHz
Supported Bluetooth specification	3.0
Supported profile	Handsfree (1.6), A2DP (1.2), AVRCP (1.5), PBAP (1.1)
Bluetooth Power Class 2	-6 to 4 dBm
Antenna power	3 mW (maximum)
Number of channels	79

Modem RF

Item		Specifications
LTE	Reception	<ul style="list-style-type: none">Frequency: 2110 to 2155 MHz (B4), 746 to 756 MHz (B13)Sensitivity: -96.3 dBm or lower @ 10 M (B4), -93.3 dBm or lower @ 10 M (B13) (Throughput \geq 95 %)
	Transmission	<ul style="list-style-type: none">Frequency: 1710 to 1755 MHz (B4), 777 to 787 MHz (B13)Maximum RF output power: Power Class3 (B4, B13), 20.3 to 25.7 dBm (conducted)
CDMA	Reception	<ul style="list-style-type: none">Frequency: 869 to 894 MHz (BC0), 1930 to 1990 MHz (BC1)Sensitivity: -104 dBm or lower (FER = 0.5 % or lower)
	Transmission	<ul style="list-style-type: none">Frequency: 824 to 849 MHz (BC0), 1850 to 1910 MHz (BC1)Maximum RF output power: Power Class3 (BC0), Power Class2 (BC1), 23.01 to 30 dBm (conducted)

Important information

Before using your system, read and follow all instructions and safety information provided in this user's guide ("User's Manual"). Not following precautions found in this guide can lead to an accident or other serious consequences.

Keep this guide in your vehicle

When kept in the vehicle, this guide will be a ready reference for you and other users unfamiliar with the system. Ensure that before using the system for the first time, all persons have access to this guide and read its instructions and safety information carefully.

Warning

Operating certain parts of this system while driving can distract your attention away from the road, and possibly cause an accident or other serious consequences. Do not change system settings or enter data non-verbally (using your hands) while driving. Stop the vehicle in a safe and legal manner before attempting these operations. This is important since setting up or changing some functions as you drive may distract your attention away from the road and removing your hands from the steering wheel may cause you to lose control of the vehicle.

General operation

■ Voice command control

Features within the system may be executed using only voice commands. Using voice commands while driving allows you to operate the system without removing your hands from the steering wheel.

■ Prolonged views of screen

Do not access any function requiring a prolonged view of the screen while you are driving. Pull over in a safe and legal manner before attempting to access a function of the system requiring prolonged attention. Even short views of the screen may be hazardous if your attention has been diverted away from your driving.

■ Volume setting

Do not raise the volume excessively. Keep the volume at a level where you can still hear outside traffic and emergency signals while driving. Driving while unable to hear these sounds could cause an accident.

| Navigation features

Navigation features included in the system are intended to provide detailed instructions to get you to a desired destination. Ensure that all persons using this system carefully read and follow all instructions on safety information.

| Distraction hazard

Some navigation features may require manual (non-verbal) setup. Attempting to perform such setup or inputting data while driving can seriously distract your attention and could cause an accident. Stop the vehicle in a safe and legal manner before attempting these operations.

| Let your judgment prevail

Any navigation features are provided only as an aid. Make your driving decisions based on your observations of local conditions and existing traffic regulations. Any such feature is not a substitute for your personal judgment. Any route suggestions made by this system should never replace any local traffic regulations or your personal judgment or knowledge of safe driving practices.

| Route safety

Do not follow the route suggestions if doing so would result in an unsafe or illegal maneuver, if you would be placed in an unsafe situation, or if you would be directed into an area that you consider unsafe. The driver is ultimately responsible for the safe operation of the vehicle and must evaluate whether it is safe to follow the suggested directions.

| Potential map inaccuracy

Maps used by this system may be inaccurate because of changes in roads, traffic controls or driving conditions. Always use good judgment and common sense when following the suggested routes.

| Emergency services

Do not rely on any navigation features included in the system to direct you to emergency services. Ask local authorities or an emergency services operator for these locations. Not all emergency services such as police, fire stations, hospitals and clinics are contained in the map database for navigation features.

| Use of speech recognition functions

Speech recognition software is inherently a statistical process which is subject to errors. It is your responsibility to monitor any speech recognition functions included in the system and address any errors.

Trademarks

- Bluetooth® Wireless Technology: The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG Inc., and any use of such marks by Kia is pursuant to license. A Bluetooth® enabled cell phone is required to use Bluetooth® wireless technology.

- Google, Android, Android Auto, and Google Play are registered trademarks of Google LLC. Distracted driving can result in a loss of vehicle control. Never use a handheld device or vehicle system that takes your focus away from safe vehicle operation.
- Apple®, Apple CarPlay™, iPad®, iPad mini™, iPhone®, iPod®, iPod classic®, iPod nano®, iPod touch®, iTunes®, and Siri® are trademarks of Apple Inc. Distracted driving can result in a loss of vehicle control. Never use a handheld device or vehicle system that takes your focus away from safe vehicle operation.

- HD Radio™ Technology is manufactured under license from iBiquity Digital Corporation. U.S. and Foreign Patents. For patents, see <http://patents.dts.com/>. HD Radio and the HD, HD Radio™, and "ARC" logos are registered trademarks or trademarks of iBiquity Digital Corporation in the United States and/or other countries.

- Sirius, XM, SiriusXM and all related marks and logos are trademarks of SiriusXM Radio Inc.
- Other trademarks and trade names are those of their respective owners.

Disclaimers

- Driving while distracted is dangerous and should be avoided. Drivers should remain attentive to driving and always exercise caution when using the steering-wheel-mounted controls while driving.
- Driving while distracted can result in a loss of vehicle control that may lead to an accident, severe personal injury and death. The driver's primary responsibility is in the safe and legal operation of a vehicle, and use of any handheld devices, other equipment or vehicle systems which take the driver's eyes, attention and focus away from the safe operation of a vehicle or that are not permissible by law should never be used during operation of the vehicle.
- SiriusXM®: SiriusXM Satellite Radio, SiriusXM Traffic and SiriusXM Travel Link each require a subscription sold separately, or as a package, by SiriusXM Radio Inc. If you decide to continue your service at the end of your trial subscription, the plan you choose will automatically renew and bill at then-current rates until you call 1-866-635-2349 to cancel. See SiriusXM Customer Agreement for complete terms at www.siriusxm.com. Other fees and taxes will apply. All fees and programming are subject to change. Not all vehicles or devices are capable of receiving all services offered by SiriusXM.
Data displays and individual product availability vary by vehicle hardware. Current information and features may not be available in all locations, or on all receivers. Weather Forecast, Current Conditions may not be available in all locations. Images above are for representative purposes only and are not real products. For actual features and images of real products, consult the vehicle manufacturer. SiriusXM is not responsible for any errors or inaccuracies in the data services or their use in the vehicle. Travel Link Stocks displays current price and daily delta of around 7,000 actively reported securities traded on the NYSE®, NASDAQ® and AMEX®. The service is delayed approximately 20 minutes. SiriusXM satellite service is available only to those at least 18 years of age in the 48 contiguous USA, DC, and Puerto Rico (with coverage limitations). SiriusXM Internet Radio service is available throughout our satellite service area and in AK and HI. ©2018 SiriusXM Radio Inc.
- Android Auto: Vehicle user interface is a product of Google and its terms and privacy statements apply. Requires the Android Auto app on Google Play and an Android compatible smartphone running Android™ 5.0 Lollipop or higher. Data plan rates apply.
- Navigation: Distracted driving can result in a loss of vehicle control. When operating a vehicle, never use a vehicle system that takes your focus away from safe vehicle operation. Navigation is for information purposes only, and Kia does not make any warranties about the accuracy of the information.

FCC Certification

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment should be installed and operated with minimum 20 cm between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter unless authorized to do so by the FCC.
